 One of the very best things
 the present Legislature did was
 to pass a law for the establish-
 ment of a library in any county
 school district that desires it.
 The act provides that whenever
 any school district shall raise
 ten dollars and the State will con-
 tribute ten dollars making
 thirty dollars, which will buy a
 very nice library.

(Greenville Reflector.)
 Former President Benjamin
 Harrison died of pneumonia,
 Wednesday afternoon, March
 13th at his home in Indian-
 apolis. He was about 68 years
 old, had been much in public
 life, and in his death the country
 loses one of its foremost men.
 His death leaves but one living
 ex-President, Grover Cleveland
 now being the only survivor
 who once occupied the highest
 office in the nation.

Andrew Carnegie, the
 "Steel King" has offered to
 give New York City \$5,200,000
 for the erection of 65 public
 libraries; and it is said he will
 give \$25,000,000 to the city of
 Pittsburg for the erection and
 endowment of the proposed
 Technical School of Pittsburg.
 It is also stated that he intends
 to make it the finest of its kind
 in the world.

Mr. Carnegie has also offered
 \$20,000 for a public library in
 Charlotte, N. C.

(Rural Visitor.)
 The Supreme Court has de-
 cided that the Asylums shall
 care only for the indigent in-
 sane at the expense of the
 state. This is in accordance with
 the Constitution. About the
 year 1869 the section of the
 Constitution in accordance with
 which the decision was made,
 in some way got out of the
 printed copies of that instru-
 ment, and in its stead a section
 was printed allowing the rich
 and the poor alike to be cared
 for at the expense of the state.
 If this was mere accident, it
 deserves to be classed among
 those remarkable things that
 do sometimes happen. If it was
 intentional, on the part of some
 one interested it was certainly
 a very daring piece of business

A CARD.
 Having arranged with Messrs.
 Whitmore & Howell, District Agents
 to represent the Washington Life
 Insurance Co. and write Accident
 and Health Policies, etc. I wish to
 say to my friends that I shall de-
 vote my entire time to the Insur-
 ance business in the county and am
 in position to give you the best in-
 surance to be had. Life, Health and
 Accident on easy terms.

WASHINGTON LETTER.
 (From our regular Correspondent.)
 March 18th, 1901.
 Washington officials believe that
 the friction between the English
 and Russians in China is greatly
 exaggerated in the press dispatches,
 and that it is nothing more
 than some petty dispute between
 military officers of minor rank,
 and not at all likely to become of
 sufficient importance to be taken
 notice of by the two governments.
 It must not be inferred by this,
 however, that this government has
 no apprehension of international
 trouble in China. It has apprehen-
 sions, and very grave ones,
 that the Chinese middle will, be-
 fore it is ended, lead to a scrap
 between some of the powers. Those
 apprehensions are believed to have
 instigated the order to Gen. Chal-
 fee to proceed with all the U. S.
 troops in Pekin, except 150 men to
 be left as a legation guard, to
 Manila. If there is to be trouble
 among the powers this government
 doesn't wish to be mixed therein.
 Some regard this policy as a mis-
 take, believing it would have
 been well to keep Gen. Chaffee and
 the 1500 men he had under him in
 Pekin, until he was certain that
 American interests would be prop-
 erly taken care of in the final set-
 tlement. But they do not pretend
 to have as much knowledge on the
 subject as the government has.

The news from Cuba isn't alto-
 gether pleasing for those who
 wish to see our pledge to turn the
 islands over to the Cubans speedily
 carried out. It is evident that
 powerful influence are at work try-
 ing to prevent the withdrawal of
 American authority by persuading
 the Cubans not to accept the con-
 ditions that Congress has offered
 them. If they refuse, American
 authority would necessarily be in-
 definitely continued. Great Brit-
 ain's Ambassador has followed the
 example of France and signed
 agreements with Sec'y Hay, ex-
 tending for one year the period
 within which the reciprocity treat-
 ies with the British West India
 Islands may be ratified.

