

## Miscellaneous.

TO —

In witching slumbers of the night,  
I dream'd I was the airy sprite,  
That on thy natal moment smiled:  
And thought I wafted on my wing,  
Those flowers which in Elysium spring,  
To crown my lovely mortal child.

With olive-branch I bound thy head,  
Heart's-ease along thy path I shed,  
Which was to bloom thro' all thy years:  
Nor did I yet forget to bind  
Love's roses, with his myrtle twin'd  
And dew'd by sympathetic tears.

Such was the wild but precious boon,  
Which fancy at her magic noon,  
Bade me to \*\*\*\*\*'s image pay:  
Oh! were I, love, thus doom'd to be  
Thy little guardian deity,  
How blest around thy steps I'd play!

Thy life should softly steal along,  
Calm as some lonely shepherd's song,  
That's heard at distance in the grove:  
No cloud should ever shade thy sky,  
No thorns along thy pathway lie,  
But all be sunshine, peace and love!

The wing of time should never brush  
Thy dewy lip's luxuriant flush,  
To bid its roses withering die:  
Nor age itself, though dim and dark,  
Should ever quench a single spark,  
That flashes from my \*\*\*\*\*'s eye.

## Herrings & Shad.

JUST RECEIVED, and for sale by  
the Subscriber, some prime

*New Herrings & Shad,*

Of a superior quality, which can be had  
on application to

JOS. L. SIMMONS.

Halifax, April 12, 1828.

## \$20 Reward.

I WILL give the above re-  
ward to any person who will  
apprehend and safely lodge in  
jail in the town of Halifax, ne-  
gro man PETER, who eloped  
from me about the 24th of March last.  
Said negro was formerly the property of  
Mr. James Jones, of this county. I  
purchased said negro at August Court  
last. Peter has a wife at Dr. Vaughan's,  
near Mr. Nickels' store, Scotland Neck,  
where I expect said negro is lurking  
about at this time. Said fellow has a  
dark complexion, is stout and well made,  
and about thirty-five or forty years  
of age.

RICKS FORT.

Halifax County, near Enfield, }  
May 22, 1828. 41-3 }

## Notice.

ALL Persons are hereby cautioned a-  
gainst purchasing from Isaac D. Gui-  
on, the land of Thos. Guion, deceased—  
the Subscriber having a lien on said  
land, under authority of the will of  
said deceased, for the sum of \$1500,  
which must be paid before the said Isaac  
D. Guion is entitled to the land.

WM. R. DUPREE.

Jan. 24, 1828. 23

## Notice.

COMMITTED to the Jail of Edge-  
combe county, N. C. on the 16th of  
November, 1827, a negro fellow, who  
says his name is HENRY, that he is  
the property of Mr. James Okrey or  
Akrey, and that he was purchased by  
Mr. Okrey from Mr. Amos Rawls, of  
Nansemond county, Va. Henry is a-  
bout 30 years of age, 5 feet 9 or 10 in-  
ches in height, spare built, no marks  
perceivable. The owner is requested to  
come forward, prove his property, pay  
charges and take him away, or he will  
be dealt with as the law directs.

FRED. BELL, Jailor.

Nov. 1827. 15

The Raleigh Star will please insert  
the above until otherwise directed, and for-  
ward the account to this office for collec-  
tion.

## DOCTOR WM. JUDKINS'

### PATENT SPECIFIC OINTMENT,

Made & Sold Wholesale & Retail, at Mountpleasant, Ohio,

By Dr. WM. JUDKINS & N. SHEPHERD,

Price One Dollar.

TO THE PUBLIC.

WHEN I first made and prepared this Ointment and had  
in several instances experienced its good effects, I con-  
cluded that it would be a valuable public benefit, if its ef-  
fects generally were equal to those I had the satisfaction of  
experiencing; and in order more fully to prove its virtue, I  
sent it to several Physicians, with instructions in what cases  
to apply it, and requested them after they had become satis-  
fied with respect to its virtues, to send me the result of its  
effects. I accordingly received returns from those Physi-  
cians, who all unitedly agreed that the Ointment had succeed-  
ed admirably, in those obstinate cases which are oftentimes  
considered incurable, except by some surgical operation: they  
were also of the same opinion that the Ointment would be a  
valuable public benefit, and advised me to publish it general-  
ly in the newspapers, and direct the applicants where it  
might be obtained. As this advice came from some of the  
most respectable Physicians in this country, I concluded that  
it was the most proper method that could probably be adopt-  
ed. But upon further consultation and more mature consid-  
eration, I concluded that as the Ointment would occasionally  
fall into many hands, some of whom would probably under-  
take to make it, and knowing that all attempts to make it by  
the inexperienced would prove abortive—nevertheless it  
might be propagated in this adulterated situation, as it might  
in some degree resemble the original and genuine Ointment;  
and in this way its good effects would be obliterated; the  
public confidence would thereby be destroyed, and the Oint-  
ment fall into disrepute, and become a nuisance both to my-  
self and to those whom it was intended to relieve. Under  
these considerations, I finally concluded to secure the origi-  
nal and proper right of making, vending, &c. and thereby re-  
tain the good qualities and virtues of the Ointment.

