Hardison, Ralph Davenport, David Modlin, Onward Gaylord, Carl and James Brown at the North Carolina State College at Raleigh; Ralph Hardison, at Duke University, Durham; and Howard Gaylord, at Wake Forest College, Wake Forest.

### CHEVROLET CO. SETS NEW MARK

**Complete Millionth Car of 1928 Last Tuesday Afternoon**

Further entrenching itself in its position as the world's foremost automobile producer, the Chevrolet Motor Co. last week reached a new milestone in its manufacturing history. With production and sales continuing at a record September clip, the millionth car of 1928 came off the assembly line at Flint last Tuesday afternoon.

Due to the high September production schedule necessary to meet an unusually heavy fall demand, no formal ceremonies marked the occasion, although W. S. Knudsen, president of the Chevrolet Motor Co., R. H. Grant,

Fever Due to Malaria  
It Kills The Germs

vice president in charge of sales, C. F. Barth, vice president in charge of manufacturing, and other Chevrolet officials were present.

The record-making car was a coach, one of the most popular models in the line. It was a standard model in every respect. Like hundreds of thousands of Chevrolet coaches it was finished in avenue green Duco, with Tartan tan wheels, black beading, and striping in gold.

After a brief informal ceremony the millionth car passed through the usual channels of distribution and was shipped a few hours after it came off the line to a dealer in the middle west.

An idea can be grasped of the immensity of the task of building 1,000,000 cars in less than eight months when it is borne in mind that to achieve this record it was necessary that a Chevrolet be built approximately every 10 seconds of every working day. Computing on the basis that there are 25 working days a month, it means that

1,000,000 cars were built in a little more than 200 working days.

Mr. Knudsen pointed out that the building of 1,000,000 cars since January 1 would not have been possible without strict adherence to precision methods. "Chevrolet knows that inaccuracies in manufacture and assembly slow down the line with a consequent lowering of output and increase of cost," Mr. Knudsen said. "In Chevrolet's scheme of volume production the highest standards of quality and accuracy must be maintained in order that costly delays in production caused by breakage and poorly fitting parts may be avoided."

The sensation production of 1,000,000 cars in less than eight months reflects the remarkable public acceptance accorded the "Bigger and Better" model since its introduction January 1, proached by any other manufacturer. Never in the history of the automobile business has this record been approached by any other manufacturer.

## Expectations!

Every day we strive to live up to your expectations of a what a progressive bank should be.

We always try to be constructive and helpful and to make you feel at home here.

Your own success can be registered daily through additions to your account.

## For Sale or Rent

344.48 acres, known as J. Lass Wynne Farm, a part of old Ballard Farm, and lying about 7 1-2 miles from Williamston. Price, \$8,900.00, on good terms. This farm must be sold or contracted for within next two or three weeks, or we shall have to reft it for 1929.

One 4-room house, the other buildings are poor and consist of 1 tobacco barn, one old log barn, and one packhouse. This is an excellent tobacco and cotton farm and is the best of the old Ballard farm. It is a real bargain at the price, regardless of the fact that buildings are insufficient. We will help right man build if he so desires.
