Hurrah for the Durham Herald which says: "No man who was not willing to shoulder his gun and go down in Mexico and do his part has any business criticising the president for his policy of non-intervention."—Ex.

If a person desires to know what the Agricultural and Mechanical College is doing for the State, a trip through any section will reveal its work. On our farms, in our dairies, in our orchards, in chemical plants and dye-houses, in our cotton mills, and machine shops, in our light plants, in the surveying parties of our railways, everywhere that progressive industrial operation are under way, you will find men who were fitted at this busy, common-sense College. More and more each year ambitious young men are turning their steps to West Raleigh for life training. The fall announcement appears elsewhere in this paper.

Harrison—Anderson

Near Tarboro, on Wednesday afternoon, June 17th, at 1 o'clock, at the beautiful home of Mrs. Blanche Anderson, was solemnized the marriage of Miss Lossie Elizabeth Anderson and Mr. Augustus Harrison.

The house was simply yet artistically decorated with ferns, bamboo and cape jessamine. To the strains of Mendelssohn's "Wedding March," with Mrs. Plybon at the piano, the young couple entered the parlor, where, as "Meditation" was softly played, Rev. Plybon of Whitakers pronounced the solemn words which made the two man and wife.

After receiving congratulations and good wishes, the bride and groom, accompanied by a few friends, motored to Rocky Mount where they departed for an extended Northern trip. On their return they will reside at Palmyra.

The bride was unusually beautiful in her going-away suit of blue. Her sweet, charming personality made her a favorite among her friends.

The groom, formerly of Williamston, but now of Palmyra, is a leading business man of that city.

Appreciation

Editor, Enterprise:—
Will you allow space in your paper to thank the people of this township for courtesies shown me last week. Without my knowledge a petition was circulated here to the road commissioners asking them to employ me to keep up the roads in this township, which I have been told 99 percent of the tax payers in this township signed. Should this honorable board see fit to offer me this position, for several reasons, I could not under any circumstances accept. One being that I have contracted with the commissioners of Robersonville township to build roads for them. However, I extend to every man who signed this petition my personal thank; also wish to thank those who have taken and interest in my welfare since I have been here. I hope that the roads will be kept in good condition. Again thanking all, I beg to remain,
Sincerely,
Frank G. Hines.

She was very literary and he was not. He had spent a harrow evening discussing authors, of whom he knew nothing, and their books, of which he knew less. Presently the maiden asked, archly: "Of course, you've read 'Romeo and Juliet'?" He floundered helpless for a moment, and then, having a brilliant thought, blurted out, happily: "I've read 'Romeo!'"

Cannon's 25,000,000 Horsepower

Commander Regnault of the French navy in an address to an association of civil engineers calculated that the force developed in the heart of a large cannon firing a 500 kilogram projectile with a muzzle velocity of 900 inches a second is equivalent to 25,000,000 horsepower. That of a field gun firing a projectile weighing about seven kilograms with a muzzle velocity of 500 inches is 115,000 horsepower.
