CONDENSED PRUNING RULES

Trim Fall Set Trees Early in Spring Before Buds Swell-Low Heads Are Most Favored.

Someone has given the following early in the spring, bet swell; prune spring set trees as soon as planted. Cut out entirely all weak, broken or bruised limbs, keeping the head properly balanced; then shorten the remaining shoots to three or four buds at the base. Do not shorten cherry trees. When planting peach trees, cut off all limbs, leaving a stick. and cut this back to 18 to 24 inche Head the tree right from the growhen you plant it. Low heads are

BEST LOCATION FOR ORCHARD

Has Much to Do With Question as to Whether Trees Should Be Trained to Open Heads

The location of the orchard has uch to do in regard to whether or not the trees should be trained to open or closed heads. In a damp locality where moss appears on the sides of hte trees, it is well to train to an open head so that sunlight can be thrown into the tops. In hot or dry localitie or where the sun shines unusually bright it is better to leave a close head to protect the fruit from the direct rays of the sun.

PUREBRED BULL OF QUALITY

Average Production of American Cow Is Way Below That of Many Other Countries.

The average production of milk of the dairy cow in the United States is 3.527 pounds; Denmark, 5,666 pounds; Switzerland, 6,950 pounds. Nether-tands, 7,585 pounds. What a possibility general, condensed rules for pruning there is for the dairy farmer of the of young trees: "Prone fall set trees United States. The purebred sire of the buds first quality is the surest start on the way to these obtainable better goals.

YARD AROUND DAIRY STABLE

Pavement of Concrete Will Prove Effi cient in Keeping Down Dust and Insuring Drainage

Paying the yard immediately around the dairy barn with concrete is one of the most effective means of keeping down dust and insuring perfect drain-On a concrete pavement dust and litter can be swept away easily. and muddy yards are banished.

Discretion should be used in the choice of land for crops. Those crops which require a large outlay of cash or labor, such as potatoes and tomatoes, should be put only on land which is well adapted to them. The poorer land should be devoted to crops that require less money and outlay.

Tools in Working Order Good tools will not lose their eff ciency if common sense care is taken of them. Always keep them in good working order in a clean container or on neatly arranged hooks, and keep them in a dry place,

The Breeding Stock. Turkeys should under no circum-stances ever be inbred, because it is sure to reduce the size and also the tutional vigor.

Enemy of Potate Scab is a serious enemy of the Irish potato. It has been said that it alone reduces the yield of potatoes by these sands of bushels.

BLACK-DRAUGHT **OVER 30 YEARS**

"Saved Me Many a Sick Spell," Says Texas Farmer Who Has Long Known Usefulness of Black-Draught.

Naples, Texas.-"I have used Thedford's Black-Draught for years-I can safely say for more than 30 years," declares Mr. H. H. Cromer, a substantial, well-known farmer, residing out on Route 3 from here.

"I am 42 years old, and when a small boy I had indigestion and was puny and my folks gave me a liver re Then Black-Draught was advertised and we heard of it. "I began to take Black-Draught, and

sed it, when needed, ever since. I use Black-Draught now in my home. and certainly recommend it for any liver trouble. "I have given it a thorough trial,

and after thirty years can say Black-Draught is my stand-by. It has saved me many sick spells." Mr. Cromer writes that he is "never out of Black-Draught," and says several

of his neighbors prefer it to any other liver medicine. "I always recommend Black-Draught to my friends," he adds. This valuable, old sowdered liver medicine is prepared from medicinal roots and herbs, and has none of the bad effects so often observed from the use of calomel or other powerful mineral drugs.

