## CITIZENS HOLD MASS MEETING THURSDAY; CANDIDATES CHOSEN

The mass meeting held at the school auditorium last night was well attended by both men and women. Honorable Clayton Moore was elected chairman and Dr. John D. Biggs, secretary. The school board made a report.

A resolution from the Mother's Club stating that from present indications it is not necessary to build a dormitory or teachers home and recommended that the form of the proposed bond election be so changed that the proposed issue be reduced from \$30,000 to \$10,000.

T. F. Harrison was elected to succeed himself on the board of trustees. At the conclusion of the school meeting the house resolved itself into a town meeting for the purpose of nominating a candidate for mayor and five candidates for Commissioners of the town.

Upon motion the same organization was continued. Mr. Wheeler Martin placed Dr. John D. Biggs in nomination for mayor, Mr. W. C. Manning seconded the nomination, whereupon Mr. R. J. Peel made the motion that the nomination be by acclamation, which motion was carried and he was declared nominated.

There were numerous names presented for commissioners, all of which were men of high standing and good business judgment. A large number of them requested that their names be withdrawn and the following were nominated: George H. Harrison, Alonzo Hassell, B. S. Courtney, S. R. Biggs, and W. T. Meadows.

The Convention is to be congratulated upon its selection of a mayor and aldermen and the town will have a good administration of town government from this board.

## CLEAN-UP WEEK A FEATURE WITH MODERN TOWN DWELLERS

The spring clean-up time, now a regular annual feature of town and city life, cannot be observed on farms in the same season because of more pressing work. Efforts are made constantly, therefore, to encourage picking up the odds and ends about the farm in the slack times between fall planting and early spring. In many towns, however, the home demonstration agents give their organizing ability to furthering such work in the early weeks of spring.

In Spokane, Washington, a campaign called the "Alley and Back yard Beautiful" began in 1919 to extend through five years. This work was initiated and guided by the city-home demonstration agent, whose report shows excellent progress. Newspapers give constant publicity to the work, urging the repairing of screens, windows, and outbuildings, and the planting of shrubbery, trees and flowers. In 1920, in the city of Spokane, more than 8,000 grape cuttings and rooted plants were set out. The sampler of commerce supplied thousands of circulars drawing attention to the duties of citizenship, particularly for home owners. In many yards, as a result, there are to be seen purple grapes, the stately hollyhock, the modest foxglove and many other flowers growing inside freshly painted fences. In one yard, 50 by 142 feet, the hitherto neglected vines produced more than a ton of grapes last year. In the work this spring Spokane is being districted for a beautification campaign to be conducted precisely as the Liberty Loan campaigns were carried forward during the war, each district under a captain, with a team, reporting regularly on conditions.

We have on hand several tons 16 per cent acid, that will sell for \$17.00 per ton.

## SEED-POTATO PEST ACTIVE IN NORTH CAROLINA FIELDS

A very serious outbreak of the seed corn maggot, or beetle, in seed potatoes in the eastern part of North Carolina, covering Pitt, Tyrrell, Beaufort and Pamlico counties has been reported to the United States Department of Agriculture, through the insect-pest survey work being carried on by the Bureau of Entomology. Damage from the pest was first reported late in March, and the insect is still at work, the maggots attacking the seed potatoes in the soil before they sprout.

Careful counts made by entomologists in the infested fields have found that 85 per cent of the seed has been destroyed, which has necessitated replanting or abandoning the crop. It is estimated that in the infested region the crop will be reduced 50 per cent by the depredations of this insect. The infested region lies in the low coastal plain and has a generally sandy loam soil. The weather this spring has been abnormally warm in that region, especially since March 1.

The insect, according to entomologists of the Department of Agriculture, is found in practically all sections of the United States, and much investigation work has been done to find a remedy for its destructive attacks on seed potatoes. No single remedy, however, it is said, has been found that will wholly check the pest.

## THE NATION'S BULWARK

The bulwark of the nation is education because—

It is a financial investment that yields the highest dividends.

It results in safe and sane citizenship.

It increases the ability and desire to serve others.

It adds to the appreciation and happiness of life.

It multiplies the chances of success in life.

With no schooling the child has only one chance in 150,000 of rendering distinguished service.

With elementary schooling the child has four times the chance of the one without it.

With high school education he has 87 times the chance.

With a college education he has 800 times the chance.

Fewer than 1 per cent of Americans are college graduates, yet this 1 per cent has furnished—

Fifty-five per cent of four Presidents.

Fifty-four per cent of our Vice-Presidents.

Forty-seven per cent of our Speakers of the House.

Thirty-six per cent of our members of Congress.

Sixty-one per cent of our Secretaries of State.

Sixty-seven per cent of our Attorneys General.

