**In Rocky Mount**  
 Mrs. P. H. Brown and Mrs. Minnie Ballance spent Wednesday in Rocky Mount shopping.

**To Visit in Petersburg**  
 Miss Rebekah Harrison and Walter Latham will spend the week-end with Miss Mary Davis Hardison in Petersburg.

**Cawthorne-Manning**  
 On Tuesday evening at 7 o'clock a very impressive wedding ceremony was performed by Elder W. B. Harrington, when Miss Kathleen Manning and Mr. Cornelius Cawthorne were married at the home of the bride's parents in Griffins Township. Miss Janie Manning, sister of the bride, was her only attendant, and Mr. Delmar Manning, brother of the bride, was best man. There were a number of friends of the participating parties present.  
 Mrs. Cawthorne is the oldest daughter of Mr. and Mrs. W. Alexander Manning and is descended from some of the oldest families in this section. She is very popular and has many friends who regret that she will move to another state to make her home.  
 Mr. Cawthorne is a native of Newark, N. J., where he works with a Newark bus line. They will make their home in that city, leaving here next Wednesday after visiting relatives in this section for a week.

**Shower**  
 Mrs. J. G. Corey and Mrs. Elbert Manning entertained with a miscellaneous shower on Monday evening from 4 to 6 o'clock at the home of Mrs. Corey, complimentary to Miss Kathleen Manning, whose marriage took place on Tuesday evening.  
 The lower floor of the home was thrown en suite and lovely summer flowers were effectively used in profusion. The hostesses greeted the guests at the door, and the gifts were arranged in the dining room. The party was a surprise to the honoree and after she came a contest was engaged in which took her to the gift room, where she found many lovely gifts. After these were opened and admired an ice cream was served.  
 About thirty guests were present.

**Person Dairymen Going In for Pure-Bred Stock**  
 Dairy farmers of Person County are either shading all scrub and grade bulls for purebred animals or are selling them for beef and will buy registered bulls. County Agent Sanders reports that ten animals were placed last week.

**Play To Be Given By Girls And Boys of the Macedonia Bible School**  
 The senior class of the Macedonia Bible School will, on Friday night, July 6th, 1933, at 8:15 o'clock, present the play entitled, 'The Old Maids' Club,' at School Building.  
 The cast contains 14 "Old Maids" and two "Old Bachelors."  
 Time: Two hours.  
 Admission will be 5 and 10 cents. Proceeds to go to the church at that place. Delicious home-made ice cream will also be sold.  
 Everybody is invited to come.

**PRESIDENT HAD FULL SUPPORT OF CONGRESS**  
**Every Bill Proposed by Him Is Passed Before Recent Adjournment**

Washington.—The 73rd Congress accomplished a history making record of legislation passing every bill submitted by the government on new enterprises.  
 Briefly recapitulated here is what was done:  
 Financial legislation.  
 Took the American dollar off gold, placed the banking system under emergency federal control cancelled all public and private promises to pay in gold. Appropriated more than \$5,270,000,000, most of it for extraordinary expenditures to be bond issue financed and not included in the regular budget.  
 Authorized the president to reduce normal expenditures nearly one billion dollars to bring the budget to somewhat of a balance.  
 Imposed new taxes to yield \$220,000,000 to fund the extraordinary bond issues.  
 Continued through 1934 all special excises levied by the previous Congress.  
 Enlarged the federal tax on gasoline and transferred the electricity 3 per cent tax from consumers to producers.  
 Limited the capital gains and losses provision of the income tax law.  
 Ordered far reaching revision of American banking methods limiting opportunities for speculation with the power of private banks, reducing bank credits insuring deposits restrictedly and strengthening federal supervision.  
 Put issuance of bank securities under a federal provision inaugurating a policy of making the seller beware. Measure for relief.  
 Authorized country's biggest public construction program, more than three billion dollars worth, to create employment.  
 Voted first federal large scale direct relief grants \$500,000,000.  
 Made possible anti trust law suspension for new industrial policy of government supervised trade agreement to control production, boost prices, wages and employment.  
 Approved creation of civilian conservation corps to employ quarter million young men at conservation work on dollar a day basis.  
 Gave the Secretary of agriculture power to boost farm prices through a wide variety of alternative programs combining most of the farm relief proposals of the past ten years.  
 Made available four billion dollars for the relief of farmers and home owners hard pressed under big mortgage load.  
 Authorized reorganization of railroads under federal direction.  
 Other Major Legislation.  
 Legitimized 3.2 per cent beer.  
 Approved government entry in power business by ordering operation Muscle Shoals with federal sale and distribution of current, inaugurating wide range program of developing the Tennessee river basin as a model rural-industrial area.

