**Great Weather Calendar**

The Chattanooga Medicine Co., the manufacturers of McElree's Wine of Cardui and Theford's Black-Draught, have just issued the 1902 edition of the Cardui Weather Chart and Calendar. This calendar has sprung into universal prominence by accurately foretelling the Galveston flood and predicting the droughts and floods of the past summer, a year ahead of each occurrence. This office has just received one of these calendars, which consists of twelve sheets of paper, 13x20 inches in size, all fastened together with a gilt tin strip and a brass loop hanger. Each sheet contains the calendar for one month in large figures that can be read across the room. Under the figures patent weather signals indicating Prof. DeVoe's Weather forecasts for every day in the year appear. We understand a few copies of it can be secured by sending 10 cents apiece in postage stamps to The Chattanooga Medicine Co., Chattanooga, Tenn.
