Textile Notes. The Scotland Cotton Mill of Laurinburg, S. C., is about to contract for five 10-inch revolving flat top cards, and is asking for bids on this machinery.

Textile Notes. The Tifton (Ga.) Cotton Mills Co., has completed its new mill, and expects to be in full operation in another week. The spindles number 5132, and the product is to be thread, and later lace curtain and yarns.

Textile Notes. The Wiscasset Mill Co. of Albemarle, N. C., has completed the 2009 school building which it has been erecting. This school is to be equipped and officered for instructing the children of the mill's operatives.

Textile Notes. The Farmville (Va.) Knitting Mills Co. has leased its plant to Joseph G. Burton of Lynchburg, Va. This plant is new and of modern equipment, and Mr. Burton will continue its operation after installing twenty additional knitting machines. The product is half-hose.

Telegraphic Briefs. The will of President McKinley, filed for probate at Canton, Ohio, leaves the estate to Mrs. McKinley in trust.

Telegraphic Briefs. The Kearney (Neb.) Cotton Mills has been sold to the Union Savings Bank & Trust Co. of Cincinnati, Ohio, representing bondholders. The plant has 18,400 spindles and complement of other machinery. It is reported the equipment will be removed to a Southern location.

Telegraphic Briefs. Rector James S. Stone, of Chicago, in his sermon this week tried a new argument upon his parishioners who go to Sunday: "Every time we disregard the day we are ignoring law and serving to lessen respect for the law in others," he said. "Golf players have been inclined to consider themselves exceptions to the law that makes Sunday holy. Anarchists are almost without exception atheists. A worldly attitude toward the sacredness of Sunday is a consequence for atheism. Have we not been responsible in some degree for both atheism and anarchy?"

Duck Mills to Enlarge. The Anchor Duck Mill of Rome, Ga., will enlarge its plant. This mill was built during the past year and completed recently. Its equipment is mainly thirty looms and steam-power plant for the production of duck and other heavy goods, its capitalization being \$20,000. The improvements mentioned will include the erection of an additional building and the installation of machinery, about \$20,000 to \$25,000 to be the expenditure. This enlargement will considerably increase the output.

South and West to Finance Their Crops. The fact that not until last week did St. Louis call upon the United States Treasury for money to move the crops, and then for only \$300,000, is an indication of how the financial independence of the interior has grown in former years.

Hustling at Henderson. A letter from Henderson, N. C., says: "Our town is humming with various new enterprises. The cotton mills, the knitting mill, the buggy factory, the ice factory and the steam laundry make things lively, and all do a very good business."

Industrial Miscellany. Work upon the government navy-yard at Charleston, involving the expenditure within the next three years of \$6,000,000, is to begin early next month. The work involves the construction of two drydocks of stone and concrete 750 feet long and 140 feet wide, and accommodations for the torpedo fleet and machine and repair shops.

Industrial Miscellany. The Southern Pacific Railway Co. has placed its first oil-burning engine in service between Houston and Galveston. The officials have found that with 675 gallons of oil as much steam can be produced as with four and one-half tons of coal, and that the combustion of the oil is attended with satisfactory results. Steam can be raised more quickly than with coal, and as high a rate of speed attained.

Industrial Miscellany. At the meeting of the Island Park Driving Association at Albemarle, N. C., "Dartel," driven by Nixa Phelps of Waterloo, N. Y., best the world's record for lady drivers by 3 seconds. The horse trotted the mile in 2:09 1/2. The best previous record for a lady driver was 2:12 1/2.

Industrial Miscellany. During August there were mined at the Brushy Mountain mines in Tennessee 21,446.65 tons of coal, while the coke ovens turned out 4,712.90 tons of coke.

Industrial Miscellany. The Long Island Railroad has filed an application for permission to construct a tunnel under the East river to New York city.

Industrial Miscellany. A Chinese to Make Money. I have been selling Perfumes for the past 6 months. I make them myself at home and sell to friends and acquaintances. Have made \$710. Every one buys a bottle. For 50c worth of material I make Perfume that will sell for \$2 in drug stores. I also sold 125 formulae for making perfume at \$1.00 each. I first made it for my own use only, but the curiosity of friends as to where I procured such exquisite odors, prompted me to sell it. I clear from \$20 to \$30 per week. I do not canvass, people come and send me to for the perfume. Any intelligent person can do as well as I do. For 45c in stamps I will send you the formulae for making all kinds of Perfumes and a sample bottle prepaid. I will also help you get started in the business. Address: F. A. Davis, No. 118 Vandewater Avenue, St. Louis, Mo.

Industrial Miscellany. Did you ever use GOSSE'S OIL EXTRACT for your little ones? You should never be without this remedy—it cures all sores and pains. When you contain God you do not need that the world should entertain you.

Collecting Mail by Trolley. Baltimore is one of the few cities of the United States that has a complete trolley mail collecting system. Many large towns transport mail by trolley from sub-stations to the central office and vice versa. In Baltimore, however, postal cars make several trips a day, collecting the mail from the regular corner and hotel and office boxes. Several carriers accompany the car, and a box of mail is placed in the car with a mail pouch, empty of its contents and jumps back on the car. It is feared that this method of collecting would interfere with and block the regular passenger service, but actual practice has demonstrated that this is not the case. In the car the letters are immediately canceled and distributed, so that when the central office or sub-station is reached the mail is ready to start out on its journey again without sorting. A development of this service is to have carriers collect the mail in sections adjacent to the car lines and bring their collections to designated points in time to catch the mail cars.

"Real Things" in Belts for Men. "You will have the suit made with loops?" said a fashionable tailor yesterday to a young man. "Loops," said the young man. "Loops for the belt," the tailor explained, and the other assenting, he went on: "Shall we make the belt, too?" The young man said he didn't know belts were ever made by tailors, and that the other sneered a little. "You are not yet 'on' in the matter of the latest fashion," he said. "The real thing in belts now is one made of cloth to match the suit. With a blue serge suit there goes a blue serge belt; with a crash suit a belt of crash; with a homespun suit a homespun belt, and the effect is very odd and agreeable. At Merion or at the Country Club you will see no other belts than these at present, and next month a majority of the belts on Chestnut street will be of this kind." "Then make me one," said the young man earnestly.—Philadelphia Record.

The call of God may read, "Go," but it means "Come with Me."

Dr. H. H. Kline's Great Nerve Restorer. FITS permanently cured. No fits or convulsions after first day's use of Dr. Kline's Great Nerve Restorer. \$2 trial bottle and treatise free. Dr. H. H. Kline, Ltd., 381 Arch St., Phila., Pa.

Dr. H. H. Kline's Great Nerve Restorer. The Emperor Was Poised. A woman who is of high social distinction in America was presented to the Kaiser at some dinner that was not attended with royal state. She was talking to him when she was offered a famous German salad. It was handed on her right and the Kaiser was on her left, which put her in a predicament. She did not dare turn her face from the emperor to help herself to the salad. The situation was too much for her. The emperor, seeing the condition at a glance, looked at her for an instant and laughed, as he said: "A Kaiser can wait, but a salad can not."