In that genuine form I now offer it to the public, as a safe  
and certain remedy for those obstinate diseases, some of  
which have so long baffled the skill of medical science.

1st. *White Swellings* of every description.

2d. *Sore Legs and Ulcers* of long standing.

3d. *Schirrus, or Glandular Tumours*, particularly those  
hardened tumours on women's breasts, which oftentimes ter-  
minate in ulcerated cancers.

4th. *Felons*, or what some people know by the name of  
*Catarrhs*, of every description.

5th. *Rheumatic Pains* of the joints.

6th. *Sprains and Bruises* of every description, or in  
whatever part situated.

7th. *Tetters* of all kinds. In this complaint the patient,  
in applying the Ointment, must keep the part out of water.

8th. *Chilblains*, or parts affected by frost.

It is also one of the best remedies for *Burns and Scalds*.  
It eases the pain and draws the fire out in a short time.

For Women's inflamed Breasts, and Glandular Swellings,  
it is superior to any medicine yet known to the medical fac-  
ulty. It is much safer than mercurial applications, because  
it does not lay the patient liable to injury from exposure to  
cold.

This Ointment has cured sores of many years' standing.  
Where it is impossible or imprudent to heal the external sore  
in consequence of the bones becoming carious or rotten, it  
will stop the progress of the caries, increase the quantity of  
the discharge, remove the offensive smell, and ease the pain.

It cures the worst Felons or Whitlows, on an application  
of forty-eight hours.

Rheumatism which have stood so long as to become a sys-  
tematic disorder, require medicines to be taken inwardly to  
remove them entirely. But in most common cases, by ap-  
plying this Ointment externally as directed, it will give re-  
lief; and even in old people, whose pains have been of long-  
er standing, it will often ease the pain.

Here follows an extract of a letter from Dr. I. Parker,  
dated near Mountpleasant, Twelfth month, 1815.

To Dr. WM. JUDKINS:

I tried thy Specific Ointment in several cases, in which  
I found it very useful, and in particular in a case of a wom-  
an's breast, which was affected with a hardened schirrus tu-  
mour, and had been so for several years, and which I was of  
opinion nothing but a surgical operation would remove. I  
applied the Ointment to the breast, and in about ten days the  
tumour in a perceptible degree had diminished and become  
much softened, and by a continuation of the Ointment it alto-  
gether subsided, and remains well.

As it succeeded in this case beyond any thing of the kind  
I have ever seen, I am induced to furnish this statement for  
the benefit of those in a similar situation.

ISAAC PARKER.

From Dr. J. Wishart, dated Washington, Pa. April 7, 1816.

After mentioning a cure of Chronic Rheumatism, &c.  
the Doctor says—"In Tetters, Ring-worms, &c. it has done  
wonders: it has restored youth and beauty to every diseased  
part to which it has been applied. My wife had a very ob-  
stinate herpetic eruption on her hands, which had been cured  
twenty times, and which had returned as soon as cured: but  
it has remained well ever since the application of your Oint-  
ment. It has also been applied to a number of other cases  
with equally beneficial effects. Yours, &c.

Dr. W. Judkins.

JOHN WISHART.

From Joseph Steer, near Mountpleasant, Ohio.

For the benefit of those who may be afflicted with Glandu-  
lar affections, I am willing to state, that I had two or three

large hardened tumours of this kind under my arm, which  
were very painful, and which had remained there for a con-  
siderable time. After making use of other remedies without  
removing the tumours, I was advised to apply some of Dr.  
Wm. Judkins' Patent Specific Ointment. I did so, and found  
that the first application softened the external parts of the tu-  
mours, and relieved the pain; and the third plaster produced  
a very neat and complete cure. Since then, I have often re-  
commended it to my friends in similar affections.

11th Month, 1821.

JOSEPH STEER.

Harrison County, Ky. Feb. 17, 1822.

