HOW DOES YOUR HOME APPEAR TO TRAVELERS

The Progressive Farmer of May 22 contains a suggestion that farmers living on the highways beautify their places in order to make a pleasant impression on passers-by.

This is a most timely suggestion. Martin County and Williamston will be judged by what is seen from the highways. If we have attractive farms and painted buildings many worth-while travelers will wish to live in Martin County. The whole world is now looking to the South. What are you doing to induce people to come here and live?

Why can't all the old tumble-down outbuildings be torn down and new ones put up? Why not put on a coat of paint and make the house and outbuildings show up well? Think this over.

THE NEW SOUTH

The Review of Reviews has recently published a series of articles on the New South that really appeal to the pride of the true Southerner. "America Discovers Dixie," by Clarence Poe, and "The South's Resources," by Richard H. Edmond, are two recently published.

The magazine presents a world of study in the advantages and progress of the South.

Upon first thought, we imagine ourselves very great. We think of our skyscrapers, our fine roads, our wide fields, and great forests and imagine ourselves rich. Of these we should be proud. Yet some of the articles treated in the New South write-ups, touch on even greater problems than big figures.

They touch common life; they deal with the facts nearest to us; that as often as three times a day all human beings are calling for food, the thing that sustains life. When we are full we think of big things. Yet only a few hours after we again hunt the kitchen that we may again pursue the ways of life. So some of the things shown are the better and easier ways of life.

They show the youth being taught

to utilize the great things that nature has placed at his disposal. Climate, soil, drainage, which so abundantly produces food of every needed kind and all things necessary for clothing and shelter.

The way to better homes, better living conditions, and better education is near at hand in the Southland, and it is the teaching of the youth individually the fundamentals of life that is counting in the South, even as much as the great factories and commercial resources.

The South raised enough cotton last year, if the bales had been placed together, end to end, to make five bridges across the Atlantic Ocean from New York to Liverpool.

Yet that did not make us prosperous; neither did it make us great. A better use of the cotton by the South will count more than a big crop if material progress is the base of greatness.

When we change wastefulness into economic methods, the papers will truly have much more to say about the new South and its prosperity.

WOMEN AND CIGARETS

We ask no apology for copying an article by Ernest Crutcher, M. D., on "Women and Cigarettes," which appeared in the last number of the New Age Magazine.

While some people may look at it lightly, it is well worth the consideration of all people.

There are some people who apparently rush to their own destruction and then are foolish enough to boast about their privileges to do so.

If this magazine article keeps only one girl from being foolish enough to fall into the smoking habit, it will be worth many times its cost.

The article follows:
Judas gained everlasting infamy by selling an individual. Cigarette manufacturers are "selling" the womanhood of America, as far as propaganda can effect such seduction.

Why is it unwholesome for a woman to smoke? There are scientific reasons why it is more hurtful to a woman than to a man, especially to a

young or immature girl. For old women who have ceased to think and find time hangs heavy upon their hands, a pipe may be excusable—sometimes—and if used out near the born or in the chimney corner of a hovel. "Of course a woman has as much right to smoke as a man," said David Starr Jordan, "but when she begins, I take her name off my visiting list."

"When a young man begins to smoke cigarettes, we no longer worry over his future. He has none."

"It is the cigarette smoker who flunks out of school," said an old teacher.

"The General" Emulated

Is it not amusing to see how strong the power of suggestion in observing the numerous simpletons who have adopted an inverted pipe, since the portrait of a prominent man has been so extensively advertised by tobaccoists.

What is more beautiful than a modest, womanly girl—one free from the affectation of vulgarity—a soft-voiced woman, one without barbaric stripe of "pumpkin" hue, slathered over with superabundant starch, often put on in public, at a cafe or restaurant, table or even in the open street?

Why is it hurtful to a woman to smoke? Because it impairs her fertility and capability for motherhood. Because it is ruinous to her features, provoking premature old-age looks, sharpening facial lines, causes sagging of the flesh below the eyes and about the mouth, flabby breasts, invites irregularities, bad breath, poor appetite, and general early breakdown. Why?

