G. & C. MERIAM CO., Publishers, Springfield, Mass.

The New Woman and Her Progress

IN 1907 Mr. Fred Reikate went from Portland, Ore., to the Klondike to make his fortune. He worked awhile at mining, saved money, then opened a butcher shop in Dawson. In 1899 Mrs. Reikate joined him. Next he sold his shop in Dawson, and he and his wife went into mining. They bought a claim and fitted it with steam machinery. At first Mrs. Reikate cooked and did the housework of the cabin. Then she became so interested in gold digging that she accompanied her husband into the shaft 240 feet underground. She wore bloomers and rubber boots, so that she could work. She learned to run the engine, wash gold and do every part of the regular work of a miner. She became an expert that finally she labored in the mine altogether, hiring a cook and housekeeper at home. Success came to the plucky pair, and at length they had \$40,000 clear in dust and nuggets. They decided to "go outside," as it is called in the Klondike, and take a rest and visit Mr. Reikate's parents in Germany. Mrs. Reikate departed two weeks before her husband to prepare for the journey. The husband followed with the \$40,000, taking passage on the steamer Isador from Skagway. The ship was wrecked, Mr. Reikate went down in her, and with him went the \$40,000, lost forever. With the news of his death appeared a former wife, claiming his estate on behalf of her son. The claim was mostly worked out, but there was some gold in it. The second wife went back in the dead of winter to the Klondike, had an administrator appointed for the property and herself began to work it again for all there was left in it. She knew exactly what to do to the last particular, so she got a considerable amount out of it. Then she made an amicable arrangement with the first wife on account of the boy, gathered up what she had left, a neat sum, and at the beginning of cold weather this year returned to civilization. After a rest she goes back next season to start in over again and find fortune.

Obstacle is another name for opportunity.

The college bred woman is entering into business and showing how it ought to be conducted. Two college women partners, Misses Stevenson and Elliot, established one time since a laboratory kitchen and model bread baking establishment at Cambridge, Mass. They use the new bread mixing machine invented by Mrs. Lydia Coale Sharpless and have demonstrated to their own profit the "economic possibilities of breadmaking as an industry for educated women," which is what they started out to do. Two other college girls went into the laundry business in Brookline in 1898. They had six assistants when they began. Now they are running a really artistic laundry and keep sixty persons busy all the time.

A muddy complexioned fat woman in a black silk dress is not beautiful.

Men usually scoff at "mental science," so called, yet a husband not long since wrote a long letter to a "healer" appealing to him to give the writer's wife, without her knowledge, "absent treatments" to make her obey him, the writer. Amusing creatures, men are.

The woman who has trained herself to be silent and who holds steadily to her purpose is the woman who wins. Keep your mouth shut.

Girl college students ought to study the natural sciences in preference to dead languages. Especially useful and inviting are the departments of biology and organic chemistry.

Miss Violet Oakley of Harrisburg has obtained the order to decorate one of the rooms in the new state capitol of Pennsylvania.

Lately in New York a middle aged woman died at whose funeral folk said admiringly, "She was the mother of twenty-five children." "But how many of them are living?" asked the only thinker in the lot. "Only seven," was the answer. "No wonder," remarked the thinker.

The woman who keeps her mouth shut is the woman who is storing up power, not wasting it.

Women's clubs are being forced into the consideration of suffrage for their sex. They cannot dodge it. The Illinois Federation of Women's Clubs has endorsed by a great majority the bill to give taxpaying women in the state a vote on all matters and officers connected with taxation.

Miss Wold, a teacher in the high school of Eugene, Ore., is a thorough biologist and analytical chemist.

Private employment agencies in some of the large cities are swindling women right and left through advertising. They lead a woman to conclude they have employment for her and that she will get it very soon if she pays them a dollar. She pays it, and that is the last of it. The superintendent of the New York state free employment bureau reports that some of these agencies gather in \$150 a day.

ELIZA ARCHARD CONNER.

TOWN BETTERMENT.

HOW AN IMPROVEMENT LEAGUE BEAUTIFIED BAY RIDGE.

Cleaner Streets, Neater Front and Back Yards and Many Other Changes For the Better Since the Organization Began Work.

Bay Ridge, a suburb of Brooklyn, has been improved greatly in the last few months owing to the work of the Woman's Improvement League. Its streets are cleaner than ever before, its front and back yards have been beautified with flowers and plants, and the whole place has changed for the better since the league began work.

The Woman's Improvement League is the outgrowth of the Bay Ridge Reading club, which has met weekly on Thursday mornings for fifteen years, says the New York Tribune. Until last June the club had confined itself to literary matters and occasional luncheons and lectures, but the unkempt condition of certain neighboring streets led its members to consider means for bettering conditions. The day the public schools closed the society was officially organized, and the members left the first meeting in carriages for flying trips to the schools in order to get bearings with the children before they should be scattered for the summer.

Eight awards were offered—first, second and third prizes of \$5, \$3 and \$2 respectively, for the greatest improvement in the back yards and the same down in her. Mrs. Reikate went down in her, and with him went the \$40,000, lost forever. With the news of his death appeared a former wife, claiming his estate on behalf of her son. The claim was mostly worked out, but there was some gold in it. The second wife went back in the dead of winter to the Klondike, had an administrator appointed for the property and herself began to work it again for all there was left in it. She knew exactly what to do to the last particular, so she got a considerable amount out of it. Then she made an amicable arrangement with the first wife on account of the boy, gathered up what she had left, a neat sum, and at the beginning of cold weather this year returned to civilization. After a rest she goes back next season to start in over again and find fortune.

