PEANUT MILLERS have to pay a "Processing Tax" of one cent per pound on all farmer's stock peanuts milled and sold to the edible trade. A part of this Processing Tax is to be paid by the Government to "Oil Mills" for peanuts crushed for oil. If TOO MANY peanuts are crushed into oil, it may cause a short supply before the next crop.

North Carolina Has Its Own Peanut Milling Industry and the
COLUMBIAN PEANUT COMPANY
Has Built Its Mills and Warehouses in the Midst of the Growers for Their Convenience

**Let's All Work Together in a Spirit of Co-operation
