We understand from a very reliable source that a road can be cut from the Roanoke river to the highlands of Bertie for \$350,000 and a ferry boat can be put on the river for \$200, making a total of \$550,000.

If our merchants are desirous of inviting trade to Williamston it is very necessary that they should not let this opportunity pass.

This roadway should be opened at once. By doing this the Bertie people, in the lower section of the county will have another market open to them for their peanuts and cotton.

It will also cause more farmers in that county to grow tobacco the coming season.

We really believe that this movement is necessary to the success of the intended tobacco market for Williamston.

The sooner a ferry is established at this point the sooner our merchants will be able to increase their business.

We would like to have the opinions of our merchants, and citizens in general, on this subject. If any of them wish to use these columns, they are at liberty to do so.

WASHINGTON LETTER

(From our regular correspondent.)

Washington, D. C. October 14, 1901

It is common talk in Washington that President Roosevelt is growing very weary of the constant demands for patronage which now take up so much of his time that he finds it almost impossible to reserve to himself the time necessary for the preparation of his forthcoming message.

Already he has given notice that he will see no one after 1 P. M., and it is considered most probable that he will soon be obliged to exclude himself from the public entirely for at least a short period.

This course has been found necessary by several of his predecessors. He has further let it be known that he is opposed to any wholesale change of office holders and that he will not consider the appointment of incompetent or unprincipled men whatever may be their claims on the party.

In regard to the Isthmian treaty the President has expressed the wish that the particulars be absolutely withheld from the public until all the details have been completed and he has submitted the treaty to the Senate.

A Cabinet Minister, who will not permit his name to be used, tells me that the salient points of the treaty have been agreed upon and that he believes they will meet the cordial approval of the Senate and of the people, regardless of party, but that the details are carefully withheld by the President's express wish.

Those who are in a position to know say that portion of his message which treats of our relations with Cuba is giving him the most trouble, that while he desires both the prosperity and the good will of Cuba and realizes that the surest means of securing both would be by the admission, free of duty, of Cuban sugar, on the other hand he is most unwilling to recommend a course which would prove injurious to the Louisiana planters and mean absolute destruction to the beet sugar industry.

It is a serious problem and one that will tax every resource of the President and his party in Congress.

It regarded here as a somewhat remarkable coincidence that although the care now in progress eight Democratic campaigns, in as many different states, Mr. Bryan has never been invited to speak in any one of them and in the case of the state of Ohio his offer to stump the state seems to be treated as an embarrassment rather than as a subject of gratitude.

Does it mean that the Democratic party in these states has turned down the free silver policy? is the question asked on all sides. Ambassador Choate is en route to Washington and rumor has it that, owing to the wide diversity of methods and views of himself and the President, it will be intimated to him that his resignation will not prove unacceptable.

It is further rumored that ex-Senator Wolcott, of Colorado, will be offered the mission. There seems to be little foundation for the rumor beyond the fact that Mr. Choate is not the type of man that Mr. Roosevelt would have been likely to choose to represent his administration at any important court.

Secretary Hay has hastened to assure the press that there is no truth whatever in the statement given out by Secretary Gage that he (Hay) contemplates resigning and says that he is sure that the Secretary of the Treasury must have been misquoted.

Another factor in the fight for the New York appraisership has developed in the person of Mr. Cornelius N. Bliss, ex-Secretary of the Interior, who is urging the re-appointment of Mr. Wilbur F. Wake man.

It the President yields to Mr. Bliss's wishes it will be in absolute disregard of the wishes of a member of his Cabinet Mr. Gage, who is urging the appointment of Mr. Whitehead.

The appointment of Dr. V. P. Clayton to the position of internal revenue collector for the Palmetto State came in the nature of a surprise as it was generally understood that Mr. Lo-mis Blalock was scheduled for that place.

Little is known of the reasons that led to Dr. Clayton's appointment beyond the fact that Senator McLaurin has been seen at the White House recently and he is supposed to have had a talk with the President on the subject.

