

LINCOLN CAR PRODUCTION IS NOT HINDERED

Despite Fact That Plant Is Being Enlarged and Machines Moved

DETROIT, Mich., Oct. 4.—Changes including the transposition of a number of manufacturing departments, nearing completion at the Lincoln plant division of the Ford Motor company, form an interesting sidelight on efficiency methods of the organization.

When a manufacturing plant is carrying on a heavy production, it is a matter of considerable difficulty to move a large portion of the machinery from one place to another. Yet this is just what is being done at the Lincoln plant, and without the least halt in the output.

In fact, with the steadily increasing demand which the Lincoln is enjoying, production, through the introduction of greater facilities, has been moved up and a new output record was established in August with shipment of 897 cars during the month, a gain of 97 over July.

During the eleven months of Ford ownership in 1922, Lincoln car shipments totalled 5,242, while so far this year 5,273 Lincolns have been manufactured.

Moving of the several departments into the new addition which increases the plant floor space 311,000 square feet, is being effected under a highly scientific arrangement. The plan provides that raw materials and stock shall enter one end of the receiving

room and gradually pass through the manufacturing process to emerge at the other end of the building as finished products.

Conveyor system, new and improved machinery and many other facilities are being installed to bring greater quality and refinement to Lincoln motor cars.

Illustrative of the close attention to detail which enters into every phase of Lincoln car production is one small department where clock used on Lincoln cars are received. They are manufactured by one of the country's foremost watch makers. Nevertheless, in this department, every clock undergoes an eight day test before being permitted to take its place on a Lincoln car instrument board.

MOTOR SAFETY CODE

In line with their safety campaign, the Chicago Automobile Dealers' association has issued the following code of rules for pedestrians:

1. Be on the alert at all times.
2. Don't be in a hurry to cross the street. Wait until the road is perfectly clear of traffic.
3. Remember that it is better to be a few minutes late than to never arrive at all.
4. Don't cross the street in the middle of the block.
5. Don't dart out from in front or behind a car parked at the curb.
6. Don't depend upon the motorist to see that he does not hit you. This is a fifty-fifty proposition. Do not "stargaze" while crossing the streets.

7. Remember that you have your share of responsibility in the present safety campaign.

8. Also remember that the court does not always decide in favor of the person injured. A great many times his injuries are due to nothing more than his own carelessness.

Some of the drivers of heavy trucks have called our attention to pedestrians who willfully cross the street slowly in front of them, necessitating putting the truck in reverse gear to avoid running over the pedestrian. A heavy truck loaded with several tons cannot be stopped in an instant without the brakes, though it may not be running over 10 miles an hour. Some pedestrians of Williamston will do well to read the above rules and do their part in avoiding accidents.

COAL PROFITTEERS UNDER "PINCHOT PACT" GO ON UNCHECKED

Profiteers in the New England and Middle Atlantic states are already adding to the price of anthracite the increase of \$1.00 a ton authorized in the "Pinchot Pact" for the stoppage of the coal miners' strike and in some cases are taking all they can get. Even in Philadelphia almost within hail of the biggest anthracite mines in this country, the price has risen from \$1.00 to \$1.25 a ton.

WANTS

FOR RENT: 450 ACRE FARM, 12 horses under cultivation, one mile from Oak City. Eight room dwelling four tenant houses. Apply S. E. Hines, Oak City, N. C. 8-2881

FOR SALE A ONE HORSE MOWING machine, cheap for cash. For further particulars see or write J. O. Manning, Chief of police, Williamston, N. C. 9-21-41

Wanted — 100,000 pounds of scrap The Farmers' Warehouse, Williamston, N. C.

FOR SALE — STOVER gas engine on wheels, suitable for running peanut picker. First class shape, practically new. First reasonable offer gets it. I bought a tractor and don't need it. It is a bargain. Come and look it over. J. S. Whiteley, phone 171. 10-2-2f

WANTED — MAN WITH CAR to sell complete line high quality tires and tubes. A money making proposition for either full or part time. Exclusive territory. Sterlingworth Tire & Rubber Company, East Liverpool, Ohio. 10-1-21

The coal men's organization in Philadelphia justify the increase by quoting the terms of the "Pinchot Pact" and the findings of the Federal Coal commission. The advance in price says the coal exchange of that city was "obviously inevitable from the date of the Pinchot settlement of the strike." The federal Coal commission is also declared to have found that "it was utterly impossible" for the dealers to absorb an increase in the cost of mining anthracite.

Governor Pinchot, following the "pact" which he negotiated for the stoppage of the strike, urged the operators to "absorb" the increase of 60 cents a ton in the cost of producing anthracite. President Coolidge now suggests that the adjustment of prices is a local problem. The Federal Coal commission, after failing to prevent or stop the miners' strike, has gone into the discard.

But the profiteer is on the job and is taking a big toll.

Hall's Catarrh Medicine

Those who are in a "run-down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. **HALL'S CATARRH MEDICINE** is a Combined Treatment, both local and internal, and has been successful in the treatment of Catarrh for over forty years. Sold by all druggists.

"Clean out that strainer in your vacuum tank"

A CAR had just been towed in. It took the Fleet Boss only a moment, with his long practical experience, to find the trouble. Motor would gradually die down and stop. If they waited a minute it would run again, but only for a few seconds. Most every driver has to have it dug up once with dirt to know there is a vacuum tank strainer in his "gas" line. Experience locates the unusual things, as well as the obvious.

Long years of refining and study have shown us a thousand and one practical things about motor oils that couldn't be learned in any other way. You give your motor the benefit of it when you use Polarine regularly. The reasonably-priced, quality oil, developed by experience to meet all requirements.

Trust this live experience!

Say "Polarine" —not just "a quart of oil"
