HINTS FOR  
HOMEMAKERS  
By Mary Brown Allgood, Home  
Service Director, Virginia Electric  
And Power Company

The annual trek to the beach, cabins and camps call for certain precautionary things at home. Before closing the house for any length of time a systematic check will enable one to get back into the routine of living with a minimum of effort.

Miss Allgood

Look for leaks in roofs and gutters and make repairs. Put all food in covered tin or glass containers. All jars of liquids must be protected from both extreme heat and freezing.

Leave ice box clean and open to air.

Have ice box drain clean.

Mechanical refrigerator: Defrost and add fresh water, then turn to warmest position rather than "off".

Dispose of rubbish such as paper, rags, excelsior, shavings or oily rags. Put matches in tin box.

Do not store any oil, gasoline, paint or varnish in house.

All paint brushes should have been cleaned after use.

Water should be shut off; call the plumber if necessary. Drain heating system, pipes and boilers.

Close room doors to keep out mice. Fasten all windows and doors.

Place one key in care of trusted neighbor.

Notify fire insurance company, if house is to be closed over 30 days.

Note: If in doubt, get expert advice and help.

To Ventilate A Room

Have hot air going out at the top. Have cold air coming in at the bottom.

Circulation need not be draught. Two windows hasten ventilation. One window down at top. One window up at bottom.

Note: Fresh air brings in health.

To Clean A Refrigerator

Remove all food and racks. Wash racks with ammonia and water.

Wash all compartments with ammonia and water, rinse and wipe dry.

Cool, and replace food.

Note: Be sure stain is all removed, as the odor too often remains.

To Remove Small Spots From Fresh Table Linen

1. Clear fruit (except peaches). a. Place bowl under stain. b. Pour boiling water through stained linen. c. Wipe off excess water after stain is gone. d. Shape linen. e. When half dry, press with warm iron to glaze linen. For peach use bleach.

2. Grease spot. a. Place bowl under stain. b. Cover the spot with soap jelly. c. Rub with tip of finger or soft brush. d. Rinse with warm water to carry off soap. Repeat d. and e. above.

Note: Be sure stain is all removed, lest warm iron set it.

Visit Here Sunday

Mr. and Mrs. W. E. Riles, of Rocky Mount, visited friends here Sunday.
