THE "NEW-WAY" ENGINE

GOES AND GOES RIGHT
Buy Now Before Prices Go Up

The scarcity of material and the unprecedented demand for power on the farms will soon make a shortage of farm engines and higher prices. It is bound to, but there never was a time when you could better afford to invest in an engine than now. At the present prices for farm products less bushels than ever of potatoes, grain, fruit, etc. will pay for an engine. On the other hand, the farm laborer is demanding higher wages, the cost of feeding him is double what it formerly was. Good hired men are scarce at that.

YOU CAN DEPEND UPON THIS ENGINE

The "NEW-WAY" Engine can be harnessed to any belt driven machine about the place. It will take the place of a hired man and then some. The "NEW-WAY" is waterless, never overheats but is always ready to go and deliver its full rated horse power, Summer or Winter.

YOUR LOCAL DEALER WILL SHOW YOU

He will explain the many points of "NEW-WAY" superiority. He will prove to you that price is not everything to consider and that you can save money and trouble by purchasing a "NEW-WAY" waterless engine rather than the common variety or mail order gasoline engine.
