IRON WITHOUT FIRE

You heat the iron—not the stove. Iron in a cool kitchen, on the back porch or in the shade of a tree. No changing of irons or handles. No stuffing the stove with fuel. No troublesome trotting to and fro. Down in the body of your iron, 150 little in the feed pipe are shooting out 150 darts of flame. These keep the iron hot—you keep cool. The improved

Monitor Sad Iron

changes ironing day drudgery to pleasure. Saves money, time strength, worry and health. Ordinary ironing costs only 1c for fuel. Pays for itself four times over each year. Used in over 350,000 homes. One woman writes: “Worth its weight in gold.” Made of finest material, handsomely nickel plated. Guaranteed to work perfectly if operated according to instructions. Demonstrations cheerfully made in your own home. Used with care will last for years.
