NERVOUS, WEAK

Texas Lady Says She Was Up One Day and Down the Next. Pains Stopped After She Took Cardui.

"Terrell, Texas.—I was run-down and nervous, and for several months my health had not been good," says Mrs. Louis Wieland, of this place. "I was up one day and down the next. I never felt like doing anything."

"I worried all the time, and could not sleep well at night. Periodically I would suffer from pains in my back and sides. I would have awful headaches, and would feel dull and dazy."

"My sister had taken Cardui, and she persuaded me to try it. She said to me one day: 'If you will only try it, you will see for yourself how much good it will do you.' So I got a bottle of Cardui and began to take it. It was not long until I felt fine. I got stronger, and my nerves did not bother me any more."

"The pains stopped coming in my back, and I could do my work without any trouble. I think Cardui is a fine medicine."

The fact that so many women have been helped, in their efforts to build up their health, by taking Cardui, should encourage you to try this well-known medicine. A purely vegetable, medicinal tonic. For sale by all druggists. **NC-208**
