HAS DONE NO GOOD

Ap Says Educating the Negro Has Been a Failure. It is not the remedy sought.

THE PRESENT GENERATION OF NEGROES

Have Gained Nothing By All of Their Book Learning. A neighbor said to me, 'Major, what is all this racket about this rumpus-thing about the nigger?'

What a dear of negro burglars and thieves there must be in Atlanta, judging from the daily business of the recorder's court. I reckon it is as bad in the other cities, but we don't hear of it.

Take them all together and they don't harmonize on any plan, though a large majority, with Dr. Curry in the lead, well, it is possible or even so great and good a man as Dr. Curry to be mistaken.

These negroes are a new generation and know nothing of slavery. The northern idea seems to be that these are the same negroes we had before the war, and that they have recently emerged from slavery and semi-barbarism.

And now the northern press is glorifying over the prospect of our representation, who have little respect for the officer who runs his horses to get him first. I have not forgotten the ten years we lived in the country and the apprehension I felt every day that I was away from home.

Mrs. E. C. Smith. 'Having found by personal experience that Lydia E. Pinkham's Vegetable Compound is a medicine of rare virtue, and having seen dozens of cures where my suffering sisters have been dragged back to life and usefulness from an untimely grave simply by the use of a few bottles of this Compound, I must proclaim its virtues, or I should not be doing my duty to suffering mothers and dragged-out housewives.'
