

CHRISTMAS SEALS NOW ON SALE BY LOCAL COMMITTEE

Majority of Proceeds to Remain for Local Benefits

The Tuberculosis Seal sale campaign has been organized for the Christmas sale of 1933. Previously, all the money realized from the seal sale has been sent to the North Carolina Tuberculosis association to be used in a State and national campaign for teaching the public how to control and eradicate tuberculosis. This year, however, only twenty five per cent of the Williamston sale funds go to the North Carolina Tuberculosis association, while seventy five per cent is retained by the town for a local health crusade and for helping the needy ones in our midst who are victims of tuberculosis.

You, yourself, may be in perfect health, your child may be sound and healthy, but the person who sits next to you at the movies or the child who plays with your child at school may be suffering from this disease. You and your child are constantly subject to tuberculosis so long as you come in contact with those who carry its germs.

By liberally investing in Christmas seals and health bonds you protect yourself and dear ones and at the same time give a Christmas present to those in your community who need help in fighting tuberculosis.

Seventy five per cent of the more obtained through the sale of seals by the Williamston school children is to be retained by the school for the purpose of buying modern crusade health supplies and a scale for weighing the children.

It is to be hoped that every man, woman and child in Williamston will buy at least one dollar's worth of Christmas seals. A list of those investing a dollar or more in seals of health bonds will be published in The Enterprise with mention of the amount purchased.

Dr. W. E. Warren, county health officer, endorses this work and says:

"The selling of Christmas seals to provide a fund with which to fight tuberculosis is a splendid undertaking. Our community needs health education in the schools, nutritional classes, health publicity and exhibits, visiting nurse service in the home, clinics for examination of suspected cases and special service as emergency arises. The seal sale campaign provides just such a fund. Everybody should be eager to contribute to a cause so helpful to humanity."

Those in charge of the campaign are as follows:

- Chairman, Mrs. Luke Lamb.
Treasurer, Dr. P. B. Cone.
Publicity Chairman, Mrs. Elbert S. Peel.
Campaign Committee: Mrs. Wheeler Martin, Mrs. A. V. Joyner, Mrs. Clayton Moore, Mrs. P. B. Cone, Mrs. J. S. Rhodes, Mrs. J. G. Godard, Jr., Miss Vella Andrews.
The expenditure of the money collected will be in charge of the following committee: Mrs. Sallie Eiggs, Mrs. A. R. Dunning, Mrs. W. P. Warren and Mrs. John D. Eiggs.

All the Year Round

Texaco gasoline and Texaco motor oil stay the same winter as summer. There is no other oil that will do this and keep your car in a good shape as Texaco. Cold and snowy weather Texaco gasoline and Texaco motor oil stay the same. Everybody likes Texaco.—adv.

TOBACCO CO-OPERATIVE HAS MADE BIG INCREASE IN ITS MEMBERSHIP

2,241 New Members Added Since Opening of Market in South Carolina This Year

The following is a communication in part received from the Raleigh headquarters of the Tobacco Growers' Cooperative Association:

Your local will be glad to know that our association has welcomed 2,241 new members since we opened our markets in South Carolina last August. South Carolina leads with 822 new members, North Carolina is second with 719, while Virginia added 697 new members since August.

This steady increase in membership is good evidence that our association is going ahead. Many of these new members were among those who said "wait and see" last year, and they have since become convinced that there is no hope for a grower under the old dumping system.

Out in Kentucky they call all contract breakers "dumpers" — and say that it is the "dumpers" who break down tobacco prices.

Receipts of bright tobacco last week were 7,791,155 pounds, or more than a million pounds a day, with the crop movement not yet well under way in the old belt. Receipts this week will be swelled by much dark tobacco, all our markets having opened for dark and sun cured Virginia tobacco on November 20.

To give some idea of the volume of business done by our association, the finance department reports that on November 9, it paid out \$170,000 for first advances on tobacco delivered by members on one day, Thursday, November 8. On some days this amount is even larger than this sum.

This large figure for a single day's advance payments shows what a huge business we have created with nothing behind it except the pledged faith of our fellow tobacco growers, whose 93,000 signed contracts make it possible to cooperate for our own protection.

DOUBLE CHRISTENING IN THE FORD CAR FAMILY BRING TWO NEW NAMES

DETROIT, Mich., Nov. 22.—There has been a double christening in the Ford car family.

