ONE SCHOOL TERM PER YEAR.

(Progressive Farmer.) One of the wisest suggestions made by our retiring Superintendent of Public Instruction

The Committee should not be allowed to divide the school of any one year into two terms: as is now done in some places. We have heard of schools where the Committee employed one teacher two months in the summer and another teacher for two months, for the same children, in the winter. How can children ever make any progress, and schools be of any value to a community, when we have such management on the part of School committeemen?

We have had the opportunity of observing some of the evil effects of the system which Mr. Mebane so properly condemns It is with a school just as it is withan engine: it requires some time to get fired up, the rust worn off, and the wheels to turning broperly. After the machinery gets in good running condition twice as much work can be done as just after firing up. But under our present system, the machinery is often do most effective service. Then there are a few months in which to rust and get out of working order, after which the whole performance of firing up and of the clause in the declaration of getting the belts and cogs in war against Spain, disclaiming place most of the time of the any purpose on any part of the U secon sessiond,

It is a costly and foolish plan and should be abandoned.

The opponents of the bill say that they inter.d to fully debate it, and further that they intend to compel a quorum to stay on the floor and listen to the debate. Meanwhile, the reguup in the Senate, and every day the probability of an extra session of the next Congress, a thing which many Senators are particularly anxious to avoid, because it interferes with their personal plans for the Spring and Summer.

The House is sawing wood and lisposing of rountine business. It s now considering the Post Office Appropriation Bill.

The attempt to unseat Delegate Wilcox, of Hawaii, has taken tangible shape, and charges against him have been submitted to the House Committee on Elections, No. 1. It is charged that the Congressional election in Hawaii was illegal; that Wilcox is a bigamist. and that he has been guilty fo treas on against the U. S. in? offering his services to the Filipinos to fight agoinst the U. S.

Under the Army Re-organization Act, which became a law Saturday, the President will lave tative collige annual will be pub the appointment of more than 1300 lished in conjunction with the fraofficers, some of them being merely promotions of those already holding commissions. It is not positively known whether these nominations will be sent to the Sonate as fast as determined upon. or whether the President will wait until they can all be sent at once. It is probable that the high officer s nomination will go to the Senate as soon as made. Nobody has any doubt that Gen. Miles will be named for Lieutenant-General.

Senator Teller thus defined his position on the possible future annexation of Cuba: "I am unulter- ern track meet provided rhe team stopped just at the time when ably opposed to any scheme, direct all concerned are prepared to remote, that has for its object the annexation of Cuba. Even if the Cubans themselves should petition for annexation, I would oppose it.
