

They know their business

... and willing, efficient service is a part of every Texaco man's business, whether you pull in for gasoline, oil and a greasing job or just air for your tires.

He elected to sell Texaco Golden Motor Oil because experience has taught him that it is a superior motor oil. It is specially refined from selected crudes. Its clear, golden color is proof of its purity. Its full body gives definite assurance of clean, efficient lubrication at any speed, at any temperature.

Today—stop where you see the Texaco Red Star with the Green T. You'll like the service. Your car will appreciate the oil.

That new car of yours

The first time you need a quart of oil—drain the crankcase. Fill with Texaco Golden Motor Oil and work the oil other kind in the engine. See that the oil gauge is always at the proper level. Keep plenty of water in the radiator at all times.

With these few precautions your engine will deliver the full mileage and years of service its manufacturer intended.

An automobile dealer will tell you that Texaco Golden Motor Oil is "the best" oil. It has the body to stand the strain of summer driving and the ability to flow in steady no winter, coldest day.

Clean as it looks, full-bodied as it feels, Texaco Golden Motor Oil is the finest of lubricants—and it pays! Supply enough for the cost of a car license.

Miles of Smiles with TEXACO

Mr. Syburb: (to traffic officer who was about to hand him a ticket) "Here's a note for you, officer." GEO. AND GUS SAY: "Smiling service is something like sunshine—it makes the day seem brighter. Some folks don't consider it out of their way to go to Texaco Stations—even when it is!"
