

GOLDMINE WRECKED

Two Large Boilers Explode at the Haile Plant

HEAVY DAMAGE TO MACHINERY

One Man Dead and Several Seriously Injured by Boiler Explosion at the Haile Gold Mine.

Charlotte, N. C., Special.—One of the most fearful boiler explosions that ever occurred in South Carolina took place Monday morning at 9:07 o'clock at the Haile gold mine in Lancaster county, two and one-half miles from Kershaw, when the two 100-horse power boilers blew up demolishing the engine house and mammoth stamp mill and seriously injuring four men, one of whom was a son of Capt. and Mrs. A. Thies, of this city.

Other than that the water is supposed to have been allowed to get too low in one of the boilers nothing of a definite nature is known as to the cause of the accident. Boiler No. 1 blew up and one of the flying fragments of iron knocked off the dome of boiler No. 2, which also then exploded. The shock was terrific, its force being very perceptible, even in Kershaw, more than two miles away. It simply demolished everything about the place, some of the parts of the boilers being hurled far upon the sides of the adjacent hills. Mr. O. C. Gardner, who happened to be standing behind a post but ten feet away from the boilers, when the catastrophe occurred, was thrown through the side of the engine house and into the stamp mill hard by, and was practically unharmed. The injured are:

Mr. Ernest A. Thies, superintendent of the mine, seriously burned about head and body and face and neck cut by falling debris.

Mr. B. M. Truesdel, badly burned.

Mr. J. P. Pittman, engineer, burned and stunned by falling pieces of wood and brick. Not seriously hurt.

Mr. E. M. Ogburn, burned and cut by falling timbers.

The accident took place shortly after 9 o'clock. The engines at the time were running smoothly, apparently performing their accustomed duties in their accustomed way. There was nothing slack so far as any of those about the place could tell to indicate that there was anything wrong. If the water was low in one of the boilers no one was aware of it. Mr. Thies, who happened to be passing through, observed to Mr. Pittman, the engineer, that his clock was four minutes slow and suggested that he move it forward a little. This Mr. Pittman proceeded to do. He stepped up on a box to get at the clock and had just accomplished his mission and was climbing down when the explosion occurred. Mr. Thies was buried beneath the debris, his face being cut by flying bricks and falling timbers and his head and body seriously burned. Messrs. Pittman, Truesdel and Ogburn, were also hurled to the floor and almost if not altogether covered by the loose material which fell all about them.

Rome, By Cable.—Cardinal Gibbons suffered a slight relapse due to over-exertion in attending the audience granted by the Pope on Saturday. Sunday's services at the Vatican and Monday's congregation. They Must Be Tried Again.
Asheville, N. C., Special.—W. E. Brees, W. H. Penland and J. E. Dickerson, the three former officials of the defunct First National Bank of Asheville, must again stand trial on a criminal charge. This was the effect of Judge Newman's decision in United States District Court in holding that the original bill of indictment found at Greensboro in 1897 and charging conspiracy was not defective. The motion of counsel for the defense to quash the bill was therefore over-ruled and the noted case will again be aired in a court of justice.

Army Officers on Endurance Test.
Burlington, Vt., Special.—Tired but apparently in excellent physical condition, fourteen army officers under command of Major General Frederick D. Grant, are encamped just outside Fort Ethan Allen, after the first day of their endurance test as horsemen. They galloped, trotted and walked their horses for 71-2 hours Monday, completing a circuit of thirty miles.

THREE BURN TO DEATH

Suffocated by Gas and Cut Off From Rescue by Flames Which Follow an Explosion, Three Young Ladies Are Burned Almost Beyond Recognition.

Wheeling, W. Va., Special.—Escaping gas in the building in South Eoff street, occupied by Mrs. J. S. Gavin as a millinery store and residence, caused a fire early Tuesday which resulted in the death of three persons and the possible fatal injury of one other, while six more were compelled to jump from the third-story windows to escape the flames. The dead:

Clara Gavin, 27 years old.
Mamie Gavin, 29 years old.
Margaret Gavin, aged 21 years.

The injured: Mrs. J. S. Gavin, bruised and back injured.
The dead girls were daughters of Mrs. Gavin and were suffocated as they slept on the third floor. Two servant girls and four sons of Mrs. Gavin jumped from third-story windows and escaped with minor injuries.

Managers Meet Taft.
Hot Springs, Va., Special.—W. Arthur I. Vorys, the Ohio Taft manager, and Mr. Taft's publicity assistant, Gus J. Karger, here Tuesday and Frank H. Hitchcock, national chairman, arriving Wednesday, the spotlights of the Republican national campaign seem about to focus on the Virginia mountains. From this time on Mr. Vorys will spend the major portion of his time with his chief. He has endeavored to familiarize himself with every local political situation in Ohio and Tuesday, added from 15,000 to 20,000 votes to his previous estimate that the Buckeye State would give the Republican national ticket a hundred thousand plurality. Though Mr. Vorys brings with him a demand from every part of the State for the presence of Mr. Taft during the campaign, the decided inclination of the candidate, as well as the judgment of his advisers is against a traveling campaign. The important problem Mr. Hitchcock will present will be the selection of the members of the advisory committee of nine, decided on as a means of aiding in financing the national campaign. It is predicted that these men will be chosen for the most part from the commercial centers of the country and whose abilities in financial affairs are already recognized. Mr. Taft divided his time between correspondence, conferences, work on his speech of the 21st to the Virginians who are coming here and a game of golf in which he clipped two strokes from his previous record of 90.

