North Carolina's "45"

Everybody knows that once upon a time, "45" meant the blue-steel authority holstered on the law's hip to back up his badge.

Today, 45 has a new meaning in North Carolina. In only nine months of operation the Brewers and North Carolina Beer Distributors Committee has cooperated with county and local authorities in bringing about the revocation of legal beer licenses in 45 places where laws were being violated. We don't want beer sold that way!

That's help for the law, too—but a modern kind of help. It is help for North Carolinians—the aid of a united beer industry in preserving the economic and social benefits of a moderate beverage providing \$1,410,668 annually in tax revenue.

"Well, why don't you ASK somebody how to cook a steak!"
"I know HOW, Jim... but it never works out! Shush, anyway... I'm tired!"
This is the story of a man who loves his wife, but he likes his steaks, too.

"Jane, you work like a slave in that darn kitchen. If you could only cook!"
"I CAN cook, Jim. It isn't a matter of ability or recipe. What I need... is a modern Electric Range to take the drudgery out of cooking, and for precision-like results!"

"Jim... I need something new for the kitchen. I want to surprise you... but may I buy it?"
"Go ahead... I hope it's something to improve your cooking! But remember the budget, little woman!"
Don't worry, Jim. Today's modern Electric Ranges cost surprisingly little, easy terms are available, and low electric rates make them economical to use.

"There... how's that for dinner! And you needn't look so surprised, I DID cook it!"
"Then I take back everything I've ever said about your cooking, dear!"
Split the credit with Jane's new Electric Range. Jim. And her pleasure in its efficiency, speed, cleanliness, and many automatic features will well repay the modest cost!

Now THAT'S my idea of a steak
