Kirstin Stump Puller
One Man — Horse Power

Every Kirstin is guaranteed for 15 years, new or no new. Your money back if the Kirstin does not live up to its promise. The Kirstin method clears land from 10 to 25 percent cheaper than any other. We guarantee this, too.

For nearly a quarter century the Kirstin Horse Power Stump Puller has proved its superiority on Southern stump lands. Thousands of Southern farmers have been started on the road to prosperity by a Kirstin. It is designed for Southern work and will pull anything it tackles, be it a thick, green pine, a deeply imbedded tap root or a field of hundreds of heavy stumps. The new triple power and automatic take-up enable it to perform the heaviest work with rapidity, certainty and without strain on man, horse or machine. The One Man Puller gets the biggest stumps, too. Horses unnecessary. Double leverage gives you a giant's power; a push on the handle means a pull of tons on the stump. Clears an acre from one anchor and ready for the plow.

Send for New Free Book

"The Gold in Your Stump Land." It gives you valuable information about twentieth century land clearing methods and explains in detail all Kirstin models. It tells about Kirstin Service, forever free to all Kirstin machine owners. Don't buy a puller until you read this book.

Big money to those who order early. To first buyers in every locality we offer a special opportunity to join in our profit sharing plan. No canvassing; just a willingness to show your Kirstin to your neighbors. Don't wait, send the coupon today.