The Schley Court of Inquiry is still in progress and promises to remain so until the middle of last of November. It is a rather remarkable state of affairs that if the Navy Department, through Judge Advocate Lemley, prove their case against Schley they will at the same time prove the Bureau of Navigation guilty of the gross neglect of its duty in not having, long before, court-martialed Admiral Schley on the charges of insubordination and cowardice.

If Schley were all that Lemley has undertaken to prove he would be a disgrace to the service. A notable feature of the proceedings during the last week has been the absolute unanimity of the testimony offered by the very young officers who have been summoned before the court, all of it derogatory to Admiral Schley.

The London Athenaeum concludes a very complimentary notice of President Roosevelt with the statement that he is more of a man of letters than any president of the United States since Thomas Jefferson.

But what a difference between 'letters' in Jefferson's and Roosevelt's eras! The alphabet alone is unchanged.

An amusing story is being told in society of the plight in which Miss Florence Foraker, daughter of Senator Foraker, of Ohio, recently found herself. Before her departure from Washington Miss Foraker interviewed her dressmaker, who was about to depart for Europe, and gave instructions for the purchase of a very elaborate wedding trousseau, preparatory to her marriage with Mr. Francis King Wainwright, of Philadelphia.

Having given her order to a thoroughly reliable 'modist,' Miss Foraker gave the matter no further thought until the time for the wedding began to draw near. Then she cabled to Paris and wired to Washington only to find that the dressmaker had fallen in love on shipboard and on her arrival on the other side had married.

When Miss Foraker cabled she was spending her honeymoon in Switzerland and had completely forgotten Miss Foraker's trousseau. Consequently Miss Foraker was obliged to patronize home industry for her wedding outfit. She declares she will employ only aged and unromantic dressmakers in the future.

TOT CAUSES NIGHT ALARM. "One night my brother's baby was taken with Croup," writes Mrs. J. C. Snider, of Crittenden, Ky. "It seemed it would strangle before we could get a doctor, so we gave it Dr. King's New Discovery, which gave quick relief and permanently cured it. We always keep it in the house to protect our children from Croup and Whooping Cough. It cured me of a chronic bronchial trouble that no other remedy would relieve." Infallible for Coughs, Colic, Throat and Lung troubles. 50c and \$1.00. Trial bottles free at N. S. Peck & Co.

Husband and wife are equal: the one not inferior to the other: the wife not a slave; not a housekeeper—but an equal: a companion. And just so far as a young man starts out with that idea fixed firmly in his mind—to make a companion, a comrade, a chum of his wife—just so far does he start out right.—October Ladies' Home Journal.

A FIENDISH ATTACK. An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes he feels like a new man.

This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c at N. S. Peck & Co's.

Brains and great executive ability are potent factors in a man's success but without the firmness and most thoroughly grounded principles of cardinal honesty they are factors which cannot make for success.

It is the combination of great ability and sterling integrity that places men in control of large interests and keeps them there.—October Ladies' Home Journal.

A WORTHY SUCCESSOR. All Doctors have tried to cure CATARRH by the use of powders, acid gages, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open an bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease.

An old experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a Treatment which faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharge and curing all inflammation. It is the only remedy known to science that actually reaches the affected parts.

This wonderful remedy is known as "SNUFFLES" the GUARANTEED CATARRH CURE and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently, and it also wonderfully quick to relieve HAEMORRHOIDS or COLIC in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the GUARANTEED CATARRH CURE.

Send prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. Capt. EDWIN B. GILLES & CO., 233 1/2 Market St., Philadelphia.

STEPS INTO LIVE COALS. "When a child I burned my foot frightfully," writes W. H. Eads, of Jonesville, Va., "which caused horrible leg sores for 30 years, but Bucklen's Arnica Salve wholly cured me after everything else failed." Infallible for Burns, Scalds, Cuts, Sores, Bruises and Piles. Sold by N. S. Peck & Co. 25c.

ABOUT TRADE-MARKS. When Jenny Lind was receiving her remarkable American ovation, fifty years ago, it was mentioned at a table where she was entertained that an enterprising fish merchant had already registered a trade-mark for Jenny Lind herrings. A young girl at the table promptly said: "That is a selfish idea."

