

Manager 'Red' Swain Continues to Shuffle Martin Lineup

Trying To Sign "Slim" Gardner For Pitching Duty; Breese Is Ready

Wilcox Will Report Here This Week-end To Begin Catching

Two Rookie Outfielders Are Also Expected To Sign With Locals

With seven straight losses behind them, the Williamston Martins are expected to present an improved team in Coastal Plain play if the hard labor of Manager "Red" Swain is destined to prove advantageous. "Red" has been working hard during the past week in an attempt to bolster the standing of the Martins, and says that if the present team does not start winning he will make even more changes in the line-up.

Swain is making an earnest attempt to make a place for "Slim" Gardner, Jamesville baseball product, who was ranked an ace pitcher back in the old Albemarle league. "Slim" has been working out with the Martins, and despite the fact that he is a youngster no more, has a good curve ball and is ready to go. Definite information concerning Gardner's signing is expected early next week. He would be ranked as a rookie.

Delbert Breese, veteran right hand hurler, has been signed by the Martins and is on the active list and rarin' to go. With an exceptionally fine screwball and unusual control, Del is expected to create quite a sensation in the Coastal loop. He replaced X. Brown as the third unlimbited class player.

According to Skipper Swain, either Breese or himself will pitch the game in Greenville tonight, with the other hurler starting against Snow Hill here tomorrow evening.

Charlie "Donald Duck" Wilcox is expected to arrive here this week-end to improve the receiving department. Last year Charlie was quite successful as manager of a semi-pro team in Alabama. Due to his position as an athletic instructor and coach in a large high school in his home state, Wilcox is late in reporting, but he will arrive this week-end and writes that he is in fine shape.

The Martin manager has two outfielders coming in who will be given a try-out for the garden positions. Sanford, a left-handed hitter with plenty of power, speed and a good arm, will come from Tennessee. The other outfield prospect, Harrison, has a fancy .379 batting average in semi-pro circles, and bats right-handed. He stands well over six

Bears Prove Too Much For Martins Here Last Tuesday

New Bern Hurler Plays a Big Part in 6 to 4 Victory

Williamston's Martins saw too much Wattigney, both on the New Bern mound and at bat, and as a result, lost another contest here last Tuesday night with New Bern getting the big end of a 6-4 score. Wattigney, although allowing 11 hits, put the pressure on in the pinch and kept the Martins well in hand. He drove in three runs for the Bears on a homer and single for three trips to the plate.

Ted Miller went the route for the locals, allowing only seven safeties, while fanning 7 and walking five.

Williamston first two runs came in the second inning on Slakis' double, singles by Stotter and Stevens, two stolen bases and an outfield fly. The other two scores came in the ninth on three singles, a wild pitch and an outfield fly.

"Big Leaguer" Beard, playing right field in this game, led the local batting attack with two for four. Lozier Newman also got two hits.

Returns from Greenville

Miss Reid White has returned from Greenville where she attended E.C.T.C., last term, to spend the summer here with relatives.

feet. Both are rookies. Little Eddie Bartnick has gone home for several days to make certain arrangements, but is expected back shortly to take his regular turn in the hurling staff.

Pezalla has been released, along with Brown. And that's all the news from the Martin front today, but if the situation doesn't make a change for the better, more changes will be made.

Elmo Wallace Wins the Local Marble Player Championship

Competing with a large number of contestants, Elmo "Bo-Bo" Wallace won the local marble players' championship this week and earns a place in the State Marble Tournament to be held in Greensboro on June 14 and 15. The competition was held at the graded school. Elmo, a pupil in the sixth grade, is only eleven years old.

Sports Are Ranked Big Business Class

Sports long ago ceased to be merely a form of amusement; they have become Big Business. Biggest trend of the sports "industry" this summer will be the accelerated swing toward night contests, under the lights, making it possible for still larger throngs and still more millions of dollars to be attracted. It is not generally known that unconscious teamwork of urchins and research scientists made it all possible. The idea was born in 1923, when GE engineers, installing floodlights for a celebration at Lynn, Mass., noticed that youngsters of the neighborhood had little difficulty playing a game of ball while the work was going on. It became practical when research scientists in laboratories in 1934 developed what they called the Alzak finish for aluminum reflectors, assuring bright lights and economical maintenance of plants. This summer 70 major league baseball games will be played at night in eight cities, while seven out of every ten minor league contests will be "under the mazzas."