Workmen to day began to tear
 up the old floor of the House, pre-
 paratory to carrying out the im-
 proved plans for heating and ven-
 tilating. If the Representatives do
 not get plenty of fresh and healthy
 air after the new plans are carried
 out, it will greatly disappoint the
 scientific experts who prepared
 them, and who are in Washington
 to superintend carrying them out.
 The new floor is to be air tight,
 in order to keep out dust and filth,
 while underneath will be cham-
 bers for fresh air; which is to be ad-
 mitted through apertures in the
 floor at the rate of 100 cubic feet a
 minute, for each member of the
 House.

Mr. O. B. Stevens, State Com-
 missioner of Agriculture, of Geor-
 gia, who is in Washington, to tes-
 tify before the U. S. Industrial
 Commission, on the condition of
 agriculture in his state, said:
 "Georgia is prospering immensely
 under the modern programme of
 diversified crops. I doubt if the Em-
 pire state of the South was ever
 more prosperous agriculturally
 than at present.

Owing to the cost the Census
 Bureau has abandoned its original
 plan of issuing a separate bulletin
 showing the manufacturing indus-
 tries of each city of 20,000 or more
 population, and, except in several
 special instances, the manufactur-
 ing bulletins will be issued for
 whole states. That for Rhode Is-
 land will be the first ready, and
 Delaware will follow. The bulle-
 tins will be published as fast as
 completed.

Judge Geary, of Cal., who was
 member of the House during three
 Congresses and who is now in
 Washington on business before the
 Supreme Court, talks very plainly
 about the alleged existence of the
 Bubonic plague on the Pacific
 Coast, he said: "I have no patience
 with those rumors of Bubonic
 plague in San Francisco. There
 is no truth in them. I don't care
 how much Commissions may in-
 vestigate and how much Federal
 Health officers may report. The
 whole truth in the matter lies in
 this: That a health officer cannot
 gain any political prominence un-
 less he discovers a plague or an
 epidemic of some kind, to stir up
 a disturbance with. When he has

made a lot of people uncomfortable
 and has gotten his name in the
 papers all over the country in
 favorable and unfavorable articles,
 he begins to think he is a success.
 Sargison Kinoyou, of the Marine
 Hospital Service, acting as the
 representative of the U. S. govern-
 ment simply stirred up a mare's
 nest and tried to make capital out
 of it."

Col. Sanger, of N. Y., who suc-
 ceeded Assistant Secretary of War,
 Moiklejohn, several days ago, is
 quietly proceeding with his duties,
 just as though the war over his
 appointment, which Senators
 Platt and Dewey were threatening
 and which some of the yellow jour-
 nals outlined and headlined as a
 sort of duplicate of the war on Gar-
 field waged by Senators Coukling
 and Platt which resulted, it will
 be remembered, in the retirement
 of both Senators, had never been
 heard of. The belligerent Senators
 were, it is understood, appeased
 with promises of several appoint-
 ments about which they had been
 doubtful. Such is the game of pol-
 itics as played in these early days
 of the new century.

Mr. Chas. H. Duell, Commis-
 sioner of Patents, has tendered
 his resignation to take effect upon
 the appointment and his successor.

 The students of Chicago Univer-
 sity are organizing a comic opera

 the company stays out long Mr.

Kind Hearted Editors.
 A subscriber to a certain paper
 died and left years of subscrip-
 tion unpaid. The editor appeared at
 the grave as the lid was being
 screwed down for the last time and
 put in a linen duster, a thermom-
 eter, a palm leaf fan and a receipt
 for making ice. Editors, as a rule,
 are not prosperous, but they are
 kind-hearted and considerate.

The value of advertising in coun-
 try papers is something that very
 few people are acquainted with. A
 country paper that prints home
 news enters into the home people's
 lives a great deal more thoroughly
 than the city paper does in the lives
 of the city folk. An advertisement
 brightly written and properly dis-
 layed in the country paper, is very
 frequently a subject of discussion
 at meal times, and thereby im-
 presses itself with unobscured
 force upon the mind of the family.

 famous electrician has gone to

 station which will be in com-
 munication with a transmitter

Enrollment at Tarboro.
 The people of Tarboro were very
 much excited on the 18th inst. over
 an attempt made by John Gray,
 chief engineer of Tarboro Cotton
 Mills, to kill Dr. Julian M. Baker.
 Dr. Baker was not hurt however.
 Gray was given a preliminary trial
 and bound over to the Criminal
 court under a \$200 bond.
