ROBERSONVILLE PARENT-TEACHERS' FIRST MEETING

Robersonville, Sept. 23.—(Special to The Enterprise).—The first meeting of the parents-teachers association for this year was held at the school auditorium Thursday evening at 8 o'clock. The attendance was not so large; nevertheless, a fine spirit was manifested, and the outlook is bright for making this the red-letter year in the history of our association. After perpetuating our organization from the point of officers and committees, the president addressed the parents and teachers on the subject, "The Parent-Teacher Association." The president emphasized:

1. Its Importance
 However obscure the version of one may be, it is unthinkable that it should be so obscure as to be unable to see the importance of such an organization. It is verily the heart, furnishing life and growth, and at the same time, the security of our public schools.

2. Its Ideal
 "The child is in the midst," and while it is true that the vision is focused on the child and the child's welfare, it can be no true vision until it widens to see the home and the community aiding in the promotion of the child's welfare, or otherwise hindering the child. Thus, the parent-teacher association aids in removing or overcoming these difficulties, slowly yet surely.

3. A Better Understanding
 A better understanding between the parent and teacher certainly is important. Think of a child going to school and father and mother unconcerned to the extent that they do not know the teacher who taught their child. There is no excuse for it, so get acquainted.

1. With the child and the child's problems;
2. With the home problems, and you

will have gone a long way towards solving the

3. Teacher's problems; that is to say, that a better understanding between parent and teacher of such problems will certainly aid both in finding a solution for such problems. Thus we defend our school and at the same time aid the school in promoting education.

Education requires:
 E ffort.
 D irection.
 U nity.
 C ooperation.
 A im
 T ime.
 I nterest.
 O bedience to the laws of teaching.
 N o lazy spirit.

Give, work, win. Such resources we all have and through cooperative effort we can hope and feel reasonably sure that we shall reach, the good toward which we are moving.

PALE & PEAKED

Texas Lady Was Advised by Her Mother To Take Cardui, Which She Did With Good Results.

Hamilton, Texas.—Mrs. Gladys Postvitz, of this city, says: "At times I suffered awfully with pains across my back and through my sides. I would have to go to bed and stay two or three days at a time. It was very worrisome. I managed to keep going, but . . . did not enjoy myself at all."

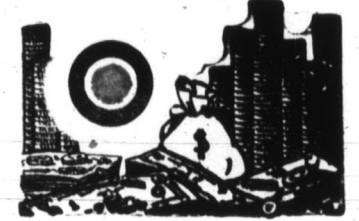

"One day my mother remarked on how bad I looked. She said: 'You look so pale and peaked, why don't you take a bottle of Cardui?' She had taken it herself a number of times, and it had always improved her health, so she thought I had better try it."

"I got the Cardui and began taking it, and from the first dose or two I could see a change for the better. The first thing I noticed was that my appetite was improved. I began to be hungry and I enjoyed my meals. I slept better at night. My rest was so much quieter that I got the benefit from it. I kept on with the Cardui and took it for several months. The pains in my back and sides grew less until they finally quit bothering me."

Try Cardui for your case.