Harmful Effect Seen

The thyroid and thymus glands are especially important. "The first has charge of the skin and hair, and often is enlarged; called goiter. Tobacco is very hurtful to these two glands. It hinders the action of these, though stimulating that of the suprarenal glands, which, aided by another glandular substance, invites a hairy growth on the faces of women but prevents growth of whiskers in a boy. A strange paradox, easily explained, but not germane to this article. Young cigarette smokers never mature into manhood or pretty womanhood because of the evil effects of tobacco upon their ductless glands.

Your body is your engine. You wish efficiency, out of your engine? Then put into it only clean fuel (foods) pure liquids, and oils. Treat it as you would a fine automobile. Keep it clean and not smoked up, soiled, or in ill repair.

A clown is usually a bright man who apes a fool to make fools laugh. It is odd that some bright, pretty girls ape simpletons, unaware of the smiles or derision and secret scorn of sensible folks. Only a shallow man can admire a smoking girl. To a sensible man she is suspicious.

I write as a friend. Only a foolish, reckless woman will use cigarettes,

(Political Advertising) TO THE DEMOCRATIC VOTERS OF MARTIN COUNTY

My attention has been called by my friends to certain insidious and underhanded propaganda now being circulated against me by men I thought would never stoop to such vicious and deceitful means of conducting a campaign.

The propaganda is to the effect that I am the candidate of a certain man in Williamston and that if elected I will be under his influence. I hereby and now denounce this propaganda as a vicious falsehood. I am an independent candidate for the office of the clerk of the court and am under no obligations to any man or set of men, and if nominated and elected I shall administer the duties of the office without fear, without prejudice, without favor and with courtesy to all. I stand for a just and impartial enforcement of the law and will conduct the affairs of the office of the clerk of court so as to reestablish the faith of the people of North Carolina in Martin County as a law-abiding county of high moral ideals.

Yours very truly,
W. H. CRAWFORD.

SICK HEADACHE

No Pleasure, Says Ohio Lady, to Go Places, Till She Took Black-Draught Which Brought Relief.

Lansville, Ohio.—"For years and years I suffered with severe headache," says Mrs. Jane Campbell, of this place. "It wasn't any pleasure for me to go places, for I came home with sick headaches. If I went to church or to any social gathering or to town to shop, when I got back I would have these headaches and have to go to bed for a day or more, till I would just get out of heart and would not try to go."

"About 15 years ago I discovered that Black-Draught was good for these headaches. I began using it. I would take it two or three nights in succession if I felt the least bad, and it sure did wonders for me. It is about 14 years since I had sick headaches, and I can go places and really enjoy life. It surely is splendid."

Headache often is a symptom of constipation. The best relief is secured by treating the cause of the trouble and in such a case many people have been greatly helped by the use of Theodor's Black-Draught.

The BULL'S EYE

Editor and General Manager WILL ROGERS

Author of "Bull" Durham advertisement by Will Rogers, Black-Draught and more star and tender. Amate his humor. More coming. Watch for them.

No Governorship For Mine

My good old friend the Governor of Oklahoma was in to see me at the theatre the other night. I had just had humorous mention as a candidate for that position, as they wanted to revive the Populist Party with me as the Standard Bearer.

Well, the Governor showed me what had happened to a friend of his who had been defeated for Governor in our state, so he discouraged me. I won't accuse him of doing it purposely, but he did. His friend's campaign expenditures were as follows:

"I kissed 6,000 babies; helped 42 voters thrash wheat; shook hands with the entire State; smoked 3,000 sacks of 'Bull' Durham; cut 22 cords of wood; helped brand 8,000 calves; spayed 4,000 of them; was sprinkled 8 times in Methodist Churches; totally immersed in cold water in muddy creeks three times by the Baptist; went to confession in every Catholic Town; paid dues to 11 Synagogues; charter member of the Holy-Rollers; listened to 800 get-together Kiwanis, Lions, and Rotary speeches; bought sheet and pillow-slip in every Ku Klux Klan in the State; and then I was defeated."

"Bull" Durham was my sole satisfaction not only during, but after election. It is the only thing that stayed with me."

P.S. There will be another piece in this paper soon. Look for it.
