A New Profession.

A new profession has been made possible by the invention of the modern secretary. It is a profession that is growing rapidly and is one of the most important of our time. It is the profession of the secretary.

The first of a department store which supplies 500 girls says that his secretary has been a success in her new profession. She has been able to handle the work of the store with ease and efficiency. She has been able to handle the work of the store with ease and efficiency. She has been able to handle the work of the store with ease and efficiency.

Drainage of Roads.

Water is the greatest enemy of good highways. Among the elements and forces of nature there are several enemies of good roads, but the greatest of them is water. It washes away the material of the road. It soaks into the road and softens it so that the wagon wheels cut into the surface, making ruts and holes. It permeates and softens the foundation so that the surface of the road sinks or breaks up. In the winter the water that is in the road freezes, expands and loosens and disintegrates the road material.

The most important thing in the building of roads is to lessen or prevent the ravages of water. Yet no feature of the work is so neglected as this. Many local road superintendents give no consideration to the question of drainage, and the result is a regular and blockaded during several weeks or months of the year.

Very Serious.

Old Chilly, are you sure this encephalitis is a serious matter? Chilly, No, it's serious. Why, it's a case of eating with me! Boston Journal.

Can You Blame Them?

Put two ounces of freshly prepared slaked lime into a stoppered jar. Add one gallon of cold water, shake thoroughly, leave for several hours, then strain off carefully to keep free from sediment. Bottle and use as required.

Drifting Towards Bright's Disease.

Many people who are neglecting symptoms of kidney trouble, hoping "it will wear away," are drifting towards Bright's Disease, which is kidney trouble in one of its worst forms.

FOLEY'S KIDNEY CURE

stops irregularities, strengthens the urinary organs and builds up the worn-out tissues of the kidneys so they will perform their functions properly. Healthy kidneys strain out the impurities from the blood as it passes through them. Diseased kidneys do not, and the poisonous waste matter is carried by the circulation to every part of the body, causing dizziness, backache, stomach trouble, sluggish liver, irregular heart action, etc.

If you have any signs of Kidney or Bladder Trouble commence taking FOLEY'S KIDNEY CURE at once, as it will cure a slight disorder in a few days and prevent a fatal malady. It is pleasant to take and benefits the whole system.

Now to Find Out. You can easily determine if your kidneys are out of order by setting aside for 24 hours a bottle of the urine passed upon arising. If upon examination it is cloudy or milky or has a brick-dust sediment or small particles float about in it, your kidneys are diseased, and FOLEY'S KIDNEY CURE should be taken at once.

G. B. Burhans Testifies After Four Years. "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick-dust sediment and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed, and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble."

Two Sizes, 50 Cents and \$1.00.
