VOL. V. - NO. 6

WILLIAMSTON, N. C., FRIDAY, NOVEMBER 6, 1903.

WHOLE NO. 214.

THE WAY TO RIZZLE.

"I believe that I owe a great deal of my good health to the fact that I rizzle every day," said a well known physician of this city.

ALL OVER THE HOUSE.

Furnishings and Care of the Right Kind of Bedrooms. Bedrooms ought to be bedrooms and nothing else, says Caroline Hunt in the House Beautiful.

CONDENSED STORIES.

Didn't Think the Queen Would Like Equality of Happiness. An English paper tells a funny story of Prince Edward of Wales when he had only a few years to his credit.

PASSING OF THE STEERAGE.

The substitution of third cabin for steerage is not a change in name merely. It accompanies a marked improvement in the hitherto crowded life of the lower deck.

FOR THE LITTLE ONES.

How Carlo Learned to Take Care of the Home Chickens. Carlo early manifested a love for watching and chasing chickens, a pastime not to be neglected with the small opportunities of the city.

To Cure a Cold in One Day

Take Laxative, Bromo Quinine Tablets. All druggists refund the money if it fails to cure. R. W. Grove's signature is on each box. 25c.

Professional Cards.

DR. JOHN D. BIGGS, DENTIST. OFFICE: MAIN STREET. GEO. W. NEWELL, ATTORNEY-AT-LAW.

The Trunkless Trolley.

It seems certain that the near future will see the familiar trolley system of today superseded by the trunkless or auto trolley, which has already been successfully tried in Germany.

For Mending Purposes.

An excellent cement for mending almost anything may be made by mixing together litharge and glycerin to the consistency of thick cream.

A Southern Compliment.

Chief Justice Chase of the supreme court had a grand time on one occasion when he visited New Orleans. Accompanied by his accomplished daughter, the justice partook of the generous hospitality of the south.

A County Book.

When a few months ago the monks of La Grande Chartreuse were expelled from France the senior abbot carried with him a tiny casket of tempered steel.

A Cat's Family of Six.

The lion and the lamb lying down side by side would not be a more remarkable spectacle than that presented at the residence of Miss Helen Glenhof, 3255 Hennepin avenue, Minneapolis, Minn.

Correct Silverware

Correct in character, design and workmanship—is as necessary as daily china or fine linen if you would have everything in good taste and harmony.

The Coldest Known Liquid.

Liquid hydrogen is by far the coldest liquid known at the present time. At ordinary atmospheric pressure it boils at -422 degrees F., and reduction of the pressure by an air pump brings the temperature down to -432 degrees, at which the liquid becomes a solid, resembling frozen foam.

Uses For Salt.

Salt on the fingers when cleaning fowls, meat or fish will prevent slipping. Salt thrown on a coal fire when broiling steak will prevent blazing from the dripping fat.

THE SUPREME COURT OF THE SOUTH.

One of the lovely matrons often seen at Sherry's in the afternoon has at last given out the secret of her complexion, which all other women, whether jealous or not, call "divine."

The Wine Bath.

One of the lovely matrons often seen at Sherry's in the afternoon has at last given out the secret of her complexion, which all other women, whether jealous or not, call "divine."

Broomstick Balance.

This is a fine game for a rainy evening. You need a clothes basket and a broomstick. Pass the broomstick through the handles of your clothes basket and raise the ends of the broomstick on a couple of chair seats that face each other.

Engineering Problems in India. In constructing the power transmission line from the Cauvery falls to the Kolar gold mines, in Mysore, India, which was recently completed, the American engineers employed to do the work had to deal with some uncommon problems.

Larger Rooms. New houses show a tendency toward larger rooms and fewer of them. The bathroom, which in many of the older houses is a small room with just enough space to turn round in, is now built larger, since it is to be used by all the members of the family, who often keep in it their toilet articles.

Rear Admiral Charles S. Cotton tells this good story: He sat one evening at a dinner party beside the bishop of Durham, a clergyman noted for his wit. Near the bishop was a millionaire manufacturer, a stout man with a loud, coarse laugh, who ate and drank a good deal.

First Sight of a Train. Mrs. Overton, who lives near Gleason, Tenn., came in town the other day for the purpose of seeing a passenger train. She is thirty years old and has lived within fifteen miles of the railway nearly all her life, but had never even seen the track up to this time.

Romance and Reality. "When father brings my roller skates, I'll strap them on," said Aubrey Bates, "I'll go on errands every day. For doing them will seem like play. I'll wheel the baby while I skate; At school I never will be late; Oh, people when they look at me A very clever boy will see!"

Yards of Diamonds. Mrs. Brenda Martin has offended good form on the other side by wearing too many jewels. At her place in the highlands of Scotland she gave a ball recently, and society people of the neighborhood were abundantly in attendance.

Good Book. To make good bread add to two cups of raised dough a cup of sugar, two ounces of butter, two well beaten eggs and knead into a rather stiff dough. Cover and set to rise and when light mold into small biscuits, place closely together in a buttered biscuit pan, cover and set to rise again, and when light brush the top lightly with a little white of egg, sift sugar and a little cinnamon or chopped almonds over them and bake in a bread oven for from thirty to forty-five minutes.

The Puzzled Englishman. Guy Standing, while on a cruise with the Knickerbocker Yacht club recently told how confusing the Americanisms are to his countrymen. He said that an Englishman after returning from a visit to Kentucky sought out an American friend in London and asked him to explain some of the queer expressions he had heard in America.

The Lewis and Clark Fair. The Lewis and Clark fair, planned to be held in Portland, Ore., in the summer of 1905, is to commemorate the centennial of the crossing of the continent by the explorers whom Jefferson induced to undertake the difficult task soon after the completion of his bargain for the Louisiana territory. They went up the Missouri river, crossed the Rocky mountains and followed down the course of the Columbia river to the Pacific.

Butting the Wall. Place a stool on the ground against the wall. Now stand from the wall, with your feet twice the width of the stool away. Stoop down and seize the stool by the top in both hands and place the top of your head against the wall, your back almost horizontal. Now lift or try to lift it from the ground without assistance.
