On last Thursday, Edward
 VII was proclaimed King of
 Great Britain and Ireland.

Queen Victoria will be bur-
 ed on Saturday, February 2nd.
 The interment will be at Wind-
 sor by the side of her husband.
 The preparations for the funeral
 indicate the greatest pageant
 ever known to the world.

Love your children and they
 will love you in spite of all
 your shortcomings; keep faith
 with them and they will keep
 faith with you; treat them
 courteously and they will be
 courteous; maintain high ideals
 and they will follow them; make
 them the centre of your life
 and they will make you the
 centre of their lives.—Caroline
 Leslie Field, in the February
 Ladies Home Journal.

The Enterprise is glad to see
 that the County Commission-
 ers have adopted the sugges-
 tions made and so earnestly ad-
 vocated by it, by letting the
 contract for two iron bridges
 which are now being construct-
 ed, one over Sweeten Water
 Creek, near town, and the
 other over Deep Run Creek in
 Goose Nest Township. This
 we deem a wise expenditure of
 the County's funds and we
 heartily congratulate our ex-
 cellent Board upon these steps.

A newspaper whose columns
 overflow with ads of business men
 has more influence in attracting at-
 tention and building up a city or a
 town than any other agency that
 can be employed.—Ex.

The Raleigh correspondent of
 the 21st of the Charlotte Obser-
 ver, says: "Newspaper people will
 be interested in this bit of infor-
 mation. One of the rural mail
 carriers here tells me that when
 he began his route last August
 only one farmer took a daily paper;
 now 40 are subscribers. Then only
 ten took weekly papers; now 100
 take them. The fact is that a man
 in the country off a railroad, five
 miles from here, was out of the
 world. Now he is in touch with the
 procession."

Right here is a pointer on the
 subject of popular education. Get
 the people to read and you have
 much of the problem solved. A non-
 reading people can hardly be edu-
 cated. A reading people are un-
 consciously being educated all the
 while. A patron sometime ago told
 the writer that his county paper
 was worth more than all the school-
 ing his children gets and that he
 has two brothers that grew up
 without learning to read after he
 began to take the paper they soon
 learned to read it.

Several others whom we have
 tried to get as readers have told us
 that they would gladly have a pa-
 per but the post office is five miles
 away and no passing except for the
 mail, therefore no paper is taken
 and the intellectual growth in the
 family is nothing. Good mail
 facilities will bring to the doors of
 our people the winsome hand-
 maiden of the great educational
 movement.

WASHINGTON LETTER.
 (From our regular Correspondent.)
 Washington, Jan. 28th, 1901.
 Extra session talk has been given
 a boom by no less a personage than
 the President himself. In a short
 message transmitting the report of
 the Philippine Commission to Con-
 gress, the President recommends
 speedy legislation for the Philip-
 pines. The recommendation does
 not specify the Spooner bill, al-
 though the report of the Philip-
 pine commission does, but that is
 the only important Philippine
 measure pending, and it has been
 demonstrated that the sentiment
 of the Senate was adverse to it, and
 Senator Spooner has himself said
 on the floor of the Senate that he
 thought it would be best to send a
 Congressional committee to the
 Philippines before legislating de-
 finitely for a form of civil govern-
 ment for the islands. As there is
 little probability that the Spooner
 bill can be passed and no time to
 perfect a new measure, the idea is
 prevalent that the President in-
 tends his recommendation as a
 hint of his intention to call an ex-
 tra session of Congress, soon after
 the expiration of this session. The
 idea has been strengthened by re-
 marks of the President about the
 justice of immediate action by
 Congress upon the work of the
 Constitutional Convention of Cu-
 ba, as soon as the work is com-
 pleted, which will be in the near fu-
 ture, but probably not in time
 to be acted upon by this Congress.

Congressional hunters after
 Army Commissions, under the new
 law, have received notice from the
 President, that these Commissions
 will, as far as possible, be given to
 the men and officers who have seen
 service in the Philippines as vol-
 unteers. Some of the hunters are
 disposed to regard this as merely
 an expedient on the part of the
 President to lessen pressure on him
 for these places, and to think that
 the "as far as possible" will let in
 a lot of outsiders whose "pull"
 cannot be ignored. Time will soon
 tell, as these appointments will
 have to be quickly made.

The Oleomargarine bill has
 been reported to the Senate, and
 its friends will endeavor to get it
 through, but lack of time makes
 their success doubtful.

When you are sick you want
 the doctor that is the most successful,
 and when you employ an attorney
 you want the most successful in
 the line for which you need him.
 There is no doubt that C. A. Snow
 & Co., of Washington, are the
 most successful Patent Solicitors
 in the world. During 1900, they ob-
 tained 1497 allowances of U. S.
 patents, many of which had been
 previously rejected.