**WILL PUT 32 NEW SHIPS IN WATER**  
**\$238,000,000 Naval Building Program is Outlined by Secretary Swanson**  
 Washington.—A \$238,000,000 naval building program intended to put thirty-two new ships in the water in three years was formally announced last week by Secretary Swanson.  
 President Roosevelt has agreed to allocate the funds out of the \$3,300,000,000 public works appropriations and is anxious to have the work done as soon as possible, Swanson said.  
 "We will build to the fullest capacity of shipyard facilities," he added. "As quickly as possible we want to get people to work at ship building where 85 per cent of the expenditures goes to labor."  
 "We can start it in the navy yard at once."  
 "We hope to open bids for private shipyards in July and may be ready to go ahead in them by August, though that depends a great deal on bids."  
 Trough Creek, in Huntingdon county, Pa., covers a distance of only 2 miles, yet its course is so crooked that it is approximately 70 miles long.  
 At York, S. C., Wm. Sanders, colored, was arraigned for murder, tried, convicted and sentenced to death—all in 77 minutes.

**COTTON MILL IS NOW BURNING WOOD FOR FUEL**  
**Experiment by Statesville Firm Proves Value of Native Fuel**

Industrial plants along with home owners and school officials have learned that wood is an excellent fuel and may be used with economy and effectiveness under present business conditions.  
 "The experience of the Statesville Cotton Mills is a good example of this," says R. W. Graeber, extension forester at State College. "This plant operates large boiler, fired in four units and designed for coal. They must have a minimum steam pressure of 110 pounds during the day, but the mills have found it advantageous to turn to wood as a fuel. For the past ten months these mills have been using wood with satisfaction and at a great saving. They began firing with wood to test out the claim that the material could be used in industrial plants. The results were entirely satisfactory. In addition, they have spent considerable money locally, thus aiding in the unemployment situation."  
 Mr. Graeber says the Statesville plant has been using an average of 7 to 8 cords a day, consisting of a mixture of hardwood, mostly oak and hickory. One and one-half cords of

this mixture has been equivalent to one ton of coal. The plant is paying \$2 a cord for wood against \$3.87 a ton for coal. The daily saving has been approximately \$4.  
 In planning to use wood for fuel, the Statesville organization first made an agreement with a group of farmers so that the fuel would be delivered regularly. The firemen says he has had no trouble in keeping the necessary head of steam.  
 Mr. Graeber says that 50 million

cords of wood could be removed from North Carolina woodlands by a proper system of thinning and cutting and that the remaining trees would be benefited by such a removal.  
 Proper management of the poultry flock returned Mrs. Wicker of Sanford in Lee County a net profit of 14 cents a bird last month.  
 She has a flock of 85 white leghorns that laid an average of 25.23 eggs during the month.

**Tenants**  
 on his several farms have been willed these properties outright in the last testament of a West Virginia land owner.

Are you considering the terms of your will? Remember that settling an estate is an involved undertaking needing experience and specialized facilities.

The Branch Banking and Trust Company brings to this exacting service long experience, special training, and the strongest legal, physical and financial safeguards. We invite interviews.

**IT'S HIGH TIME FOR GASOLINE ADVERTISING TO COME DOWN TO EARTH**

THE STANDARD OIL COMPANY OF NEW JERSEY, as leader of the industry, is helping to bring it down—to put gasoline advertising on a sensible basis. You cannot clothe yourself—or buy food for yourself—or run a car—on exaggerated advertising claims or misleading ratings of gasoline efficiency. But, if you believe the nonsense that seems to be the fashion in today's gasoline advertising, you can surely let yourself in for disappointment—and waste your money. We guarantee smoother performance. And remember, this guarantee comes from the Standard Oil Company of New Jersey, the world's largest oil organization. From a company which has pioneered in new developments and is fully aware of the importance of such a guarantee from a company which is the industry's recognized leader. This company stands squarely back of Essolene as a great advance over gasoline—a new goal for all gasolines to attain. We urge you to try it once—when your tank is cleared of other fuels. Do this—judge Essolene for yourself with no exaggerated claims and descriptions to confuse you, and we will rest our case on your decision. Essolene is sold at all Esso Stations and Dealers from Maine to Louisiana.
