STATE CAN PROVE **RATES REASONABLE**

ACCORDING TO E. J. JUSTICE, RAILROADS' FIGURES ARE MISLEADING.

DISPATCHES FROM RALEIGH

Doings and Happenings That Mark the Progress of North Carolina People Gathered Around the State Capitol.

Raleigh.

E. J. Justice, author of the Justice freight rate act and now of the department of justice at Washington, was in Raleigh recently in conference with Governor Craig, Attorney General T. W. Bickett and Messrs. Winston & Biggs, counsel for the state, regarding preparations for the cross-examination of the railroad officals the latter part of this month with a view to breaking down the force of the array of figures presented by the railroad companies on direct examination.

In the conference were also a number of freight rate experts whom the state will use in the presentation of evidence for the state and cross-examining the witnesses for the railroad companies. These were President Fred N. Tate of the Freight Rate Association, High Point; J. C. Forester, rate expert for the Greensboro board of trade; W. S. Creighton, expert for the Charlotte board of trade, and T. J. Ryan, expert for the North Carolina Furniture Manufacturers' Association,

The whole scope of the rate situation and the evidence that has been presented by the railroad companies were considered, and a general line of procedure agreed upon. These prospective witnesses for the state were directed to work out figures that will break down the position taken by the railroad companies as to contractors effect or injustice of the reduced rates prescribed by the Justice act.

After the conference, Mr. Justice took occasion to say that he regards the figures presented by the railroad companies as entirely and grossly misleading and that he has pointed out these fallacies to the counsel for the state and the experts, so that they may work out the real facts that should control the final taxing of the rates. He says the railroad companies hav entirely too great a part of the operating expenses of their lines charged against the intrastate freight business and have their operating exwenses placed a whole lot too high as well.

He remarked that if the intrastate business for the other states served by the Southern Railroad Company were figured out on the same basis as that applied in North Carolina, they would represent fully 200 per cent of operating expenses of the whole system. He insists that the counsel for the state will have no trouble in breaking down the figures the railroad companies have presented, and that the reasonableness of the rates prescribed will be fully vindicated.

Too Late to Prevent Lynching.

Speeding-18 miles across country in automobiles under urgent orders from Governor Craig to avert a threatened lynching, Assistant Adjutant General Nine Postmasters Confirmed. Gordon Smith and Capt. W. F. Moody, commanding a squad of 40 men of Company B, Third Regiment North Carolina Guard, reached their destina tion just beyond Wendell, across the county line in Johnston county, only to find the body of the negro these were attempting to save riddled with bullets and his head literally beaten into a pulp. A mob of infuriated citi zens had taken him from Sheriff Grimes of Johnston county and his Governor Issues Requisition. deputies and taken his life for his confessed crime of murdering Mrs. William Lynch recently. The victim of the lynching was Jim Wilson, who was arrested as a suspect at Warsaw, later confessed the crime and claimed that there were four or five accomplices, whose names he gave.

Gathering War Records.

Capt. Hollis C. Clark of the United States Army has returned to Washington after a conference with Marshall DeLancey Haywood relaticve to the gathering of copies of authenticated Revolutionary War records for the purpose of publishing them in a series of government volumes. Captain Hollis is in charge of this work for the war department and is appointing competent representatives in each of the thirteen original states to seek out and copy desirable documents for the publication.

More Territory is Tick Free.

Special from Washington says the territory in the South Fred from cattle ticks and released from quarantine has been increased by 17,106 square secretary of agriculture, effective February 16, 1914, releasing addition portions of Virginia, North Carolina, Tennessee, Georgia, Alabama, Mississippi, Oklahoma and Texas.

Investigating Railroad Sale.

The work of taking testimony as to the receivership, sale and partition of the old Cape Fear & Yadkin Valley Railroad when it was divided between the Southern and Atlantic Coast Line i n1894 was resumed by the corporation commission recently, J. W. Fry of Greensbore and W. T. Kyle, now of the traffic department of the Norlfolk Southern, being the witnesses examined.

The state was represented by A. L. Brooks of Greensboro as counsel and the railroad companies by Assistant General Counsel George Elliott, of the Atlantic Coast Line.

The hearing was a continuation of the session some weeks ago when Harry Walters, chairman of the board of directors of the Atlantic Coast Line, and a number of officials of both the Coast Line and the Southern testified as to the circumstances of the purand its partition between them.

the Norfolk & Western at the most acgraded, but never froned.

B. Epting of Greenwood, D. A. later divided between the Atlantic Coast Line and the Southern.

Report of Fish Commission.

The report of Fish Commissioner J H. LeRoy to the state geological board made a remarkable showing as to dif ferences between the fisheries condi tions in this state and Virginia.

In the first place, he showed that the lack of law in this state against the catching and marketing of under size mullet is making possible terrible inroads on the mullet crop in this state. Of late shipments of undersized mullet to Norfolk and other Virginia points have been condemned and the fish not only stopped from being sold but actually confiscated and destroy Now the under-size fish are being marketed in this state.