Dr. WM. JUDKINS:

Dear Sir—I have been afflicted for fifteen years with the  
Rheumatism in one of my knees, which at times rendered  
me useless; having heard of the many great cures it has effec-  
ted in your county, I was induced to get a box of your Spe-  
cific Ointment, and by the application of it the pains have  
subsided, and I remain well, tho' my age is seventy-seven.

WIDOW MATTOX.

April 2, 1822.

Dr. WM. JUDKINS:

Sir—This is to certify that sometime in July, 1820, I  
was attacked with the Rheumatism in my arm, which pre-  
vented me from attending to my business, or getting rest at  
night; I was at times unable to raise my arm to my head. I  
got a box of your Specific Ointment, and that box has resto-  
red that arm to be as good and strong as it ever was, and from  
the knowledge I have of it for Burns, Cuts, and Bruises, do  
believe it to be the best salve I ever was acquainted with.

Your's with respect.

SAMUEL M'MURTHY.

Harrison County, Ky. Jan. 30, 1822.

Dr. WM. JUDKINS:

Dear Sir—I have been afflicted for two years and five  
months with a sore foot occasioned by bleeding. I applied  
for medical aid which cost me fifty or sixty dollars, and my  
foot remained uncured. I got a box of your Specific Oint-  
ment, and the benefit I received from it induced me to get  
one more, which has effected a perfect cure.

ROBERT KING.

Southampton County, Va. 1827.

I do certify that I had a negro woman that was afflicted  
with a rising breast, and I applied to a physician to know  
what to do for it; he examined and then prescribed for it, and  
told me if that did not relieve it, it was his opinion it would  
have to be cut off, though, in the mean time, I got some of  
Dr. W. Judkins' Patent Specific Ointment and applied that:  
in the course of three weeks or such a matter, the woman was  
perfectly relieved, and I done nothing else but applied the  
Ointment. I have also applied it to fresh cuts, and found it  
to answer a very good purpose. Given under my hand.

WM. H. GEE.

Northampton County, N. C. 1827.

I do certify that I had a negro boy who had a very dan-  
gerous Ulcer on his leg for above four months, during which  
time I employed medical aid and the wound continued to get  
worse, and appeared very much like a mortification was a-  
bout to take place, and meeting with Mr. Judkins, I pur-  
chased two boxes of his Specific Ointment, and before I had  
used one of them the Ulcer was entirely well. I do likewise  
certify that I had a Whitlow rising on one of my fingers and  
I applied some of said Ointment, and in the course of two or  
three days it was entirely well.

H. N. EDMONDS.

The following new and highly respectable testimonial of the  
efficacy of the Ointment, in curing one of the diseases for  
which it is deemed a remedy, has been lately received from  
the Hon. John Cocke, member of the House of Represen-  
tatives, in Congress, with permission to publish the same.

Washington, March 22, 1826.

Sir—My son being afflicted for five years with white  
swelling, and having applied every remedy recommended by  
the most eminent physicians within my reach, without suc-  
cess. I at length procured one of Dr. Judkins' Patent Spe-  
cific Ointment, and made the application according to the di-  
rections accompanying the Ointment, and state, for the bene-  
fit of the afflicted, that before the one jug was used, a perfect  
cure was effected. My son has enjoyed good health ever  
since. I have no doubt to the Ointment alone he is indebt-  
ed, as nothing else was used for more than nine months be-  
fore the application of the Ointment. Respectfully,

JOHN COCKE.

[I have a large mass of testimony in my possession, shew-  
ing the cures that have been performed by this Ointment;  
but as trial will be more likely to satisfy every person, I  
shall here omit them.]

## Mode of Application.

The Ointment is to be spread thin, on writing paper, full  
as large as the tumour or sore to which it is applied, and  
continued on for twenty-four hours, then remove it and ap-  
ply a new plaster in the same manner. If the tumour or  
sore is an ulcerating one and discharges much matter, then  
and in that case it is necessary to remove the plaster twice a  
day, and clean the ulcer, then the same plaster will do for  
two dressings.

It is also necessary to observe that in some of those chro-  
nic diseases to which the Ointment has been of a singular  
service it has, on application of the first plaster, produced an  
increase of pain in the part for several minutes, and in some  
instances for near an hour. But such an increase of pain in  
the part, produced by the application of the first plaster, is a  
certain omen of an entire cure.

WM. JUDKINS.

The above Ointment can be procured at  
the store of R. & S. D. Cotten in Tarboro', and  
at the Post-Office in the town of Halifax.
