Oscar Edwards Asks \$5,000.00 Damages As Result Of Accident

(Continued from page one)

regard for the rights and safety of others without due caution or cir-cumspection and at a rate of speed lives and property of others, which did destroy the property of this plaintiff and seriously injure him.

In that the defendant maliciously and wrongfully, wilfully and unlawfully operated said car on the wrong side of the road in a manner to en-canger, which did injure persons

nd property of this plaintiff.
In that the defendant wrongfully unlawfully, carelessly and wilfully and maliciously operated said car at and mainclously operated said car at such a rate of speed, having failed to keep the proper lookout, when de-fendant, by keeping the proper look-out, and his car under control, could have and would have avoided run-ning into plaintiff and causing the

That by reason of the negligence of defendant as above set out in de-tail and as a direct and proximate consequence thereof, this plaintiff has been seriously injured, disabled has been seriously injured disabled and disfigured, his shoulder and Shirley Stalls. head were cut and bruised, his broken in two places and his foot Christenberry. Florene Coffield, and knee crushed and broken; that Dorothy Virginia Smith and Lina from said injuries he has suffered Christenberry and is still suffering metal pain and anguish, all to his great and lasting damage and has sustained medical time on account of said injuries in and Earl Hollis the sum of \$5,000.

That by reason of the negligence of the defendant as heretofore set Eula Williams out, plaintiff's car was completely demolished and at the time, or before the collision, was worth \$250 and same was so demolished that it had to be sold for junk and plaintiff has Rawls. been damaged in property damages in the sum of \$250.

Cotton Production Undergoes Marked Decrease In County

(Continued from page one)

heved that Martin farmers this year again turn to cotton. The will not suggest the possibility of a record by any means for Martin far-tners, like the eigarette field, can't et tobacco out of their farming sys tem to any great extent. It is esti-mated that three-fourths, if not four-fifths of the allotment will be taken by the farmers in the county this

The following figures give acreage and production trends in cotton as applied to this county from 1928 to

the present time:		
Year	Acreage	Bales
1928	11,300	5,960
1929	9,500	3,320
1930	8,500	3.710
1931	5,500	3,240
1932	9,100	5,670
1933	9,450	6,710
1934	7,350	5,130
1935	6,240	3,750
1936	7,500	4,900
1937	8,420	5.640
1938	5,439	1,158
1939	3.107	521

It is estimated that the approxi- 600 are expected to attend.

While Martin County held next to mittee, is in Washington this weekthe lowest rank in cotton production, end arranging for a speaker for this
29 counties forged ahead with their production to increase the total for announced in detail later. the State last year to 459,560 bales as compared with 393,112 in 1938.

detailed survey is completed. Called in for an opinion, Enginee Wallace, WPA district head, stated that his organization would furnish all available certified labor and supervision and a portion of the cost of materials. Approximately \$10 is allowed for materials for each man monthly, meaning that if the project employs 50 men approximately \$500 will be contributed by the WPA for

water supply has been cause for con cern during the past several years. At one time the pumps were in op-eration for short periods daily, but now they are operated during most of the day in an effort to keep an adequate supply for immediate con-sumption. The WPA will not participate in the sinking of a well, but the town will be given so much credit on its water and sewer extension projects for the expenditure of approximately \$12,000 in sinking the well. It is a recognized fact that a fourth deep well is necessary, and since they must make provision for it, the authorities see a marked adit, the authorities see a marked advantage in promoting at the same time a project for the extension of water and sewer lines and making available increased fire protection

Land For Rural Youth Is Lacking, Report Says

For every farm vacated in the course of the year because of re-tirement, death or shift of the oper-ator to a new occupation, population figures show that two farm youths come of age and are ready to begin operating a farm or to enter indus-

Though the cities are not even self-populating having a birth rate that produces only eight-tenths en-ough children to maintain their population, the farms produce one and one-half times as many children as they need to maintain their popula-tion. Each year 400,000 farm boys, and a like number of farm girls, fin-ish school and are ready to start work. As an old saying indicates, babies are still the biggest bumper crop produced by the farm.
