CALOMEL MOST HURT YOUR LIVER

Every Time you take this Powerful Drug you are in Danger. Take Dodson's Liver Tone Instead

Calomel is made from mercury, and while mercury has many uses, it is a dangerous thing to swallow. If calomel stays in the system very long it salivates. Even when it works naturally, its after-effects are often bad.

Saunders & Fowden has a liver medicine called Dodson's Liver Tone which is positively guaranteed to take the place of calomel. It stimulates the liver just enough to start it working, and does not make you sicker than ever—as calomel often does. Dodson's Liver Tone won't force you to stop eating or working after taking it. It is as beneficial for children as for adults. Try a bottle to day under Saunders & Fowden's guarantee. You know this store is reliable.

Geo. T. Craddock, Rubie, Ark. says: "I was bothered with lumbago for seven years so bad I could not work. I tried several kinds of kidney medicine which gave me little or no relief. Two bottles of Foley Kidney Pills cured me, and now I can do any kind of work. I cheerfully recommend them to my friends." Saunders & Fowden.
