

APRIL 22 **CLEAN UP! PAINT UP!** APRIL 27

Says your **Hardware Man**

"We are eager to be of assistance to you in carrying out the spirit of this Clean Up, Paint Up and Fix Up Campaign. A hardware store prides itself on the variety of its stock—things which make your work both possible and economically easy. Itemize your Spring needs and we will show you the very latest in everything."

Clean Up and Paint Up

Get in Step!

How wonderful it is that we, of this country, have been so universally responsive to the basic idea—and the civic idealism—back of the CLEAN UP-PAINT UP movement. Starting modestly enough, it has swept ever onward to complete success. Very few, indeed, there are, in America who do not "fall into line" in this procession of progress. The most humble can help. Everybody is needed and everybody can do an important share. The "DESIRE TO DO" is the first requisite—from the little home mother, who prims up her home garden, to the father who rolls up his sleeves and patches that broken fence. And the children, bless them, are equally enthusiastic. America will be, inevitably, the "Land of Beauty—of Beautiful Homes" as a direct result.

ARE YOU HANKERING FOR A HOME OF YOUR OWN

Most young married couples build dream castles—and look fondly forward to the day when they will have a cozy comfy cottage all their own—that they can call "Our Home."

We can help you make your dream come true—to build a small home with as much beauty as more pretentious ones of high cost.

Home Builders Are Asking for Good Material—Asking Louder Each Day

WILLIAMSTON SUPPLY COMPANY
Williamston, N. C.

*PRETTY
aren't they*

BRIGHT new awnings add so much to the appearance of any home. They lend that touch of extra finish and color which is highly distinctive. But styles in awnings change every few years. Patterns come in modern new shades and designs. Before you put your old awnings up this season, look them over, and if they are faded, shabby, worn, etc., replace them with new ones.

**HARRISON BROTHERS
DEPARTMENT STORE**

Clean Up and Paint Up

MAKE YOUR HOME SPIC AND SPAN!

We carry a full line of everything for making the home spic and span!

Brooms, mops, cleansers, soaps—and everything at the lowest in town prices.

NEGLECT TOUCHED OFF THAT FLAME

Tragedy! You stand and watch the dear home crackling to ruins. With it have gone more than material things—memories and old loves.

Now that Spring is here, fish out all the forgotten, stuffed away refuse, trash, bits of paper, etc.

And then fight the consequences of fire—take out a fire insurance policy and be doubly safe.

JOHN E. POPE

Williamston, North Carolina

There won't be a leaky pipe in the place when I get thru

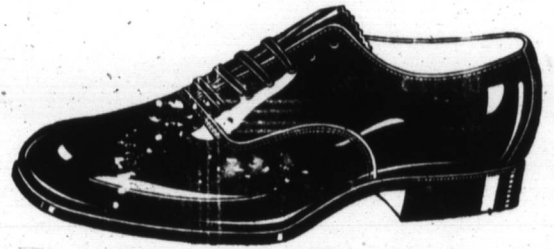

says your PLUMBER

CALL in one of our plumbers at this season of the year. His sharp eyes will detect small jobs which should be attended to and which might easily grow into expensive jobs if neglected. Have him look the kitchen over from top to bottom. Tell him to fuss around the cellar and see if all is well. Wherever there are pipes and plumbing, time takes an inevitable toll. And so often you can't see that a break is about to take place—until it happens, with attendant discomfort.

Clean Up and Paint Up

SAYS YOUR SHOE MERCHANT—

"Personal neatness is an essential part of this Clean Up and Paint Up program. People as well as homes must be neatly groomed. Many of us are apt to forget the fact that a rusty pair of shoes spoils the looks of everything else about our wardrobe. New shoes, kept shined, constitute a personal obligation, closely affiliated with civic pride. Isn't it about time you had a pair of new shoes?"

Everybody Knows—

MARGOLIS BROTHERS

For Better Clothes

When you clean up, paint up, and fix up, and repair, get our prices before buying your lumber and building supplies. We sell materials that will give lasting results.

Clean Up and Paint Up

SAYS YOUR HOME FURNISHER—

We, too, can be of practical help to you in the splendid campaign which is doing so much for the town and its homes and home life. Many homes are a bit neglected.

Neglected furniture makes an entire room look untidy, ill-kept—a rickety leg on a table or chair, fabrics ripped, worn, spotted, or discolored. We can either repair the articles or furnish new ones very reasonably. During this campaign, don't neglect the furnishings of your home

B. S. COURTNEY
