**A Task for "School Facts"**

We are getting sick and tired of so much bragging about what fine schools we have, when more land is being sold for school taxes than has been sold in a century before. And we are dragging up a generation less able to cope with the hardships of life and to move society upward than we have produced since the Civil War.

What "School Facts" needs to do is to tell us how to get back to earth again.

**Government Tobacco Grader Needed**

Williamston needs a Government tobacco grader for the year 1930.

The farmer suffers under the present sales method, where each pile of tobacco is graded and sold in about 12 seconds. Often a pile is sold much higher than its true class, but more often it is sold for much lower than its class should bring, because the buyer is always trying to guess on the safe side.

The Smithfield Government graded tobacco sold, for the week end November 25, for an average of \$23.97, while that sold in the usual manner of auction sales, on the same market, sold for \$19.49, or \$4.48 lower than the graded. For the week ending November 29, the graded tobacco averaged \$23.03, while the un-

**BLACK DRAUGHT**

Constipation Troubled Alabama Lady Until She Had Taken Black-Draught, Then Felt Fine.

Flomona, Ala.—"For two years I suffered with pains in my back and head," writes Mrs. J. E. Sloan, 819 Park Street, this city.

"I felt dull all the time, and was not able to do anything.

"I was constipated most of the time. My complexion was bad and I had no appetite.

"An old lady advised my father to give me Black-Draught. As quick as I took him, he got it for me. I felt Black-Draught three times a day for three weeks, and I began to feel like a different person. I developed a good appetite; the pains left my system, and I felt fine.

"I thought my trouble came from indigestion, and as soon as the pains were removed, I got all right.

"Since that time, I have tried to keep a box of Black-Draught in the house, as I find it corrects biliousness and relieves sick headaches. It is our family medicine.

Constipation does up poles of the bowels, causing their bad effects to be felt in other parts of the body.

At the first sign of constipation, take Black-Draught.

Only one I cost a dime. W.C.111

graded only brought \$19.23, or \$3.80 lower than that which had been graded.

Since the farmer has to pay 5 cents per hundred pounds for grading the net gain for the first week mentioned above was \$4.43, and for the second week \$3.75 per hundred.

On the South Hill, Va., market, for the same two weeks, the Government graded tobacco sold \$1.91 and \$3.31, respectively, above the ungraded.

At Farmville, Va., the graded price for last week was \$3.60 over the ungraded, and during the previous week it was \$3.68 higher.

These items are well worth the attention of our people. It will do away with favoritism and cause every farmer to get more for his crop.

It will be too late to get a grader for next season if we wait until the day before the market opens. Let's start now!

**A Worthy Demonstration**

The Jamesville Young Tar Heel Farmers' Club gave a demonstration at the Kiwanis Club at the Wednesday meeting. Four members of this agricultural class gave a study in soils, showing how to test them in order to find what should be done for the best results in producing various crops. Another gave a talk on the proper method of keeping books of costs of growing and handling various crops. One gave a talk on the proper method of constructing feed and storage houses.

The fourth member of the class explained the business relationship and the dependence of every interest and every person in the country, from the President down, on the success of the farmer, whose success or failure is the business barometer and spells the success or failure of practically every interest in the land.

When the schools of this State put as much attention to agriculture and economics as they do to ball we will have fewer failures.

**Tax Reduction Bank**

Income tax reduction is the greatest fraud the Government is perpetrating on the public as a relief measure. What 99 out of every 100 North Carolinians need is an increase in the income tax rate, because there are so few people who are paying such a tax; only one and a small fraction out of each hundred making enough to pay an income tax. It may sound good to talk about tax reduction, but the only thing that will do us any good is to reduce the right kind of taxes and not incomes.

What we really need is income tax sufficient to support our government. If a farmer makes a good crop, let him pay a good tax; if he makes a small crop, then charge him only a little tax.
