SECRETARY WALLACE POINTS OUT DANGER TO AMERICAN FARM

Washington—Declaring that American farm land was wearing out faster than it was being restored, Secretary Wallace this week announced changes in Agriculture Department programs designed to increase their effectiveness in conserving soil and forestry resources. Immediately affected are programs of the Agricultural Adjustment Administration, the Farm Security Administration, the Soil Conservation Service, the Forest Service, the Bureau of Agricultural Economics and the Extension Service. Through programs operated by these units, farmers will be asked—and in some cases required—to place greater emphasis upon conservation. "Land is still wearing out faster than we can restore it," Wallace said. "We are making substantial progress toward conservation, yet few realize that all we have done is only a start in the right direction." One important change in the program of the Farm Security Administration—which extends farm pur-

THINGS TO WATCH FOR IN THE FUTURE

Cigarettes designed especially for women. They have rose-tinted, lipstick-proof tips. A gadget for the gasolene-tank that whistles while the tank is being filled and stops when the overflow point is reached. Also for service stations—a shield which fits over the tank opening of a car and the gasoline hose nozzle, to keep rain out while the tank is being filled. For inventors: a game is now on the market which makes each player a Hollywood producer instead of a real estate promoter.

CHURCH NEWS

The ordinance of baptism will be administered Sunday evening. The sermon-subject is "The Meaning of Church Membership." A good way to approach the New Year is to go to church on the last day and last Sunday of the Old Year. May the Lord bless every church in our town and lead us all in a great program for the year 1940. Pastors need your prayers.

Just for The Record... Six months ago, when the Brewers and North Carolina Beer Distributors Committee was formed, a definite and sincere promise was made to the public. We pledged the aid of this industry to the law-enforcement agencies in seeing that retailers of beer operate their establishments in accordance with the law and public sentiment. That promise is being carried out—and will be carried out permanently. The record shows that in the past four months, the legal beer industry in this state has assisted authorities in bringing about the revocation of 34 licenses. You can help your law-enforcement authorities and this weakened industry by giving your patronage only to reputable beer dealers—who deserve it.
