ened and it is imperative that as much cotton be made as early as possible, as there probably will not be any late or top crop.

"All of our soils need nitrogen in fairly large amounts to produce week enough to make a good crop of cotton. If all of the nitrogen is put on before the crop is planted, it is possible under certain growing seasons to make too much weed at the expense of the fruiting. Also the nitrogen may give out before the crop has stopped fruiting; causing a decrease in yield. It is, wherefore, a good practice to put on a top dresser after the crop is up and growing.

"When this is done, the plant has shorter period of time in which to use it. and it is therefore necessary that the top dresser be quickly available to the plant. For this reason materi als like nitrate of soda, sulphate of

being called, that against David O' She was taken to her home, and on Saturday evening the funeral was held at the residence by Rev. A. J. Manning, and she was buried at the Short Graveyard, near Holly Springs, by the ees.

side of many sleeping relatives. She was the daughter of the late Joseph A. Manning and wife, Nannie, and was 27 years old. While young she married A. W. Hardison, who with four small children, he old est only 8 years old, survive. Also her mother, four brothers and two sisters.

She was loved for her gentle and kind spirit by all who knew her, as was attested by the garland of flowers placed around her grave.

-0-ammonia, or other quickly available compounds are recommended "It is also recommended that a top resser be used in order that the crop may be cultivated to kill grass before too much nitrogen has been added, stimulating the early growth of the Burras, and J. N. Hopkins. grass as well as the cotton. When a top dresser is used, enough phosphates should be applied before the crop is planted in order that the plant may set

a large amount of fruit early, maturing it at an earlier date than was thought necessary before boll weevil tim "On light, sandy soils, when the rains are heavy, it might be necessary to put on a second top dressing. If the top dresser is put on now, and it

is recommended that this be done, in case of rains another application may be applied with fairly good results. "Most farmers d. not use enough nitrogen for the best results. It is therefore recommended that where 600 to 800 pounds of a fertilizer like an 8-3-3 has been added, that a side dress ing of from 100 to 150 pounds of ni trate of sods or sulphate of ammonia be applied to furnish nitrogen enough for maximum crops. Apply now."

He had been confined to his hotel room and plans had been made for his return to his home in Indianapolis some ime this week. Death resulted from a recurrence of heart attack. Tentative plans were made today for the burial at Marion, When the end came the former vice president was sitting up in bed reading from the Bible. Only the nurse was at his bedside. Suddenly slumping down upon the pillows he passed away without a word and apparently without pain.

W. L. Johnson Dies At Home In Robersonville

f the church The VESTRY and RECTOR **To Build Swimming**

Pool At Rawls Mill

Mr. Simon Lilley has recently purchased the Rawls Mill site, where he contemplates building a summer resort. Assisted by some of the Boy Scouts he began work last week and ensiderable improvement is noticed already. An ideal swimming pool will be fixed about 100 yards from the highway and before very long he will ave completed arrangements for bathing.

Mr. Lilley will not be able to com-. plete the resort that he has in mind this summer, and it will probably be 1926 before he gets it completed, so he told the Enterprise this morning. The old house will be rebuilt and a

modern tea room and pavilion will be added to it.

Midway Filling Station Ready For Business

The last word in filling stations has just been opened up for business in Williamston. The Midway station, owned and operated by Frank Hitch on Main Street next to the Tar Heel Apartments and near the Atlantic Hotel was completed and formally opened last Thursday.

Standard and Texaco, products are old, and a large storage room at one side a mammoth highway map at a convenient angle for tourists and a track for greasing cars make the Midway one of the most up to date staions to be found.

In Wilson This Week Mrs. Carrie Biggs Williams and Mr. Harry A. Biggs will leave this aft noon for Wilson, where they will at-tend the State reasion of the Con-federate veterans , which will take piace in that city this week.
