Dr. Biggs Brings Good News For the Growers of Peanuts

Dr. John D. Biggs has been in Washington, D. C., this week with a committee from the Peanut Growers Exchange, before the War Finance Corporation an dthe committee succeeded in making arrangements to deal direct with the Finance Corporation. This means that the Peanut Exchange can borrow money direct from the Finance Corporation and in large amounts. Mr. McLean, the chairman of the War Finance Corporation assured the committee from the Exchange that they could get million dollars and more if necessary. It takes a tremendous amount of money to finance a proposition of this kind and this connection with the Peanut Exchange upon an absolutely sure and sound financial footing.

The Peanut Exchange has already proved its ability to help the grower of peanuts because it is keeping from one million to a million and a quarter bags of peanuts off the market. At least five hundred thousand bags would have been forced upon the market but for the Exchange being able to hold them off and it is reasonable to say that the price of the best stock of peanuts would not have been over two cents a pound if these distressed peanuts had not been kept off the market.

Dr. Biggs says he can give the members of the peanut exchange positive assurance of the success of their efforts and he believes the cooperative marketing of peanuts will bring a help to not only the farmers but the merchants as well and all who are interested in seeing the best interests of the farmer promoted and sure which is best for the farmer is best for all.

The interview of Dr. Biggs by our reporter will be of special interest to our peanut people. They will see once that the farmer is coming to his own and instead of the money being used to bear down the price of his peanuts it is going to be used to boost the prices of them.

We will also interest our farmers. It should interest us all, to know that not only is the government putting up money but the world's most influential bank, the National City Bank of New York is now working the Kentucky farmers seeking the opportunity to grant them loans, to pool the Kentucky crop of tobacco during this season.

The world may as well note the fact that the old way will be changed and the farmers, like other folks, of their products in a sensible way.

CHARITABLE BROTHERHOOD MEETING

The quarterly meeting of the Martin County Council of C. B. H. met Wednesday with the Hamilton lodge No. 12. The roll call showed all the lodges of the Council represented except three and the attendance of visitors as well as delegates was large. The regular routine of business was transacted and several good talks were made by the brethren.

The next meeting will be held with the Robersonville lodge the second Wednesday in March 1922. Barbecue chicken, and many other good things were bounteously served by the Council by the Hamilton lodge and their families.

The Charitable Brotherhood is an organization known only in Eastern North Carolina, being organized in Beaufort County. It has been in operation in Martin County for more than fifteen years and has done much in charity and something in insurance. It puts the members in touch with each other and tends to their general good.

WHAT ABOUT GROWERS OUTSIDE ASSOCIATION?

Tobacco growers who are outside the cooperative marketing association may have to haul their tobacco many dozens of miles to find a market next year, according to information from the office of the cooperative association in Raleigh. During the last few days all sign-up records have been taken, and at the present rate at which the growers are joining the association indications are there will not be enough tobacco on the outside to maintain a single auction market in the State.

Warehouses in North Carolina it is pointed out, will probably follow the example of Kentucky and remain closed pending their being taken over by the growers' organization as receiving stations.

With the "auction" system entirely eliminated, grower outside the cooperative association can sell only to "pinhookers" and other speculators who will take advantage of the farmer who has no market within miles of his farm.

With Virginia and South Carolina growers lined up solidly in the cooperative association, it will be a case of a long hunt for a market for those growers who delay joining with their neighbors in the movement to obtain better prices. The few business men who have stood out against the growers' association are certain to feel the effects of their attitude once the growers get on their feet through cooperation, while the merchants and bankers with vision, who have helped during the campaign, are expected to reap rewards through increased trade from association members.

In certain sections groups of growers have proposed to buyout sufficient stores but have been urged by organizers to hold off and give such business men time to study the proposition more thoroughly, convinced that if they do they will stand behind the growers in their gigantic effort to better the conditions of rural life through better prices for tobacco.

N. C. MAN HEADS SEABOARD DOCTORS FOR 1922

The twenty-sixth annual convention of the Seaboard Medical Society came to an end yesterday afternoon following the election of Dr. Joseph L. Sproull, of Sanitarium, N. C., as president for the coming year, an official vice-president, a secretary and a treasurer. The members of the society went to Chesapeake Beach after adjournment, where Billy O'Keefe served one of his famous oyster roasts for their benefit.

