

gold promptly for 91 cts. per lb. we have to notice the arrival, yesterday about noon, of 30 well packed square bales of fair quality in waggons, which was raised by Mr. S. M. Nickels, of Scotland Neck, Halifax County, (N.C.)—94 cents was readily obtained for this parcel.—*Beacon*

Petersburg, Jan. 5.—The market.—For the last two weeks, owing to the Christmas holidays, very little business has been done. The small quantity of Wheat which has been brought in, has been sold at \$1:37 to 1:40. Cotton, 8 to 91. Pork, 34 to 4.—*Times*.

Georgia.—The Legislature of Georgia have passed an act for establishing at Milledgeville a bank, to be called the *Central Bank of Georgia*—Its capital stock is to consist of the money in the Treasury not otherwise appropriated, the Bank Stock owned by the State, all bonds, notes, &c. due the State, and all monies arising from the sales of fractions and town lots.—All taxes and dividends of stock of other banks to be deposited in this bank, subject to drafts authorized by legal appropriations. Accommodation notes to be renewed at least once in six months—Loans to be distributed as equally as practicable among the Citizens of the State, having regard to the population of the different counties—no loan to exceed \$5000.

The Tariff.—Mr. Madison has addressed two letters to a friend, in which he maintains the Constitutionality of a Tariff of duties on imports for the protection of Domestic Manufactures. These letters are too long for publication whilst so much room is occupied by Legislative proceedings, which are of more immediate interest to our readers. The character of the writer, his having been a Member of the Convention which framed the Constitution, President of the U.S. &c. and his being a Virginian, (which State holds the reverse of his opinion,) will, altogether, give his opinion great weight.

Cape Fear Bank.—Some of our readers in the country will no doubt be interested to learn, that the notes of this Bank are completely at par with those of the E. S. Bank, and that the Branch in this town promptly redeems all notes presented, of whatever Branch, (which is more than it is bound to do,) with specie or U. S. Bank Notes, at the option of the holder.—*Fayetteville Obs.*

Our Cotton Trade.—It has been urged by the advocates of the Tariff, that Great Britain cannot supply herself with cotton from any country but the United States. Facts are the best commentary on this doctrine, and much as we may wish that it might be true we fear that facts will show it to be an utter mistake. Let those who hold this opinion look at the following table which we have extracted from an account of sales and imports of cotton published at Liverpool on the 1st of November. We recommend it also to the attention of the proprietors of the Southern planta-

tions, of the Northern merchants, and of the Legislature of the nation. In the business of supplying the English cotton market, it appears that other countries are rapidly gaining on the United States. Within a short period a surprising diminution has taken place in the importation of Cotton into England from all the large commercial ports in this country, from New Orleans to Portland. The imports from most other countries have proportionably increased. Pernambuco, Bahia, Maranham, Egypt and the East Indies have become our rivals. If they have gained upon us so rapidly during the past year what will be the case in the next, when the certainty of finding a market shall have extended the cultivation of this article? Is it not unwise, even to madness, to persist in a policy which threatens to cut up by the roots what has hitherto been the most flourishing and productive staple of our country?

Import in the first ten months in each year.

Historical Fact.—Mr. J. T. Yagart was elected a Senator from the county of Columbiana to the second General Assembly of the State of Ohio. He appeared and made the necessary oaths, and took his seat; in a few days he became melancholy which soon progressed to insanity. In his insane ravings, he disclosed that he was not thirty years of age when he took the oaths of office and his seat; and that his conscience upbraided him with the commission of perjury in taking an oath to support the constitution, and at the same moment taking a seat in violation of its provisions. From this insanity he never recovered, and survived its commencement but a few months...*Cin. Gaz.*

POSTSCRIPT.

The mail of yesterday brought us the Raleigh Register of Tuesday, from which we extract the following:

The Banks.—After a Debate of several days, in which great ability was displayed, and in which much abuse was cast upon these Institutions and their directors, Mr. Potter has so far succeeded in his design of putting down the Banks, as to have obtained the passage of his bill on its first reading, 66 votes to 54, directing the Attorney-General of the State to institute prosecutions against them. But though this bill has passed its first reading, several of the members who voted for it, said they did so for the purpose of seeing whether the bill could not be made less objectionable on its second reading, which was made the order of the day for yesterday.
