

Now is the Time!

Texaco Stations have the equipment—Texaco men have the experience and the time to give you a prompt draining and thorough greasing job.

Your engine needs fresh, full-bodied motor oil. Drain out the old. Don't drive this Spring with "winter-worn" oil in the crankcase. Diluted, thinned out by the choke, it no longer has sufficient body to lubricate fully . . . to protect the pistons, the cylinder walls and the bearings.

Stop at the Texaco Red Star with the Green T. Ten minutes at most and you are on your way, crankcase drained, flushed and refilled with full-bodied, heat-resisting Texaco Golden Motor Oil, clean, clear, *pure*.

TEXACO GOLDEN MOTOR OIL

Fast Drivers Give Oil Its Hardest Test Oil which lasts longest at high speed lubricates best at any speed

YOU WILL FIND THAT TEXACO GOLDEN MOTOR OIL LASTS LONGER AT HIGH SPEEDS. THIS EXPLAINS WHY TEXACO KEEPS THE FIRST-YEAR FEEL IN YOUR ENGINE

Modern roads—higher speed limits—modern engines—have made fast drivers of us all. And probably you've noticed that oil consumes most rapidly when the pace is swift.

Our assurance is that Texaco Motor Oil will stand up better and last longer under high speed than any other oil you can buy.

We believe that, with draining and refilling at the regular intervals, and with reasonable care of your car, Texaco will keep

the first-year feel in your new engine for at least 30,000 miles. Actually, our tests have shown that Texaco has preserved the first-year feel in many engines for more than twice this distance.

Texaco Golden Motor Oil can save your good engine from growing old before its time. It can bring new pleasures to your miles of spring and summer driving, and new economies in oil consumption and engine repairs. Texaco is made by one of the oldest and largest companies in the oil business.

Now Is The Time

Texaco complete lubrication service takes but a short time; our men are experts—thorough and quick—and our prices are based on a fair and uniform scale.

New or old, your car deserves this attention at least every 500 miles.

This Is the Starting Point

—When you want a crankcase full of full-bodied, heat-resisting Texaco Golden Motor Oil—prevents wear because it holds its body. The film of Texaco between bearing surfaces is maintained, and Texaco will stand any oil test—a perfect lubricant, winter and summer.

It's Time to Change

Spring is here. Your engine needs fresh, full-bodied motor oil. Don't drive this spring with "winter-worn" oil in the crankcase. Diluted, thinned out by the choke, it no longer has sufficient body to lubricate fully. Drive in today, have your crankcase drained, flushed, and refilled with full-bodied, heat-resisting Texaco Golden Motor Oil.