A condition of the test was that the competitors must not only keep their gardens free from weeds and disorder and their plants in healthy condition, but they must also pick up paper, old cans and all rubbish wherever they saw it scattered in the streets. To insure success in the last undertaking an appeal was sent to the authorities for rubbish cans to be placed at schoolhouses and at the junction of certain streets. The appeal was heeded promptly, and the receptacles are now dotted through Bay Ridge.

The most thickly populated blocks of Bay Ridge are made up of two family houses, and it was for the benefit of children occupying the second floors of such buildings that the prize for window boxes was offered. This effort has met with less enthusiasm. Landlords object to the placing of window boxes in tenement house windows, as they disfigure the sills. The neighbors on lower floors, too, are likely to remonstrate against the dripping of water over their windows from upper floors. Then if the houses have blinds the boxes furnish an obstacle. It is probable that hereafter prizes will be offered for thirty house plants.

So far about \$20 in ten cent annual fees has been brought in by the youngsters, meaning an added membership to the league of about 200. The children themselves constitute the associate members of the league and the grown-ups, who pay the 10 cents yearly, the contributing members. Each child wears a button bearing a device in the form of a tree and the legend, "Improvement League."

Other committees of the league are devoted respectively to sanitation, cleanliness, the care of trees, of new streets and the gaining of better traveling facilities for the population. The chairman of the sanitation committee tracks strange odors to their sources and reports unsavory conditions to the powers that be. The president both of the league and of the reading club heads the tree committee. She has obtained from the authorities a permanent permit for the league to trim and "and all trees, with the permission of their owners, without further license. This committee discovered that certain pipes were being placed under the sidewalk of Third avenue instead of through the middle of the street, thus making the successful planting of trees along that thoroughfare an impossibility. Word was sent to the borough hall, and the pipes were laid in their proper place. The widening of Third avenue necessitated the removal of the large old trees lining it. The new street committee sees that when thoroughfares are cut through the work is continued until they are passable for vehicles.

In speaking of their work recently the treasurer of the organization said: "The prizes offered by the Woman's Improvement league of Bay Ridge to the school children of that district for the most carefully kept yards have proved a wonderful stimulus to the young gardeners. In some cases plots that were in the worst condition when school closed are among the best kept now. The parents of the children have shown the greatest enthusiasm in the effort, and their encouragement to the girls and boys has been of the greatest aid."

A Prize For Neat Promises.

The El Paso Good Roads association offered a cash prize to the resident of any one block in the city who shall have done the best work, from July 21 to Aug. 15, in clearing away weeds, cleaning ditch boxes and maintaining a neat appearance about his premises. The idea contains a happy suggestion.

Good highways are an excellent advertisement for a town.

HEADS SHOULD NEVER ACHIE

N. ver endure this trouble. Use at once the remedy that stopped it for Mrs. N. A. Webster, of Winnie, Va.,—she writes "Dr. King's New Life Pills wholly cured me of sick headaches I had suffered for two years." Cure Headache, Constipation, Biliousness. 25 cents at all druggists.

THE DRAUGHT

THE ORIGINAL LIVER MEDICINE

A yellow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney diseases. Stomach and bowel troubles, severe as they are, give immediate warning by pain, but liver and kidney troubles, though less painful at the start, are much harder to cure. Theodora's Black-Draught never fails to benefit diseased liver and weakened kidneys. It stirs up the torpid liver to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of the kidneys. With kidneys reinforced by Theodora's Black-Draught thousands of persons have dwelt immune in the midst of yellow fever. Many families live in perfect health and have no other doctor than Theodora's Black-Draught. It is always on hand for use in an emergency and saves many expensive calls of a doctor.

Mullins, S. C., March 10, 1901.
I have used Theodora's Black-Draught for three years and I have not had to go to a doctor since I have been taking it. It is the best medicine for me that is on the market for liver and kidney troubles and dyspepsia and other complaints. Rev. A. G. LEWIS.

The Tranquil Mind.

Who does not love a tranquil, sweet tempered, balanced life? It does not matter whether it rains or shines or what misfortunes come to those possessing these blessings, for they are always sweet, serene and calm.

They acquire poise of character which we call serenity is the last lesson of culture; it is the flowering of life, the fruitage of the soul.

It is as precious as wisdom, more to be desired than gold—yet, than even the gold. How contemptible mere money wealth looks in comparison with a serene life—a life which dwells in the ocean of truth, beneath the waves, beyond the reach of tempests, in the eternal calm!

How many people we know who sour their lives, who ruin all that is sweet and beautiful by explosive tempers, who destroy their poise of character by bad blood! In fact it is a question whether the great majority of people do not ruin their lives and mar their happiness by lack of self control. How few people we meet in life who are well balanced, who have that exquisite poise which is characteristic of the finished character!—Success.

Nothing Accurs.

Granger—I understand you have an interest in the Sweetwater mine?

Lamb—I have an investment there, but I have seen no interest on it up to the present moment.—Boston Transcript.