When the newest member, a smart sedan with two doors, arrived on the scene, announcement of which is just made, there came with it the question of a name.

For several days the folks just could not decide what to call the baby of the family until, from quite an unexpected source, there came the happy suggestion:

"Let's call it Tuder."

And Tuder it was christened, a name quite in keeping with the aristocratic appearance of the new car.

"How about re-naming the other sedan?" some one asked and then came this reply:

"We might call it the four door Ford or—Ah, that's it! Ford-or, Ford-or. Simple and expressive, isn't it?"

So we have two Ford cars with brand new names, the Tuder and the Ford-or.

Inspection of tires and rims frequently will prevent unnecessary trouble and annoyance, say Firestone service experts. Rim cuts and breaking of wire cables at the base of the tire may be avoided if proper inspection is made regularly.

Fashion notes says the "tight skirt is coming back." And in these days of prohibition at that.

SCHOOLS STRIVE FOR THE MERIT CERTIFICATES

The Highway Education Board to Award Institutions

WASHINGTON, Nov. 22.—One of the features distinguishing the third national safety campaign is the offer of certificates of merit to schools for conspicuous achievement during autumn months, according to announcement by the Highway Education Board.

Aside from the safety essay and safety lesson contests, open respectively to pupils and teachers, the certificates of merit are proving one of the most popular phases of the campaign.

The certificates are offered to any school, or to any class room making a satisfactory record in certain safety activities. They will be awarded on a point basis. Three hundred points out of a possible 450 will entitle the school or class room to an engraved certificate, properly inscribed, and suitable for framing, testifying to the school's interest and concern in safety education.

The board announces that descriptive literature giving conditions under which the certificates will be awarded will be sent upon request. If the entire eligible student body contributes essays on the subject "Highway Safety Habits I Should Learn" 100 points may be counted. If twenty five per cent of the pupils participate, twenty five points are counted; if more than twenty five per cent, one point for each additional per cent.

For twenty five per cent of teachers writing safety lessons on the subject "Training Children in Habits of Safety on the Highways" twenty five points will be given, and one point for each additional per cent.

The board announces that requests from schools or individuals for information on the campaign as a whole will have prompt attention. Its address is the Willard building, Washington, D. C.

NOTED PICTURE TO BE SHOWN AT WASHINGTON

The New Theatre at Washington will have the distinction of showing one of the best pictures ever produced: Wednesday and Thursday with a matinee Thursday afternoon—Mrs. Wallace Reid in "Human Wreckage." This picture has been the sensation of the day in all the bigger cities of this section for the past few weeks, and now has reached this section, and will be seen at the New Theatre at Washington.

The picture gives the life history of Wallace Reid, starring his widow, Mrs. Wallace Reid, and has educational features never before seen in the movies, combined with thrilling realities which Mr. Reid experienced in his remarkable career as a movie actor.

There is a lesson in this picture that should be seen by every man, woman and child in the country.

The Demand Is Here

Giving the customer what he wants is the surest way of pleasing him. When your car needs gas and oil, the surest way to take care of it is to use Texaco.

We believe Texaco motor oil and Texaco gasoline will give you more mileage per gallon than any other oil that you can use. It costs more, so why not use the best, for everybody likes Texaco.—adv.

"THE OLD NORTH STATE"

As soon as you get to North Carolina the roads and the towns get new.

The people walk with a brisker step. And even your motor has more pep. The hookworm's banished, the country has

A lot more energy, pep and jazz. The liveliest Northerner couldn't design a livelier state than North Carolina.

The farms look better, the hamlets ain't

Quite ignorant of the sight of paint. They're building roads, and they're not content

With sand and clay, but they use cement. And the schools look good, and the mills are busy

And each inhabitant owns a little. Or a big twin six or something finer. As soon as you get to North Carolina

This State's not dreaming of days gone by, There's a modern plint in each mortal's eye. And the village belles and the village beaux

Are as smartly dressed as the crowd which flows. On Gotham's streets, You must give 'em credit,

These folks are fully awake, you said it. You meet the "Boostah"; you loose the "Whinah,"

As soon as you get to North Carolina. Bertouss Braley.

SANDY RIDGE LOCAL NEWS

Miss Katie Cherry spent Saturday night with Miss Gladys Roberson.

Miss Sue Asby entertained a number of friends Saturday night to a sugar stew.

