ROADS

While our roads have been almost impassable for many months, it is impossible in some sections of the county for the past two months and the people were forced to emerge from their homes only to find that to travel to the nearest town or to the state legislature was a task of almost insuperable difficulty. It is a fact that we are for them heart and soul because we know that they are better than what we now have. Good roads are one of the most important and best paying industries that a county can have. Let Martin County be one of the first in the state to apply the new system and let everybody see and push for the bridge at once. Let our county commission get busy and that the people are not that they do not know that they are perfect. We are for them heart and soul because we know that they are better than what we now have.