Tom Crockett Ranks High In UNC Sports

Shown above are the captains and co-captains of six Southern Conference championship teams. A seventh title—the South Atlantic Championship—was won by the fencing team of which Allan Bloom served as co-captain with Joe Boak.

Fred Hardy and Tom Crockett, local youth, enjoyed the distinction of being on three of the half dozen conference championship teams. They led the Tar Heels to the conference cross country title last fall, played an important part in winning the indoor track crown during the winter, and were also instrumental in helping Carolina add the outdoor championship this spring.

Four of the eight captains are North Carolina boys: Crockett, hails from Williamston; Davis from Goldsboro; Mueller from Charlotte; and Rawlings from Winston-Salem. Bloom resides in New York City. Diworth in Bryn Mawr, Pa.; Rider in Malverne, N. Y.; and Hardy in Richmond.

In addition to the six Conference titles and one South Atlantic crown, Tar Heel teams also copped three State championships and tied for another. They won State championships in swimming, boxing and wrestling and tied for first honors with Wake Forest in baseball.

Electricity Is Put To Work On Farm

Good Beef Produced On Southern Grass

Rural electrification has brought light and modern conveniences to thousands of North Carolina farm homes within the past few years. "Now," says D. E. Jones, rural electrification specialist of N. C. State College, "farmers are learning how electricity can be put to work to lighten burdens and economically operate heating and refrigeration units on the farm."

It doesn't require low-corn to produce palatable and nutritious beef, says Earl H. Hostetter, professor of animal husbandry at N. C. State College. "Our Southern grass will do just as good a job, if we use good sires in breeding our cattle," he declares.

He named the operation of brooders for chicks, dairy equipment, and feed grinders, and the heating of plant beds as ways that farmers are using their new-found source of power and heat.

"Recent research has shown that good beef can be produced from Southern pastures, roughages and cottonseed meal," the animal husbandman says. "With the long growing season and greater stress on improved pastures, the finishing of beef cattle will prove a profitable practice in the Southern States. Added to profit from the sale of beef is the value of plant food restored to the pasture land without labor in handling manure."

Electric brooders are becoming popular, and among those who have expressed themselves as thoroughly satisfied with this modern equipment are J. A. Rowland, of Stanly County; John Workman, of Cleveland County; and Mrs. J. C. Barber, of Rowan County. Mr. Rowland figured his cost at slightly more than one cent per chick despite the severe winter just past.

Prof. Hostetter says that experiments by the North Carolina, and other experiment stations, have shown in certain cases that larger returns are possible from beef cattle that are fed cottonseed cake, or a mixture of cottonseed meal and grain, in addition to pasture. Also by this method the quality of beef is improved and more rapid gains are made, higher prices are secured, and less grain is used than for cattle that are fed to the same degree of finish in a dry lot.

Ralph Scott, of Alamance County, and Roy and Francis Siegan, of Catawba County, are enthused over their new feed grinding mills operated by electric motors. Mr. Scott says: "I am convinced that the feed grinding problem on my farm is solved through use of this mill. I can grind nearly 60 bushels of ear corn an hour and use only five kilowatt hours of electricity."

"Cotton belt feeders have proved that cottonseed meal is not only an economical and efficient source of protein, but, in addition, has a productive or fattening value that is important in feeding on grass," the State College man declared.

Jones also reports that Ira and Hugh Bailey, in Rowan County, are using electricity to pump water for the irrigation of their truck crops, and to heat plant beds to start lettuce, pepper and tomato plants. "A few farmers are also using electrically-heated sweet potato plant beds," Jones stated.

Williamston Runs Its Losing Streak To Seven Games

And Again It Is the New Bern Bears Who Turn the Trick

Continuing their losing streak, the Martins were defeated Wednesday night by New Bern there. The score was 7 to 5.

Little Eddie Bartnick pitched the route for Williamston, and except for the third inning, when the Bears scored four runs, held the situation well under control. He struck out four and walked two.

Secondbaseman Slakis was the only Martin to hit safely more than once.

My Sincere Thanks

I wish to take this opportunity to thank my many friends and voters of Martin County for the splendid cooperation and support given my candidacy for the treasurer's office. I was well pleased with the result which was even greater than I had dared to hope.

After giving the matter due consideration and at the suggestion of many of my friends, I hereby announce that I am a candidate for the treasurer's office in the Second Democratic Primary to be held on June 22nd.

I will greatly appreciate all the support that can be afforded my candidacy by the Democratic Voters of Martin County.

Sincerely yours,
BEN COURTNEY
