

Foreign.

From Europe.—By different arrivals at N. Y. we have Liverpool dates to the 8th, and Havre to the 11th September. The articles of news are unimportant—and the commercial advices, with the exception of the British Order in Council opening the ports for the admission of foreign Grain, wear about the same aspect as our last accounts. No improvement in trade.

It is conjectured that the effect of the lately issued order in council, for the admission of grain, will be to make England a customer to the foreigner to the amount of four millions.

Lord Cochrane.—Letters from Constantinople, state that Stratford Canning, in order to quiet the discontent of the Turkish Government, has declared to the Divan that Lord Cochrane was no longer a British subject, and that if he was taken prisoner in the war against the Porte the English Cabinet would not demand him.

Greece.—The Italian Journals contain the following article, dated Ancona, Aug. 15:—"Letters direct from Napoli de Romania, give minute details of an important battle fought near Ancient Laconia, in the country of the Mainotes in which the Turco-Egyptians lost several thousand men, besides all their baggage and artillery, which fell into the hands of the Greeks. It was added that Ibrahim Pacha was forced to flee, in order to avoid being taken prisoner, and was indebted for his escape to the swiftness of his horse. The Greeks likewise suffered great loss, and Gen. Nikitag was among the slain.—The English Col. Gordon commanded a division of the Greek troops."

Portugal.—The accounts from Lisbon are to the 27th of August. An official statement is published in the Gazette of the 22d, from which it appears that the Portuguese Capital has been the scene of a conspiracy, the object of which was to proclaim a new King and a new Regency. It is not known in whose favor this treasonable enterprize was conceived, but it was supposed it would have been in favor of Don Miguel for King, and the Queen Dowager for the head of the new Regency. The principal conspirators were the cavalry corps of police, excited "by chiefs not belonging to that corps."

Denmark.—By an article from Copenhagen of the 26th ult. it appears that on the 26th of April, a general treaty of amity, commerce and navigation, was concluded at Washington between Denmark and the U. States, by which the contracting parties agree to treat each other on the same footing as the most friendly nations. The treaty is in twelve articles, and is signed by the Danish Minister.

Peru.—The latest account from this country are up to the 6th of April.—The Congress was hold-

ing preparatory sessions. There had been some disturbance about the mode of examining the powers of the Deputies, which rose to such a degree that Bolivar declared he would leave Peru, and abandon it to the horrors of anarchy. He was however, dissuaded from his design by the entreaties of the Congress, and tranquility appears to have been restored.

Spain.—The trial of the seventy-two deputies who voted the inability of Ferdinand to reign, in 1823, has finished. They are condemned to be strangled and their property confiscated.

Russia.—A Paris Journal of the 30th August says, "our German correspondent informs us that the house of Rothschild received on the 25th inst. a courier from Moscow, with despatches of un auspicious contents, and relating to troubles that have broken out in that ancient capital of Russia."

A foreign journal announces, that there is at present residing in Naples a young man, 28 years of age, a native of Brischel, in Barbary, whose hair has attained, in all directions the extraordinary length of four feet, and is of the consistency of hog's bristles.

Tarborough,

TUESDAY, OCT. 24, 1826.

The Crops.—Notwithstanding the unfavorable reports, received at intervals through the summer of the crops generally in different parts of this State, our accounts at present will justify the assertion, that with the exception of a few counties, the average crop of this year will nearly, if not quite, equal that of last year. Cotton in this place commands at present from 8 to 9 cents per pound, and Corn about three dollars per barrel. The Elizabeth-City Star informs us that Corn can be purchased there from 40 to 50 cents per bushel. The Salisbury Carolinian says: "new Corn has been sold at this place at 50 cents per bushel delivered; and we have heard of some being sold at 40 cents per bushel at the heap." The Hillsborough Recorder says: "A sufficiency of Corn may be obtained at this place, from two to two and a half dollars per barrel." By the above extracts it will be perceived, that Corn commands a better price in this vicinity than in the eastern or western sections of the State, or even in some of the middle counties; notwithstanding it was confidently asserted abroad a short time since that the county of Edgecombe alone could furnish 20,000 barrels for export.

Cotton.—The price of the new crop may be said to have started fairly at 10 cents. Within a few days the article has been brought to Market in considerable quantities, and disposed of, sometimes at a half cent less, in a few instances at a quarter cent beyond this rate; but we cannot vary our quotations to suit occasional sales. We confess, after reflecting ma-

turely on the state of the Markets abroad, considering England as the great purchaser of our Cotton, we have but a faint expectation of any material improvement for some time to come—taking into the account as we do the large stock on hand, the want of vent for the manufactured articles, and with the certainty that the continued production of the raw material in this country more than keeps pace with the demand of those who work it up in that. We think upon the whole, our country friends should make up their minds to take present prices, knowing them to be the highest the existing state of things will justify—sell their Cotton as soon as they have it ready, and not withhold it from market under the delusive expectation of an advance, which at least is an unwise course for a Planter or a Farmer to pursue, as the experience of last year must have convinced many of them.