## INTERSECTION OF MAIN AND WATTS STREETS A DISGRACE TO THE TOWN

It is a disgrace to the town of Williamston that the intersection of Main and Watts street has been allowed to remain in its present condition for such a length of time. A stranger driving over this thoroughfare recently broke a spring in his car and went to the town officials to learn if he could sue the town for damages.

It would be a small matter to fill in this ditch and unless there is some arrangement made in the near future a penalty will have to be paid by the officials directly responsible. It will also be a good deed done to drag Watts street. What the residents of that location can be thinking of not to have entered a protest to the town long ago is beyond our understanding. It is not necessary to endure these hardships when we are paying higher taxes than in any other town in the state according to what we are getting in return and we have found that there is no relief coming except from a good hard kick against everybody in charge. The Enterprise will be glad to assist presenting these charges.

## PRICE-PHELPS

This afternoon at 3:30 o'clock at the home of Mr. and Mrs. W. T. Phelps on Cotanch street, was solemnized a most beautiful wedding when their daughter Selma became the bride of Mr. W. E. Price of Winston-Salem. The home was beautifully decorated with spring flowers. The parlor in which the ceremony was performed was especially beautiful with its decorations of pink sweet peas, pink cactus and ferns. An improvised altar of sweet peas, ferns and pink candles was artistically arranged in one corner of the room.

Miss Pattie Jenkins, at the piano rendered a musical program while the friends were assembling. She played Mendelssohn for the recessional. Loghensgrins for the recessional. Humoresque during the ceremony.

The bridal party entered from the reception hall in the following order: First, the bridesmaids, Misses Nan Smith, of Winterville and Margaret Moore. They were pink organdy frocks, with black picture hats, and carried pink roses. Following them came the groomsmen, Messrs. S. N. Graham and Alva Jordan.

The bride entered with the groom. She wore a going away suit of blue with black accessories and carried a shower bouquet of bride's roses and valley lilies. The impressive ceremony was performed by the bride's pastor, Rev. Leland W. Smith.

The bride is one of Greenville's most attractive and beautiful young women. She possesses a host of friends and is loved by all with whom she comes in contact.

Mr. Price is a young man of sterling character. He made his home in the city for several months prior to going to Winston-Salem where he is a assistant Deputy Superintendent of the Metropolitan Life Insurance Co. He is one of the State's most promising young men.

Immediately after the ceremony Mr. and Mrs. Price left for Winston-Salem where they will make their home. Greenville Reflector.

Mr. Price is the son of Mr. Ed Price of Williamston township and the cousin of Mr. J. T. Price. He works in the local postoffice for several years and has many friends in this community. Messrs. J. T. Price and John D. Ward of Williamston attended the wedding.

## WILL SPLIT OR ROUND FENCE POSTS LAST LONGER?

Some people believe split fence posts last longer than do round ones. Probably as large a number hold the opposite view. The Forest Products Laboratory of the United States Department of Agriculture says that one will last about as long as the other if the percentage of heartwood and sapwood are the same in both. If the percentage of sapwood is increased by splitting, the split post will be less durable, while if the percentage of heartwood is increased it will be more durable than the round one. Exceptions to this should be made if the posts are of spruce, hemlock or any of the fir, whose heartwood and sapwood are about equally durable.

If the posts are to be treated with creosote or some other preservative, the round post is preferable to the split, because of the comparative ease with which the sapwood can be treated. Experiments at the laboratory demonstrate that the heartwood faces on split posts do not, as a rule, absorb the preservative as well as does the sapwood.

## CHAUTAUQUA CLOSES

The Visual Chautauqua closed its series of pictures, lectures and music Wednesday night. The entire program was good and should have been worth something to the town and school. It is to be deplored that the children of our town are not taught to behave themselves in a public place. For instance, during the last lecture given by Mr. Dawson, he was forced to ask the children to refrain from talking in order to concentrate upon his subject, the effect of the low mumbling and moving about of the little folks was painful to the audience and it would have been a rare treat to have punished some of these same mother's darlings that haven't any manners, either at home or abroad.

## STOCKHOLDERS OF THE PEOPLES BANK HELD A MEETING THURSDAY

A successful meeting of the stockholders of the Peoples Bank was held Thursday afternoon with between five and six hundred shares represented. One of the first acts of the stockholders at large was to move and approve a vote of confidence to the directors of the past administration.

Upon resolution it was passed that the Finance Committee of the bank will meet every Friday night in the directors' rooms. Motion was made and carried to have the directors meet every first Monday at 3 P. M.

Messrs. Arthur Anderson and R. J. Peel were elected to the Finance Committee.

Upon the resignation of six directors Messrs. Joseph L. Holliday, J. L. Coltrane, W. W. Griffin, Sylvester Peel, W. L. Taylor and Jesse T. Price were made directors.