Senator Towne, who will vacate
 his seat as soon as Senator Clapp,
 who was last week elected to suc-
 ceed the late Senator Davis, of
 Minn. arrived in Washington said
 goodbye in a set speech, giving his
 views on the important political
 questions of the day. Mr. Towne
 is a fine speaker and his remarks were
 attentively listened to by those
 who disapproved them as well as
 by those who indorsed them.

Representative H. C. Smith, of
 Mich., has introduced a bill, pro-
 viding for a National Freight
 Commission, of twelve members,
 who shall hold office for life, the
 duty of which shall be to supervise
 regulate and classify railroad
 freight, and to fix the division of
 freight rates between connecting
 railroads and transportation lines.
 The bill was introduced more to
 be discussed than with any ex-
 pectation that it will be enacted upon
 by this Congress.

The Senate Committee on Terri-
 tories has practically decided that
 there will not be time to act on the
 bill for the admission of Arizona
 to statehood at this session.

Senator Depew has no doubt of
 the construction of the Nicaragua
 Canal by this government. In his
 speech in favor of the Ship Subsidy
 bill, he said: "With the construc-
 tion of the Nicaragua Canal, which
 will be completed in the next few
 years the necessity of an Auxiliary
 Fleet and a Merchant Marine will
 become still greater."

The brewers won their fight in
 the Senate Finance Committee,
 and the amended Revenue Reduc-
 tion Bill, reported to the Senate
 by unanimous vote of that Com-
 mittee, cuts the tax on beer to \$1.50

a barrel, which was the figure
 demanded by the brewers of the
 House Committee, and refused by
 that Committee, and defeated
 when offered as an amendment on
 the floor of the House. The claim
 is made for the brewers that they
 have positive assurances that the
 Senate will stand by them and com-
 pel the House to accept the rate
 fixed for the tax on beer.

Owing to the pressure of appro-
 priation bills, the Ship Subsidy bill
 is not making much progress in
 the Senate. Senator Fry, who is in
 charge of the bill, is not seeking to
 antagonize the Appropriation
 bills. On the contrary, he expres-
 sly says that he is willing to have
 his bill set aside whenever there is
 an appropriation bill ready for the
 Senate. He still maintains that the
 bill will pass, while the opponents
 of the bill say that it has no
 chance, whatever, of being voted
 on at this session. It is admitted
 even by Mr. Fry, that that the
 opponents of the bill can keep it
 from a vote if they really wish to
 do so. Senator Pettifrew, who is
 one of its most active opponents
 says there will be no necessity to
 filibuster against a vote: that the
 regular appropriation bills and
 other legislation to which it must
 give way will operate to prevent
 its being disposed of.

Brought Good Fortune.
 A small item in his own paper
 lately brought amazing good for-
 tune to Editor Chris Reiter, of the
 Saginaw Mich. Post and Zeitung.
 He and his family had the Grippe
 in its worst form. Their doctor did
 them no good. Then he read that
 Dr. King's New Discovery for Con-
 sumption, Coughs and Colds was a
 guaranteed cure for La Grippe and
 all throat and lung troubles; tried it
 and says: Three bottles cured the
 whole family. No other medicine
 on earth equals it. Only 50c and

This season there is a large death
 rate among children from croup and
 lung troubles. Prompt action will
 save the little ones from these ter-
 rible diseases. We know of nothing
 so certain to give instant relief as
 Ose-Mant's Cough Cure. It can also
 be relied upon in grippe and all
 throat and lung troubles of adults.
 Pleasant to take. C. D. Carstarphen

NO TOE!
 Notice is hereby given that an
 application will be made to the next
 General Assembly of 1901 by the
 Commissioners of the town of Wil-
 lamston, N. C. to amend the char-
 ter and enlarge the corporate limits
 of said town. Done by resolution
 of said Board at a regular meeting
 on the 18th day of Dec. 1900.

Pepsin preparations often fail to
 relieve indigestion because they can
 digest only albuminous foods. There
 is one preparation that digests all
 classes of food, and that is Kodol
 Dyspepsia Cure. It cures the worst
 cases of indigestion and gives in-
 stant relief, for it digests what you
 eat. C. D. Carstarphen & Co.

Does the
Baby Thrive
 If not, something must be
 wrong with its food. If the
 mother's milk doesn't nour-
 ish it, she needs SCOTT'S
 EMULSION. It supplies the
 elements of fat required for
 the baby. If baby is not
 nourished by its artificial

Scott's Emulsion
 Half a teaspoonful three

 of our statements.
 Should be taken in summer as

Persons who suffer from indig-

 because they cannot eat the food
 required to nourish the body and
 the products of the undigested food
 do eat poison the blood. It
 is important to cure indigestion as
