### Guard Against Fires

This is Fire Prevention Week.

Half, and perhaps more, of the fire losses are caused by neglect and carelessness, much of it as a result of careless ignorance. For that reason we need special schooling and special drills on fire prevention and precautions against fires.

The man who properly constructs his house, both within and without, will have few accidental fires. Yet he may have his home burned by the careless handling of matches, lamps, cigarette stumps, or by permitting trash, paper, and other combustible materials to accumulate. Greasy rags, stored away in closets and other places are also dangerous and cause many fires by spontaneous combustion. Acids, oils, and gas are all very dangerous, and should be handled with much care at all times.

Fire is always destroying life and property, and what it destroys it never gives back. It is a total loss. If your house, your timber, your goods, or your body is burned, there is no return.

All children need to be constantly taught the danger in fire and the proper way to handle it. Mothers should go through the pockets of their children to see that they do not carry matches. Fathers should examine every chimney and every flue to see that there are no holes or cracks that will permit burning soot to come in contact with wood. Every flue with brick on edge should be taken down and the brick laid flat with good mortar between. Keep the curtains away from burning lamps. Don't hang metal pieces across light wires.

With proper care on the part of the people and proper care by insurance companies not to insure too highly, the fire loss would be negligible.

The American people can save several hundred millions each year from fire loss if they will.

### Encouraging Signs

With two new banks opening in eastern North Carolina last week, business must be improving. It is an established fact that when people put their money to work, conditions will improve. Goldsboro and Henderson each opened closed banks last week and in so doing customers of the two institutions will

save thousands of dollars, all because they have been given an opportunity to work out of the depression.

There has never been a better time in the history of American business than now to trust money with the banks. More care is exercised and more safeguards are in effect now than at any time in handling money, and when everyone meditates and places all money in the bank and into circulation business will improve in proportion.

A former Williamston man, Mr. R. G. Harrison, was instrumental along with a few others in the reopening of the Henderson bank, and we believe that through his efforts much good will result for the people there and in that section.

### A Dream That Failed to Materialize

Insull's dream never came true. The dream he had of absorbing all the electric power of America—which would be so bright that the sun would look like a stop-light on an automobile in comparison—seems to have utterly failed, and now one Insull is in Canada, a prisoner, guarded by a bond; while the other Insull is in Greece, fleeing from the wrath that has already come.

Insull wanted more than the electric power. He wanted the legislative power and sought to obtain it by the purchase of senatorial seats for his friends.

This all goes to show that the world was not made for one man, but for all men, and that we suffer more when we have too much than we do when we have too little. We need to be taught that our souls are more valuable than everything we can get in this world.

### Definite Program Should Be Planned

Senator J. W. Bailey has had something to say about what President Roosevelt and his Democratic Congress should do after they take office on March 4th. That is not politics—it is statesmanship. The fellow who has no higher political aspirations or greater knowledge of conditions than to wish to ride into office by cursing Hoover and the Republican Party is not the best type of Democrat.

What we need is a man, or men, who are able and willing to do the people good. The idea of changing administrations simply for the purpose of changing postmasters or procuring a new cabinet will count very little in bringing prosperity.

But we do need a new system that will save cost in government and put every business and industry on an equal footing—recognizing the individual as the foundation of our government and always recognizing man as more important than any business or any combination of businesses.

It is better for business to suffer than it is for man to suffer. The Democratic party needs to have relief measures already framed so that they may be written into law within 60 days after the 4th of next March.

The sin of the last Congress was its dilatory tactics practiced by the members of the Republican Party generally and by some added Democrats.

### Less Expenses

The Government will sell \$450,000,000 in new securities on October 15 to take care of interest and bond payments due on that date, and which she is unable to pay.

That is where the government beats the ordinary fellow. It can sell all the bonds it wishes at 3 per cent interest, while the individual finds it hard to get loans at any price.

But, after all, it proves that the government and most individuals are about alike when it comes to extravagance. Less expenses are what we need to even up our budgets.

## THE LETTER-BOX

### RESOLUTION OF THANKS

When the John Hassell Post of the American Legion met in Williamston Monday evening, October 3, it was presented with a beautiful flag by Misses Clyde Hassell and Hattie Thrower. This was the flag that draped the casket in which young Hassell was returned to this country.

In accepting the gracious gift, the organization ordered that suitable resolutions be drawn up and published in the Williamston Enterprise and the Robersonville Herald. Accordingly, the following resolutions are offered: "Resolved, That the members of the John W. Hassell Post of the American Legion express its heart-felt gratitude to Misses Clyde Hassell and Hattie Thrower for the beautiful American flag presented to this post. And it suggests that copies of this resolution be spread upon the minutes of the post, published in the county papers, and given to the donors."

POST CHAPLAIN.

## Wake Up Your Liver Bile —Without Calomel

### And You'll Jump Out of Bed in the Morning 'Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only make the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned. It takes these good old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resist a substitute. 25c at all stores. © 1931, C. M. Co.