Black-Draught helps to keep the liver in trim, helping prevent or relieve such troubles as constipation, biliousness, indigestion, sick headache. Be sure to get the genuine,

BOY SCOUTS' ANNIVERSARY

The Boy Scouts of America through ut the entire country celebrated the week of the thirteenth anniversary of the movement February 8-15. Demonstrations of scoutcraft, rallies, parent-and-son meetings, radio messages of indorsement of scouting by pro nent people, and the taking of the scout oath by well-known men had a place on the program. Fifty thousand cards containing a splendid indorse-ment of the movement were placed in street cars throughout the country. Thousands of billboard posters picturing scout training appeared in the different cities. The car cards and posters were the donation of stanch supporters of the movement to help bring scouting's message to every American

One of the most impressive acts of the entire week occurred on the eve ning of February 8 when every scout and scout leader throughout the country reaffirmed the scout oath:

On my honor, I will do my best! "1. To do my duty to God and my country, and to obey the scout law; "2 To help other people at ORIVE MALARIA OUT OF THE SYSTEM

"3. To keep myself physically strong. mentally awake, and morally straight. In many communities the respective days of anniversary week were devoted to scouting in connection with the school, the church, the home, and the community. Special demonstra-tions were given showing what scouting is doing to co-operate with each of these institutions.

As the public grows more familiar with the scout program of character building and citizenship training, it demands—"Why are there not more boy scouts?" In posse to this question, the Boy Scouts of America made an extraordinary effort to make room in the ranks by anniversary week for 100,000 new members. This effort was termed the anniversary round-up. In this connection every scout the country over had am oppor tunity of doing a national good turn, by bringing to the ranks one more boy to advance in the work of good citizenship. Indications point to subscription of the quota of 100,000. With the increase proposed, the total boy membership of the Boy Scouts of America will reach the half million mark.

President Harding, in his appreciation of the work of the Boy Scouts of America and his interest in seeing more boys members of the organiza tion, authorized the presentation in his name of a large silk American flag to each region attaining its quota of increase in membership for the anniversary, roundup; a handsome set of cilk streamers-red, white and blue to each of the 600 local councils that reaches its goal; and a similar but smaller set of streamers to each troop that enrolls the specified number of new members. President Harding is honorary president of the Boy Sceuts of America.

HAS FAITH IN BOYS

A group of scouts unsolicited recentthe responsibility of guarding a certain dangerous crossing of getting little children over im safety. These boys didn't tell anybody of what were doing. They weren't looking for credit-they were just doing. Last winter a scout stood guard over a live wire for several hours on a

freezing night. In passing, he had seen the danger, and on his own initiative guarded passersby until the repairmen came. He froze his ear, but he did his duty as a scout. And when the boy scout organization through its chief scout executive.

"We claim there are no natural ly had boys though there are idle misdirected or undirected, mischievous. heedless or mistaken boys," it based that assertion, and the following one on just such facts as these quoted:

"We claim that if you give a boy plenty of interesting worthwhile things to do in his out-of-school or after-work hours, that the chances are he will have little inclination to malicious mischief or vicious amusement."

AID INJURED BOY

While playing, Robert McKnight of Bowling Green took a big jump and his foot landed upon a broken bottle A large artery was cut and began to bleed profusely. Scout Norman Loomis was present. Following his first aid instructions, he promptly stopped the flow of blood by use of a tourniquet. He then took the injured boy upon his back and carried him to his hom

ROTARY USES SCOUT MOTTO

In conformity with the scout sie gan, "Do a Good Turn Daily," scouts of Tampa, Fla., have permunity. The boys declare that the old saying, "Give to the world the best you have, and the best will come back to you," is especially significant in their case. For now come their friends, the Rotarians, at a recent state convention with a memento coin on which is stamped the motto, a Good Turn Daily to Some Boy."

FAMOUS SCOUT HONORED

Daniel Carter Beard, America's "grand old scout," national scout commissioner and chairman of the National Court of Honor, Boy Scouts of America, has been awarded a gold eagle hadge, the only one in existence, in recognition of his inspiring and valuable services. The presentation took place with impressive ceremonies around a huge campfire in the hills of the Blue Ridge mountains, North Carolina, at the recent national conference of scout executives.
