FRIDAY, SEPTEMBER 29 - 1919

#### Our Food Resource

Food Administrator Hoover says that the United States is prepared to ship this year more than five and one-half millions of tons of food-stuffs over and above the quantity supplied our Allies and those of our allies last year. Mr. Hoover says also that there will be no food rationing among us so long as we continue to conserve and save food. This help given our friends, the allies, is a benefactor in the war, and already has resulted in good results as well, for we have learned the lesson of economy in the use of our foods.

Furnishing our allies with food and money is but a touch of the great weight Americans can and will put in the war as a result of our unlimited resources. When our people are called upon to deny themselves at home for the cause abroad (if they ever are) they will do it just as willingly as they economized, and then will the result be enormous. Time will teach Germany that American resource and determination is a factor rather than a joke in this war as we were at one time considered by Boss Bill.

Square yourself for the Fourth Liberty Loan Drive. Our boys are rapidly winning the war on the 1st, 2nd, and 3rd with the help of the War Savings Stamps sales but these will soon be exhausted and we must be ready with the money for the needed supplies and equipped men for the winter drive in the trenches. Let every man do his best.

Drive begins tomorrow Sept. 28, October 12th, the Anniversary of the discovery of America by Columbus will be the great day of the campaign. Every man woman and child in every station in life should help by word or deed in this great cause.
