### Calomel is A Form Of Deadly Mercury

Instead of Such Dangerous Stuff,  
it is Recommended That You  
Take Dodson's Liver Tone  
For Constipation.

Dodson's Liver Tone was made to take the place of calomel. Calomel is a form of mercury, a mineral and a poison. Dodson's Liver Tone is an all-vegetable liquid—never harmful. What calomel does unpleasantly and often with danger for constipation and sluggish liver, Dodson's Liver Tone does for you safely and pleasantly, with no pain and no gripe. It does not interfere in any way with your regular business, habits or diet. You feel good after taking it.

The great success and wide sale of Dodson's Liver Tone are the result of what it does for people. Its merit is backed up by a guarantee of "satisfaction or your money back," as Saunders and Fowden, the druggists, will tell you. Dodson's Liver Tone was intended from the start to take the place of calomel. The label on the bottle always has said so, beginning with the first bottle sold.

Dodson's Liver Tone "liven's the liver," overcomes constipation agreeably and makes you feel good, and if you are not satisfied completely with it Saunders and Fowden will hand back the purchase price (50c.) to you with a smile.

When you go to buy a family remedy, don't fail to judge between the plain, simple truth about Dodson's and the loud claims of its imitators. That the public does so accounts for the enormous increase in the sales of Dodson's Liver Tone month after month.