Miss Maggie Wooten spent the week end with her parents.

Miss Marjorie Jones spent Saturday night with Miss Marie Riddick.

Miss Bessie Green spent the week end with Miss Nealie Jones.

Misses Helen and Dora Bennett and Messrs. Leon Williams and Bonnie Leggett were sightseers over the good roads Sunday afternoon.

Mrs. John Jones spent Sunday with Mrs. N. S. Cherry.

Mrs. S. C. Hardison spent Sunday afternoon with Mrs. N. S. Cherry.

OVETTE NOVELTY CO. TO BE AT THE STRAND THEATRE NEXT WEEK

Williamston will be visited by a company of artists, who will appear at the Strand theatre next Wednesday and Thursday, by the Ovette Novelty Company, presenting a class of slow seldom seen on the road, owing to the variety of acts.

The company consists of dancers, comedians, jugglers, a crystal reader, and other features, that are seldom seen combined in one company.

The Ovette Novelty Company will be here two nights, Wednesday and Thursday, November 28th and 29th, giving a change of program each of these nights.

TYSON REUNION ASSOCIATION

The fourth annual reunion of the Tyson families and the descendants, will be held at Tyson's church, three miles east of Farmville, N. C., Thanksgiving day, November 29, 1923.

The Chilean government is considering a proposal to establish commercial aviation in that country.

FEDERAL AGENTS IN THIS SECTION ARE NOW ALERT

Combing Eastern Section of Country to Abolish Liquor

WASHINGTON, Nov. 22.—The entire eastern section of the country is being combed by federal agents in an effort to stamp out liquor smuggling and marketing.

The conspiracy is described as "one of the most gigantic combinations known" whether legal or illegal. Working on clues obtained by the Savannah grand jury which indicted a hundred and twenty six persons for alleged violation of the prohibition laws, the agents, according to Chief Duns of the bureau of investigation of the department of justice, have worked before them that is expected to provide sensational results.

HIGHWAYS CREATE AND EXTEND PATRIOTISM

Need of National Roads Seen in New Memorial

The George Washington Masonic memorial, being erected to Washington the Mason, by the Master Masons of the United States, on Shooter's Hill, just outside the city of Alexandria, Virginia, and half way between the city which bears the first president's name and the tomb in which his remains lie at rest, is not upon a national road.

The home and tomb of Washington, at Mt. Vernon, is not reached anywhere by a national road.

There must inevitably come a time when this nation will rise in revolt against a penurious policy which leaves to a patriotic order of devoted women the care and preservation of the priceless relics of Washington, which are in his estate, and make of Mt. Vernon what it ought to be, a government charge and care. The Masonic fraternity has already provided for a monumental resting place for the Masonic relics of George Washington. But will we always leave to Virginia the making, the repairing, and the preservation of the roads movement, although she has made vast strides in recent years. The road from Washington to the temple and from Alexandria to Mt. Vernon is a good road, but it should be the work of the United States government to see that so important a road is perfect. In this is seen another among many arguments, as to why this great nation should itself build and forever maintain the backbone roads which connect these three will serve all the people all the time.

SEEK AMENDMENT TO PREVENT EMPLOYMENT OF LABOR OF CHILDREN

WASHINGTON, Nov. 21.—Decision to have introduced in congress this winter an amendment to the constitution prohibiting child labor was reached at a meeting here of 25 organizations of men and women, comprising the permanent conference for the abolition of child labor.

Samuel Gompers, president of the America Federation of Labor, presided at the meeting and declared "there is no question that should appeal to the hearts and minds of the people of our country like that of protecting children from exploitation."

ASKS PUBLIC TO AID IN CHRISTMAS MAILS

Cooperation in Mailing of Christmas Gifts Is Requested By the Department

WASHINGTON, Nov. 22.—Cooperation in mailing Christmas gifts is being sought by the postoffice department. Here are a few suggestions of John H. Bartlett, first assistant postmaster general.

Mail early. Prepay postage fully on all letters.

Address all matter plainly and completely, giving street address whenever possible.

Place sender's name and address in upper left corner of address side.

Pack articles carefully in strong, durable containers.

Wrap parcels securely but do not seal them except when bearing a printed label or indorsement reading: "Contents: Merchandise—Fourth Class Mail. Postmaster: This parcel may be opened for postal inspection if necessary," as sealed parcels not so labeled or indorsed are subject to postage at the letter rate.

