The Primary Law

We are publishing the Primary Law for Martin County on the front page of this issue, and urge all Democrats to note same carefully for the election to be held in November for County officers, will be subject to the provisions of this law which was introduced by Representative A. R. Dunning during the Legislature of 1913. It will be well for the people in the County to file this copy for future reference.

The law is a good and safe one and will do away with the evils of the old system of an open County Convention. The entire Nation sees the great value of voting in primaries, and it will be a splendid day for North Carolina when a State-wide Primary Law is passed.

Candles to Fit.

To make a candle fit any candlestick, soften the wax by dipping in hot water. Then push it in the candlestick; if too small, the candle can be squeezed in; if too large, the soft wax will spread and hold the candle up.

To Help an Etherized Patient.

A piece of sterilized gauze or absorbent cotton saturated with vinegar and held before the nostrils of a person coming from under the effects of an anesthetic will tend to ward off the nausea.—Home Department, National Magazine.

High and Low.

Naturally the clergyman was annoyed when the waiter asked if the luncheon party would be high church or low church. "What on earth has that to do with you?" he demanded. "A great deal, sir," explained the waiter; "If your friends are high church I must provide more wine; if low church, more wittles."—Cardiff Western Mail.

Perfectly True.

Study this picture. This kind of thing is happening all the time. If the smooth stranger had a really good thing he wouldn't be peddling it. He wouldn't HAVE TO peddle it. Investments that HAVE drummers NEED them. We can advise you, but we can't afford to advise you wrong. Consult!