The recent audit of the bank was read to the stockholders and the true condition and status of the bank impressed upon them. There was a fine spirit of good will and cooperation manifested and the bank supported by such good authority and power will progress in the future with as much surety as it has in the past. The following directors now compose the board:

J. L. Hassell, Merchant; A. Anderson, Merchant; A. R. Ayers, Merchant; A. R. Dunning, Attorney; Leslie Fowden, druggist and planter; R. T. Griffin, Warehouseman; S. C. Griffin, Planter; J. C. ## GERMANY LEADING IN RETURN TO NORMALCY

Germany, through the economy and sacrifices of her working people, has settled to real production and is outstripping the United States and allied nations in the fight toward normalcy.

Charles M. Schwab declared in New York Thursday in an address before the Chamber of Commerce of the state of New York.

Mr. Schwab was the guest of the chamber at a reception given in recognition of his service to the country during the war.

"Germany today can put a ton of steel in England at a price \$20 a ton cheaper than England can make it," he said, "and is selling pneumatic tools in Detroit, where formerly we shipped such machinery to Germany and sold it cheaper than she could make it."

"The difference is solely a matter of labor costs."

"It is estimated that 5,000,000 men are out of work in this country. It is accordingly of supreme importance to the working man as well as to the capitalist to restore our prosperity."

"Never before was the need for products so great, never before was such valuable producing machinery and facility available, never before was there so much that needed to be done."

"I have just returned from Europe and I came with renewed admiration for the courage, the enterprise, the determination displayed in Italy, Belgium, France and England. Germany was ahead of them all in production."

"Is it possible that after having won the war, we of all the allied nations with everything in our hands, will allow Germany to win the peace through the efforts of her labor?"

Labor on the whole can be paid only what labor as a whole earns, and if some sections of labor exact more than their share of the current produce of the world, other sections are going to suffer. I understand that our railroads today pay to labor over sixty cents out of a heavy dollar received. The labor cost of making a ton of steel today is 85 cents out of each dollar of total cost."

LOCAL SECOND TEAM WINS FROM THE JAMESVILLIANS

Saturday, April 23, a game of baseball was played at the Martin County Fair Grounds between the second teams of Jamesville and Williamston. The game was called at 3:30 and was very interesting and exciting from the start to the finish. The features of the game were the remarkable catching of George Harris and the three-bagger of Herbert Peel. The final score was 12-10 in favor of Williamston.—Reported.

## ORGANIZATION IS THE HOPE FOR FARMERS

"What is wrong with agriculture?" is a question proposed by the National Farmers Union to be investigated. However, this question has already been answered by four American citizens in high places.

"Several times last fall when the farmers appeared before him, President Harding of the Federal Reserve Board advised them that their trouble was the lack of a system of marketing their products. In short, he told them to go home and run their own business instead of letting other people run it for them."

President Wilson in his veto of the Emergency Tariff gave the farmers to understand that their hope lies not so much in legislation as in a more business-like system of marketing their products.

President Harding has several times emphasized the need of farmers applying business principles in the marketing of their farm products.

Secretary Wallace in his official capacity, it still pleading with the farmers of America to give more attention to the marketing of their farm products, just as he has been doing for several years through his splendid farm paper.

It seems that these distinguished leaders have put their fingers on the sore spot and pointed out the real trouble with American agriculture. It only remains for the growers themselves to come together in an organized capacity in order that they may be able to market their products to better advantage.

## BANKING LAW OF NORTH CAROLINA, SECTION 82

False reports, wilfully and maliciously making. Any person who shall wilfully and maliciously make, circulate, or transmit to another, or others any statement, rumor, or suggestion, written, printed, or by word of mouth, which is directly or by inference derogatory to the financial conditions, or affects the solvency of financial standing of any bank, or who shall counsel, aid, procure, or induce another to state, transmit, or circulate any such statement or rumor shall be guilty of a misdemeanor, and upon conviction thereof shall be fined or imprisoned, or both, in the discretion of the Court.

## WILLIAMSTON, 11; BETHEL 7

Wednesday afternoon the Williamston baseball team motored to Bethel and played the team of that town a fast game. It was a scramble from start to finish and several persons, both on and off the field were accidentally hurt. Lyman Britt, pitching for Williamston, struck out thirteen men and failed to walk any. Baxter Carson was the shining star for Bethel, getting a triple, a double and a single out of five trips to the platter. Harry James had the misfortune to fall while chasing a fly ball and fractured his knee cap, however, it is expected that he will recover in a short time and hold his own again as left fielder. Errors played a large part in the scoring of both teams. The final score was 11-7 in favor of Williamston.
