THE GREAT KENTUCKY SCIENTIST AND CAVE EXPERT GIVES HIS IMPRES-SIONS OF OUR SUBTERRA-NEAN RIVER.

The discovery of the great subterranean river under Eirmingham has been the great topic of conversation the past week. Great excitement has prevailed, and so great was the in. terest taken in it that Dr. Jos. R. Smith; W. S. Brown, Wm. Hood T. Brown, Wm. Berney, Geo. C. Kelly, J. B. Farle and other leading cit izens held a meeting at which it was decided to telegraph Prof. Joseph Mulhattan, the great Kentucky scientist and cave expert, the facts in the case and urge him to come at once to give it a thorough exploration. The result was that Prof. Mul hattan arrived from Luisville on Friday evening, and a party composed of the above named gentlemen spent all day yesterday exploring the great subterranean wonder. A strong boat was quickly improvised in the cave from lumber which was lowered through the narrow inlet and the parleast fifteen miles before there was Autop morning sases the master that can be easily cleared away. in his letter to refer to or explain the

A TOUCHING INCIDENT.

YOUNG GIRL'S DEMENTIA-HOW IT WAS OCCASIONED-SOME NEW AND STARTLING TRUTHS.

The St Louis express on the New York Central road, was crowded one evening recently, when at one of the way stations, an elderly gentleman, accompanied by a young lady, entered the cars and finally secured a sent. As the conductor approached the pair, the young lady arose, and in a pleading voice, said:

"Please, sir, don't let him carry me to the asylum. I am not crazy: I am a little tired, but not mad Oh! no indeed. Won't you please have papa take me back home?"

The conductor, accustomed though he was to all phases of humanity. looked with astonishment at the pair as did the other passengers in their vicinity. A few words from the father, however, sufficed, and the conductor passed on while the young lady turned her face to the window. The writer chanced to be seated just behind the old gentleman and could not forego the desire to speak to him. With a sad face and a trembling voice the father said:

"My daughter has been attending the seminary in a distant town and was succeeding remarkably. Her natural qualities, together with a great ambition, placed her in the studied too closely, was not careful of her health, and her poor brain has been turned. I am taking her to a private asylum where we hope she will soon be better."

At the next station the oid man and his daughter left the cars, but the incident, so suggestive of Shakespeare's Ophelia, awakened strange per cent. during the decade between vember. OPPOSITE OPINIONS ABOUT A WONDERFUL WOMAN-HER THUNB AND FINGERS:

That Doughty Duchess.

"But I do mean it," affirmed her big brother, who had taken severa. prizes in athletics, "and I reassert it: hat Churga, wife of Duke Ern est, of Austria, could crack nuts with er fingers and drive nails into the

wall with her thumb." "What a monstrous woman!" said The Austrian Duchess was mighty because she kept good hours, good

habits and perfect digestion. Mrs. Allice Strong, of Pittsburg, Pa. writes a different story about herself, but deserves praise for her frankness. She says: "For the past three years I have been subject to severe attacks of colic and cramps, and exhausting attacks of Diarrhoea. Weary of experimenting with medicines, I turned. without hope, to PARKER'S TONIC. Three bottles cured me' entirely. I have tried it also for other adments with which women are often afflicted and it far surpassed my expectations. I am happy to offer this testimony for the benefit of other women."

sLwhadieo rre interested in Mrs. Strong's letter, will please remark that PARKER'S TONIC is not intoxicant. It cures colic easily, but by virtue of many rare and powerful ingredients, it also masters all diseases of all disorders of the Kidneys, Liver pur Stomache. It is a vitalizer and stimulent, but not an intoxicant Hiscox & Co., Chemists, New York.