Dr. Sproull succeeds Dr. E. C. S. Talliferro, of Norfolk. He was first vice-president of the organization this year and by the system of advancement of vice-presidents in vogue in the society, was slated for the presidency. The other officers elected are: First vice president, Dr. Joseph T. Buxton, of Newport News; second vice-president, Dr. W. E. Warren, of Williamston, N. C.; third vice president, Dr. Cora Z. Corpening, of Suffolk fourth vice president, Dr. E. T. Gate of Manteo, N. C.; treasurer, Dr. Geo. A. Caton of New Bern, N. C. (re-elected), secretary, Dr. Clarence Porter Jones, of Newport News, re-elected. New Bern was chosen as the place for the 1922 convention of the society—Virginia Pilot.

FALSE ALARM

Wednesday morning about eleven o'clock some one called the fire department and said to send the fire truck in a hurry. The fire bell was rung and the members of the hose department were soon assembled at the truck house on the way. They had been informed that the fire was at the tenant house on the lot of Mr. L. Peal and went there in double-quick time. When they arrived there was no fire in sight but a man was coming out of the house with a coat stove and they out from him that the fire had been in the stove but it was all out by the time so there was nothing left for them to do. The practice was good for the company in the case of the fire Thursday morning.

STORE BURNED

The fire alarm was sounded at two o'clock yesterday morning and the fire company responded with unusual promptness and were very soon on the scene of the fire which proved to be the little store occupied by Henry Everett, colored, on the railroad near the power plant. The building was practically burned down before the alarm was given but the part that had not already been burned was quickly extinguished.

DEATH OF AN INFANT

On Saturday morning, Dec. 6th, 1921, the death angel visited the home of Mr. and Mrs. C. W. Mizelle and took away their darling little baby. He was born November 21st, 1921, being only two weeks and five days old. All was done for her that could be but it was God's will to take her away and she is gone.

She was laid away in the family graveyard on Saturday afternoon, three-thirty. Blanche Mizelle played very softly on the piano and her little sister Ruby sang "Jesus Loves Me."

The little twin sisters, Nita and Nellie Davis carried the flowers to the grave and Bessie, Mamie, Julia Mizelle and Ione Davis were the pall bearers. Bro. D. W. Arnold conducted funeral services.

Our darling little baby is sleeping sweetly in a newmade grave today. We are weeping, gently weeping for our darling's gone away.

There is a vacant place in our home that cannot be filled, But God knoweth best, and doeth all things well.

She is gone but not forgotten. Written by her loving sister, BONNIE MIZELLE.

Tobacco Price Vary Greatly During Month of November

DIPHTHERIA SHOWS BIG IN N. C. IN PAST YEAR

During September, October and November there were 3,379 cases of diphtheria reported to the State board of Health. The number reported for the entire year of 1920 was 3,432. Inasmuch as so many of those people who have had diphtheria will carry the germs in their nose and throat for a considerable time I feel that it is my duty to urge all parents to avail themselves of the protection for their children above six months afforded by the use of toxin-antitoxin.

About one per cent of the people in this county are diphtheria carriers. It is this group that spread the disease. This is done by the carrier coughing or sneezing in the faces of those near them, or by contaminating articles which they handle, and thereby passing on infection to the unprotected. Children especially are exposed through the exchange of pencils, chewing gum, fruit, food or the use of the common drinking cup.

When we come to think of it, it is a wonder that we do not have more sickness than we do inasmuch as there is so great an exchange of spirits from one person to another.

The diphtheria season will last for several months yet, so it is hoped that those who have not given their children three treatments of toxin-antitoxin will do so. Remember that these treatments completely protect about 90 per cent of the children, but this protection does not come until three to six months after the injections have been given. If any people in this county desire to ask any questions about toxin-antitoxin, I will be very glad to answer them.

Yours very truly, WM. E. WARREN, Quarantine Officer.

When a merchant advertises his own goods he expects to bring people to town. He is not selfish. He knows that others will get part of the benefit.

Tobacco sales for November show wide ranges of prices in Eastern Carolina; Goldsboro, the lowest at 17.58 and Farmville the highest at 24.64, which nearly doubles the Goldsboro market.

The markets in the range of our own people show Greenville first at 31.23; Williamston, second at 29.70; Robersonville, third at 29.60; Washington, fourth at 25.65 and Tarboro, fifth at 22.50 and Windsor, sixth at 21.54. These indications clearly show the farmer who has hauled his tobacco to Greenville has only gotten a cent and a half more for his tobacco, not enough to justify him for his trouble and expense. In fact the Greenville average may have been raised and the Williamston average lowered because a great many farmers have been induced to haul their best grades to Greenville and sell the lowest grades in Williamston, because it would not pay to haul common tobacco so far. In comparison with the Washington market Williamston paid more for tobacco than the Washington market. Yet Washington is hailed by some as a better market.

There are two kinds of propaganda that tend to boost any kind of market. One is the price in kind figures; the other is paid agencies or men that are paid to boost.