Petersburg Int.

Sports of the Turf.—The Fall Races over the New-Market Course commenced on Tuesday last, with a contest for a Sweepstakes for three year old colts and fillies, two mile heats.—Three started; and the purse was taken by Mr. Anthony's filly by Sir Archy, beating Mr. Johnson's *Pirate* and Mr. Winn's *Timoleon*. The second heat was a close struggle between Mr. A's filly and Mr. J's colt; and was gained only by about twelve inches.

Wednesday being very wet, the Course was extremely heavy, and but few spectators attended. The Proprietor's Purse, three mile heats, was run for, and was won with ease by Mr. Johnson's *La-Fayette* by Virginian, beating Mr. Harrison's *Lady La Grange*, Mr. Winn's *Restless*, and Mr. West's *Lady Greenville*.

Thursday, the Jockey Club Purse, value \$500, four mile heats, was run for, and taken by Mr. Winn's *Ariel*, distancing the first heat, Mr. Irby's *Betsy Archer*, and beating with ease the second Mr. Botts's *Phillis*.

The races terminated on Friday, when the Annual Post Stake, two mile heats, was won by Mr. Cunningham's *Pirate*, beating three others. The minutes of each day's Racing, we shall publish in our next.—*ib.*

Long Island Races.—The races over Union Course, commenced on Tuesday, 3d inst.

First Day.—Association Purse \$500, four mile heats, taken with ease at two heats by Mr. Stevens' s. m. *Janet*, beating Mr. Laird's b. h. *American Boy*, and Mr. Potter's g. h. *Marktime*. Time—first heat 7 minutes 48 seconds; second heat no time given.

Second Day.—Purse \$300, three mile heats, taken with ease at two heats by Mr. Laird's horse *Lance*, beating Mr. Van Mater's s. h. *Flagellator*, Mr. Potter's s. h. *Fairfax*, Mr. Badger's b. h. *Hazard*, and one other. Time—first heat 5m. 56s.; second heat, 6m. 2s.

Third Day.—Purse \$200, two mile heats, taken at three heats by Mr. Badger's b. h. *Trumpeter*, beating Mr. Potter's g. h. *Marktime*, Mr. Stevens' s. f. *Lalla*

Rookh, Mr. Laird's s. f. *Transport*, and Mr. Treadwell's s. m. *Angelica*. Time—first heat, 3m. 50s.; second heat 3m. 54s.; third heat 3m. 54s.

Trotting Course.—The first day, the silver plate of the New York Trotting Club, was trotted for in harness, two mile heats, and won in two heats by *Trouble*, beating three others. Time, first heat, 5m. 27s.; 2d heat, 5m. 31s.

A sweepstakes of \$100, three mile heats was trotted for in the afternoon, and taken at three heats by *Betsy Baker*, beating three others. Time first heat 8m. 21s.; second heat, 8m. 20s.; third heat, 8m. 19s.

Fever at Norfolk.—The Herald of the 16th, states that since the last report, 10 deaths of malignant fever have occurred at that place.

Raleigh, Oct. 17.—We are concerned to state, that Judge MANGUM, from a return of sickness, was unable to hold Franklin Court last week. The Judge, though weakly, and much reduced in appearance, from the illness with which he was attacked at the close of Edgecombe Court, held the Court of this County, which occupied the whole week; but after the business was finished, he took to his bed, and was not able to leave the city until Monday, in time to reach his brother's on the northern border of this County, on his way to Franklin, intending to proceed to Louisburg the next day; but in the morning he found himself unable to travel, and has been confined all the week. We are happy to learn, however, that he is better, and hoped to hold Warren Court, which would commence yesterday.—*Register*.

False report.—The report which has been so generally circulated, of the death of Mr. *Watts*, the Charge d' Affaires of the U. S. in Colombia, turns out to be a base fabrication. We say base, because the author of the paragraph in question, not content with killing Mr. *Watts*, shamefully libelled his character.

Greensborough, Oct. 11.—Jesse Upton was tried last week at the Superior Court, for the County of Davidson, Judge Daniel presiding, and was found guilty. Sentence was suspended until the next court. Some time since Upton murdered his wife in Randolph county and absconded to Tennessee, where he was apprehended and brought back to Randolph; his trial was removed to Davidson where there is no doubt he has received justice.

Samuel J. Hamilton was tried for the murder of Adam Hetric, and acquitted. He had for several weeks after the murder kept out of the way to avoid imprisonment.—*Pat.*

Gold Mine near Lynchburg, Va.—We were, last Monday, (says the Lynchburg Virginian, of the 5th inst.) shown specimens of Gold which have lately been picked up on the land of Col. Wm. I. Lewis, near Lynchburg, which were perfectly free from alloy. We un-