It is insisted that the catching and sale of such small fish should be pro hibited in this state to assure their be ing left in the water for further

Move Marshal's Office.

All of the furniture and equipment oif the office of United States marsha from Asheville to Greensboro.

The following North Carolina post masters were confirmed: P. H. Lin ville, Walnut Cove; A. Elmer Powell Whiteville; Gaither G. Blackwelder China Grove; J. M. McCracken, Gra ham; W. G. Bradshaw, High Point; F. C. Gilliam, Kannapolis; G. H. Rus sell, Laurinburg; E. C. Winchester Monroe; James W. Smith, Norwood.

Governor Craig isued a requisition on the governor of Alabama for P. L ville, Ala., for the North Carolina au thorities. He is wanted in High Point on a charge of defrauding the Columbia Furniture Company of High Point out of \$406.

Revenue Officers Make Raid.

State Revenue Officers H. G. Gulley J. P. Stell and J. E. Lowe returned recently from a place in Johnston county, fifteen miles below th etown of Smithfield, where they went a few days ago, and where they destroyed two thousand gallons of beer, one bar rel of molasses and another barrel of low wine. The officers have for some time had this trip in mind, and are of the opinion that had they struck at the point at the proper time they would have been able to catch the owners of the business.

Trustees Take No Action.

After a spirited discussion of the subject the trustees of the University of North Carolina in annual session at Raleigh a few days ago decided not miles by an order issued by the acting to take any action as to petitioning county board of education has greatly for \$50,000 from the Carnegie fund for the erection of Y. M. C. A. building at the University, but made it clear that in the event the students raised the fund, which means a great expanthe 25,000 they desire and secure the sion in the work next season. Sanders Negro Submits. Raleigh.-Worth Sanders, the negro

who so narrowly escaped being lynched and took refuge in Wake county jail and was subsequently transferred sions of guilt that make his conviction much more certain, according to statement made by Sheriff Sears. He says. that Sanders told Jailor Jordan that he was out at the Lynch place when Mrs. Lynch was killed by Wilson and that he helped him put the body in the brush, but that he was too drunk to Kincard, now being held in Hunts have any clear recollection of just what did happen. Sheriff Sears has another prisoner in jail, who occupied the cell with Sanders, and says that Sanders made much the same state ment to him.

> Establish Training School. Greensboro.-A movement is on foot here to get the County Commissioners to establish a training school for boys who get into the city courts of Greensboro and High Point for minor infractions of the law. The last Legislature authorized the commissioners to make an appropriation for such a school. The idea is not to make of it a reformatory, but a real school. Boys sent there will be educated and taught useful occupations. It is believed that the commissioners will undertake the

in Experiments Conducted by West Virginia Station Milk Produced More Eggs Than Water.

Two tests are reported from the West Virginia station of the value of to the State's Prison, has made admis. skimmilk compared with water for wetting a feed mash. In the first which covered 122 days, 22 hens fed skimmilk laid 1,244 eggs, as compared with 996 eggs laid by the 22 hens fed mash wet with water.

In the first period of the second test 60 hens fed the skimmilk ration laid 862 eggs in 37 days, as compared with 632 eggs laid by a similar lot fed no skimmilk. In the second period, which covered 56 days, the rations were reversed. The chickens fed skimmilk laid 1,220 eggs, as compared with 978 in the case of the lot fed no skimmilk. In every case the pens contained one cock to ten hens. In both experiments more eggs were produced when skimmilk was substituted for water

for moistening the mash. Under the conditions prevailing in these experiments, and with eggs selling for 20 or 25 cents per dozen, the skimmilk used for moistening the mash had a feeding value of from 11/2 to 2 cents per quart. In these trials 802 quarts of skimmilk were fed, resulting in an increase in the egg production of 702 eggs, or almost an extra egg for each quart used.

Technical Terms.

It is common to call all poultry chickens, but strictly speaking a chicken is a young fowl generally under six months of age, and the fowl is one over that age. On the same basis a young male under one year of age, or a young female of the same age, are known as cockerel and pullet respectively. They become cock and hen after that age.

Comfortable Houses

All hen houses should be comfort able, which means that they should be reasonably warm, with a liberal provision for fresh air, and should be dry.

STOMACH MISERY

"I guess it was the first volcano."

GAS. INDIGESTION

"Pape's Diapepsin" fixes sick, sour, gassy stomachs in five minutes.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no dizziness, bloating, or foul breath. Pape's Diapepsin is noted for its

speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Please for your sake, get a large fifty-cent case of Pape's Diapepsin from any store and put your stomach right. Don't keep on being miserable -life is too short-you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapepsin belongs in your home anyway. Should one of the family eat something which don't agree with them, or in case of an attack of stomach derangement at daytime or during the night, it is handy to give the quickest relief known. Adv.
