CENTRAL SERVICE STATION

To the Democratic **Voters of Martin** County

In announcing my candidacy for the office of Register of Deeds, I realize that I am not known to many of you. I expect every Martin County citizen to make his or her choice as to who they shall have to serve

For those of you who do not know me, and it is very doubtful that I shall have the opportunity of seeing you, I wish to inform you that I am not Mr. Luther Hardison, of Griffin's Township and now of Jamesville, as some have thought.

I am not a professional man, nor is one requiredor at least we haven't been requiring one. I am not ashamed that I am a member of the Church of Christ and the Democratic Party. I have supported the church and state and the public interests generally until overcome by physical disabilities, coupled with disastrous results of "favoritism in law," whch has wrough profitless toil to most of us who live or stay on the farms. With this condition, our public burdens have been hard to carry on, with those of a more private nature, and since the other candidate, Mr. Getsinger-the efficient servant that he is-has enjoyed the benefits and our confidence that you and I have extended him for a number of years, it seems not out of place for me to ask for a place where the physical burden is not so great and where the benefits, although twice reduced as it must of necessity be, will more nearly meet living requirements.

United States and its departments down to the towns, including instructional and debt service ought to have been adjusted before now more nearly in proportion to the ability of the taxpayers to pay, with due regard for qualifications.

I am asking for your support in the forthcoming primary. No new job is to be created, for it seems we have a surplus of public jobs as well as products of the farm. I have so little to spend in traveling over the county to let you observe me that I must rely on those (if any) who appreciate the opportunity of votting for a new candidate (who realizes conditions as they exist with most of you and that one in office has an advantage) to lend me such assistance as they may feel inclined to give.

I hope all of you will consider this choice that you are going to make, in view of the fact that I have not been benefited with public offices, and if a distribution of benefits of the public is ever justified it is now, and exercise your privilege for the greatest good to the greatest number.

I believe I can perform the services that are requested and required with but very little difficulty.

Respectfully,
