Let's Have Good Roads.

In this issue of the Enterprise we have an article on the building of a sand clay road by Mr. M. O. Eldredge, of the Department of Agriculture at Washington, D. C.

But, if we do not take some action along this line we will never have good roads.

Uncle Sam Afloat of Standard Oil Co. It is rather a pitiful confession for the government to have to make, but it is explained by the Navy Department that the reason there are not oil burning boats in the Navy is because the government is afraid of the Standard Oil Company.

For three or four years past, the Navy Department has been studying the problem of oil burning boats, and for a year there have been extensive tests made with the smaller craft.

to seize an opportunity when it is offered. And keep your eyes open for offers. You cannot do this if you have your attention distracted by the care of your cash.

When You Take Cold

One way is to pay no attention to it; at least not until it develops into pneumonia, or bronchitis, or pleurisy.

When the bowels are constipated, poisonous substances are absorbed into the blood instead of being daily removed from the body as nature intended.

Prohibition Matter Settled

The lower branch of Legislature last night declared for prohibition in no uncertain language. They passed the bill originating in the Senate except changing the date of election from the first Thursday in August to the last Thursday in April.

There is just as much money in the country as there ever was. There are plenty of people scattered throughout the country who have money, and it is only through imaginary fright that they are holding it instead of paying what they owe.

"This is the year to make money if one has the capital and the nerve to back it up," said a business man yesterday. We suppose that what he meant by "nerve" is whether or not a man has the conscience to charge big bonuses for accommodating those who have to borrow money.

A Strange Story

Mrs. Isaac W. Anstall, of Chestnut Ridge, N. C. tells a strange story of great suffering. "I was in bad condition for months, but got no relief. My periods had stopped, all but the pain. After taking part of a bottle of Wine of Cardui, nature worked properly and without pain. I advise all suffering women to use Cardui."

OUR PARAGRAPHER

"Miss Vanderbilt's Count", is merely a thin subterfuge for the writers who cannot remember how to spell his name.

No matter what the verdict of the jury is in the present Thaw trial, there is little doubt that Harry Thaw will disagree with it.

Former Ambassador Choate demands insistently to know who are the "malefactors of great wealth".

There seems no surer way of transforming a friend into a mere acquaintance than by lending him money.

It is hard to say whether the desire to keep Mr. Bryan out of the nomination comes more from his friends who do not want to see him defeated or from his enemies who do.

How to Avoid Appendicitis. Most victims of appendicitis are those who are habitually constipated.

Random Shots About the Farm. Grow corn and oats in abundance, but do not overlook the lowly peanut. It will fill the pork barrel cheaply.

Do not waste feed by giving it to stock that have wet, uncomfortable sleeping quarters. Less feed and more comfort would be better.

Without good seed there cannot be a good stand of corn, and no one can tell whether he has good seed if he does not test it before it is planted.

In setting out fruit or shade trees do not treat them as if they were weeds. Prepare the land for them as thoroughly as for any valuable crop.

The bank swallows are one of the best kinds of birds that exist, from the farmer's viewpoint. Thoughtless boys should not be allowed to molest them.

Scrub horses or scrub mules cannot do good breaking, unless a good number of them are to pull one plow. Good work stock will feed far toward making a good harvest.—Progressive Farmer

The Pure Food Law

Secretary Wilson says, "One of the objects of the law is to inform the consumer of the presence of certain harmful drugs in medicines." The law requires that the amount of chloroform, opium, morphine, and other habit forming drugs be stated on the label of each bottle.

Ferocious Pike. The pike has been termed the fresh water shark, and it deserves the name. There are scores of cases on record where pike have seized ducks, swans, even dogs, in the water.

Looking, but Not Seeing. This might make a good evening's game. Describe the conductor who examined your ticket on the train; describe the parlor maid who served the coffee around. You will find in the answers a dozen conductors and more parlor maids that can be obtained in a London square.

BE READY. You can do it if you have an account with us. Bring what cash you have and open an account. Then you'll know your money is safe and beyond the reach of thieves, rats, water, fire, or any other danger.

Farmers & Merchants Bank, WILLIAMSTON, N. C.

Disturbed The Congregation

The person who disturbed the congregation last Sunday by continually coughing is requested to buy a bottle of Foley's Honey and Tar. S. R. Biggs, C. C. Chase.