Every trade-mark is a selfish idea. Certainly there was never before such a trade-mark impetus as now exists. Owners of every kind of movable property, whether animal, vegetable or mineral, are using and registering trade-marks. To supply the demand for information about patenting trade-marks, C. A. Snow & Co., of Washington, D. C., have published for free distribution a small book of information about trade-marks, explaining what may be patented (registered) as a trade-mark, with pictorial illustrations of many trade-marks procured for their clients, and decisions in trade-mark cases.

The Editor of this paper strongly endorses the action of General Charles H. Grosvenor, in requiring a certain share of the proceeds from the sale of his book to be set aside for a McKinley Monument Fund. Our readers will see an advertisement of this book in another column of this paper.

WINE OF CARDUI Wine of Cardui is the guardian of a woman's health and happiness from youth to old age. It helps her safely into womanhood. It sustains her during the trials of pregnancy, childbirth and motherhood, making labor easy and preventing flooding and miscarriage. It gently leads her through the dangerous period known as the change of life.

WINE OF CARDUI cures leucorrhoea, falling of the womb, and menstrual irregularity in every form. It is valuable in every trying period of a woman's life. It reinforces the nervous system, acts directly on the genital organs and is the finest tonic for women known. Ask your druggist for a \$1.00 bottle of Wine of Cardui.

IT HAPPENED IN A DRUG STORE. "One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy. The remedy owes its great popularity and extensive sale in a large measure to the personal recommendations of people who have been cured by its use. It is for sale by N. S. Peck & Co.

TWENTY-FIVE REASONS FOR BUYING A STANDARD ROTARY SHUTTLE SEWING MACHINE

ONLY ONE REASON for buying any other machine, viz., it is cheaper. BUT, there is more difference in the quality than in the price.

- 1 The "Standard" Rotary has the biggest bobbin of any lock stitch machine. Holds 100 yards of No. 80 cotton. 2 Bobbin more quickly wound. 3 The first Stitch perfect without holding ends of thread. 4 The tension is released when taking out the goods. 5 The finest goods are not drawn or puckered. 6 Less noise than any other machine. 7 Runs 50 per-cent lighter than old style machines. 8 Is the most rapid sewer—makes two motions of the treadle to three of other machines in sewing the same length seam. 9 Tensions not changed by change of speed, size of thread, thickness of goods nor length of stitch—what other machine can do as much? 10 Most elastic stitch. Thread does not break when seam is stretched. 11 Does not break thread when machine is run backwards. 12 The "Standard" Rotary Needle dips only once when making a stitch—old style shuttle needles dip twice—hence that much more strain and wear. 13 The "Standard" Rotary Shuttle never stops when the machine is in operation. Old style shuttles start and stop twice to each stitch. Just think of the extra strain and wear this makes! The "Standard" Rotary Shuttle moves onward continuously without a jar. 14 Shortest needle used in lock-stitch machines—therefore less liable to bend and skip stitches. 15 Owing to the construction of the shuttle and race, the point of the shuttle always comes in proper relation to the loop, hence almost absolute freedom from stitch skipping. 16 Shuttle so constructed that it cannot hit the needle—hence no broken needles from this cause. 17 Protection and packing of needle bar and construction of take-up and feed make less liability to oil goods than in other machines. 18 The face plate can be taken off by a thumb-screw thus enabling the operator to clean and oil the parts without displacing any of them. 19 Feed motions all positive—no springs used—hence machine will feed over all thickness of goods and seam without "chewing" the cloth no matter what the length of stitch. 20 Will wear twice as long as other lock-stitch machines. 21 Every part is independent of every other part, and can be replaced at a trifling cost. Therefore you can keep a "Standard" Rotary practically new a life-time. 22 Brand new set of attachments, self-adjusting, and fastened to the presser bar in place of the foot. 23 Stand wheel and treadle run on adjustable steel points, which insures the easiest, smoothest bearings known to mechanics, and the wear is for a life time. 24 Bent woodwork of the finest construction and finish known to art. 25 Automatic keyless drawer and cover locks, peculiar to the "Standard."

"Standard Grand" Rotary.

The only Drop Head Sewing Machine that raises, lowers and fastens the head in position without touching it. Strictly Automatic.