Parcels may be marked: "Do not open until Christmas."

Incure valuable parcels. Do not enclose letters with parcels, as doing so would subject entire parcels to letter postage.

Written greetings such as "Merry Christmas," "Happy New Year," "With Best Wishes," and names, numbers, or symbols for the purpose of description may be enclosed with all fourth class (parcel post) mail. Books may bear simple dedicatory inscriptions not of a personal nature. Other written additions subject parcels to letter postage. Communications prepaid at the first class rate may be sent with parcels prepaid at the fourth class rate by securely attaching the envelopes containing the letters or other written matter to outside of parcels.

CAKE WALK AT BEAR GRASS WEDNESDAY NIGHT

There will be a cake walk and a box party at Bear Grass school on Wednesday night, November 28th.

Have you ever seen a real cake walk? If not, come to Bear Grass Wednesday night and take part in one worth while.

Everybody is invited to come to Bear Grass school house, Wednesday night, November 28th.

Dr. Charles H. Mayo, of Rochester, Minnesota, says, "It can almost be said with certainty that the average man can live five years longer than he does now. If he would present himself at every birthday for a thorough medical and dental inspection after he reaches the age of forty, he could maintain a state of health that would defy the incursions of disease, bacteria. Dilations of the heart, dilation of different organs, cancers, tumors, and so on, can be nipped in the bud. There is too great a tendency to think that people past the age of sixty merely vegetate, waiting for death. Some way will be found to keep them vigorous."

Union Thanksgiving services will be held by several of the Williamston churches at the Memorial Baptist church on Thursday, November 29th.

For a number of years it has been a custom with the Methodist, Baptist, and Christian churches to hold a union Thanksgiving service and to dedicate the offerings to various orphan homes. The Thanksgiving sermon will be preached by A. J. Manning.

COME TO WILLIAMSTON

The bureau of standards at Washington says aluminum paint applied to the under side of an automobile top will greatly reduce the amount of heat absorbed from the sun and radiated on the under side. The temperature inside the car will be more nearly that found in natural shade, as under a tree.

McBRAYER HOLDS OFFICE TO RULING SUPREME COURT

Attorney General Gives Opinion in Favor of Sanatorium Head

RALEIGH, Nov. 21.—Until the supreme court gets a case before it all appearances tonight are that Superintendent L. B. McBrayer will swing on to what he has at Sanatorium.

Attorney General Manning's opinion is the law until the court speaks and he rules informally today that Dr. McBrayer has his office by right of election. This opinion given to Chairman T. W. M. Long and U. L. Spence, both in town today, settles the affair until there is a case.

This complete disagreement with Governor Morrison's position is not the solitary thing on which the folks here today predicted a contest with Governor Morrison. It is the very general opinion of lawyers that the Manning view is the legal one.

In explaining Dr. McBrayer's present status, Attorney General Manning said that it is the same as that of a defendant convicted on any other criminal charge who has appealed to the supreme court. He made a comparison: "If a man is convicted of murder and sentenced to be electrocuted and if he appeals to the supreme court you can not go ahead and have the execution before the case is heard by the supreme court," said the attorney general. "It is the same in Dr. McBrayer's case. He pleaded guilty to his charge and was sentenced to pay a fine and vacate his office. He appealed and furnished bond and under the law he holds his position just as he did before until the supreme court rules on his appeal."

LAND SINKS IN A CURIOUS MANNER

Land Disappeared and Forty Feet of Water Appeared in Its Place

A curious event happened about a week ago near Piney Neck. Southwest of Vanceboro, on the farm of Kit Wills, when a large plot of ground about 30 yards in diameter, and circular formation, sunk about 50 feet below the surface. Forty feet of water is in the centre of what is now a bowl shaped well and when Mr. Wills put down an iron rod to test the depth, the iron went down to bed rock, the depth of the water.

About two years ago a similar piece of ground near by the present one sunk in the same way, which would indicate that there must be some subterranean river beneath that section. The fact that no matter how heavy the rainfall might be the holes never fill up, the water running away from some unseen passage.

Mr. Willis is at a loss to account for the two sink holes. There is no stream of water near, although a swamp is close by — so that there must be some underground passage or body of water which is the cause of the land sinking. — Washington Daily News.