Raise Texas Rates.
Houston, Texas, Special.—A raise of 10 per cent. in inter-State freight rates and steamship rates to Texas common points became effective Monday. Owing to neglect in filing the new tariff with the inter-State commerce commission, the increase will not affect the seaport cities, Galveston, Houston and Beaumont, until next fall.

Elaborate preparations have been made by the local congregations for the entertainment of their visitors.

Big Corner in Cotton.
New York, Special.—The entire cotton supply available for delivery on contract, is said to have been cornered by J. L. Livermore, a young broker. In the last two weeks cotton has advanced on this market \$3.50 per bale and shorts are bordering on a panic. Believing that there would be a big crop, contracts sold short, and prices were depressed. Consequently the stock was bought and shipped away, making the available supply the lowest in years. Livermore is said to have acquired every bale not under contract to spinners.

Paper Plant Shuts Down.
Saratoga, N. Y., Special.—All departments of the International Paper Company's plant at Corinth have been closed down, following an order received from the company's headquarters in New York City. The shut down is for an indefinite time. Early in the week employees in the mill decided to resist reduction in wages and voted to strike. The shut down affects several hundred men.

DIED BY EXPLOSION

Many Killed and Injured When Boiler Blew Up

THE DEATH LIST TOTALS EIGHT

Boiler of Large Rolling Mill, Located in the Centre of the Plank, Explodes Without a Moment's Warning.

York, Pa., Special.—Eight men were killed, nearly a score of others more or less seriously injured, and thousands of dollars worth of property damaged by the explosion of a boiler in the York Rolling Mill late Monday afternoon.

The dead:
John Glency, York.
Benjamin Bremer.
Harry Zachriet.
Pola Pucci.
John Slossman.
Harry Fager, all of Columbia, Pa.
Edward Fittler, Marietta, Pa.

The boiler which was located in the centre of the mill exploded without a moment's warning.

A rescue party was quickly organized and search for the bodies was instituted.

Ambulances from the York Hospital were hurried to the scene, but owing to the number of dead and injured, delivery wagons and other conveyances were pressed into service in order that the injured might be rushed to the hospital.

While the injured were being looked after, the bodies of the dead were being carried from the ruins of the building. A majority of those killed had their heads and limbs torn from their bodies and were so badly mangled that identity was almost an impossibility.

The mill had been closed down for about a week and two score of men were engaged in making repairs to an engine. The men were working close to the boiler and when the explosion occurred not one of them was able to make his escape.

Texas Files Complaint.
Washington, Special.—The railroad commission of Texas filed a formal complaint with the inter-State commerce commission against sixty-seven railroads and other common carriers alleging a conspiracy on the part of the defendants through the Southwestern Traffic Association for the suppression of competition and restraint of trade in the recent action increasing freight rates to common points in Texas. The commission will forward notice of this complaint to all the carriers involved and will give them fifteen days to reply, the usual period allowed for answering a complaint being twenty days. The commission will expedite this case as much as possible on account of its widespread importance. The complaint is signed by Allison Mayfield, chairman of the Texas railroad commission, with W. R. Davidson, Attorney General, and Claude Pollard, Assistant Attorney General of the State of Texas, counter-signing the paper. The complaint undertakes to compare the alleged cost of maintenance and operation of the railroads with the actual cost, and the claimed indebtedness which is supposed to justify the increase. The railroad commission of Texas, it appears, has appraised the cost of construction and operation of the roads, as well as the actual indebtedness upon which the rates may be fairly based.

Paris, By Cable.—Mlle. Fallieres, daughter of the President of France, Monday became the bride of M. Jean Lanes, her father's private secretary. Dutch Vessel Catches Fire.
London, By Cable.—Only the timely arrival of the British steamship Imogene prevented a terrible loss of life among the passengers on the Dutch steamship Amstell, which caught fire off the coast of South America on August 6th, according to a message received here. The fire created a fearful panic among the passengers, and they rushed to the rails and leaped overboard in droves. Scores, it is said, would have been drowned in the scramble in the ocean had not the Imogene put out the rescue.

Turkish ruler May Abdicate.
Constantinople, By Cable.—A rumor that Sultan Abdul Hamid has grown tired of the insubordinate demands of the "Young Turks" and intends to flee the country is being generally credited in diplomatic circles here and the discovery of a mysterious armed yacht off Scutari has given color to the report. It is believed that the Sultan is only awaiting a favorable opportunity to board the yacht himself and sail to some foreign capital.

PRESIDENT TAKES BLAME

Announces That He is Responsible For the Discharge of the Negro Troops at Brownsville Taft Had Nothing to do With the Matter.

Oyster Bay, N. Y., Special.—President Roosevelt in a statement issued late Friday made it clear that the entire responsibility was his for the issuance of the original order discharging the battalion of negro soldiers for alleged participation in the Brownsville, Tex., rioting and the refusal to permit a suspension of that order.

The President was shown an interview which was had in Washington with General Corbin, U. S. A., retired, in which General Corbin stated that no credit or blame in the matter rested with Mr. Taft. After reading the interview the President through his assistant private secretary, Rudolph Foster, gave out the following:

"General Corbin's statement is absolutely correct, and it was entirely proper that he should make it. The substance of the message from the President which he quoted was made public long ago. In the Brownsville matter the entire responsibility for issuing the original order and for declining to allow its suspension was the President's."

In his interview General Corbin stated in substance that Mr. Taft was in no way responsible for the order discharging the battalion of the Twenty-fifth Infantry, and that in doing so the then Secretary of War had obeyed the direct order of the President. General Corbin then recounted the circumstances as they occurred and were published following the Brownsville affair.
