Will Hitler Regard The Constitution?

Day-by-day Hitler's power in the United States is becoming more evident. In the National Congress there are those who have knowingly or unknowingly formed a partnership stronger than any ever produced at a Gary dinner of old.

Hitler's partners have a sneaking way of helping Hitler and hiding under the very document that would protect the people. They dare not offer direct aid to Hitler, but they do aid him by retarding efforts of others willing to help England. To offer England aid and thereby protect our own hides is, according to Hitler and Company, not in keeping with the spirit of the Constitution. That situation prompts the question, "Will Hitler regard or act in the spirit of the Constitution?"

In recent months he has not held any regard for the constitutions of a number of defenseless countries in Europe. Then why do we harp about the spirit of the Constitution? It would seem advisable for us to act in an effort to save the Constitution and the people from Hitler.

Aiding And Abetting Dictatorship

It would be well for a few of our representatives and senators to give serious concern to the business of aiding and abetting dictatorship.

Briefly stated, the American people are not worrying about dictatorships at home or abroad as long as Mr. Roosevelt continues in Washington. They are getting a bit worried over the possibility of a dictatorship being established if the Congress continues to fail in the performance of its duties in accordance with the mandates of the people.

It would appear about time to recall from the halls of Congress those who come from heavily-

infested German territories and who are seeking to help Hitler under the freedom of our Constitution. The majority of the American people have stated their position in one way or another, and yet there are those in Congress and in other high places who would continue to ignore the majority and dare hold their selfish interests and the interests of Hitler above the cries of that majority. Such procedure can be registered only as aiding and abetting dictatorship. If those whose acts rank them close to a common traitor will not do the bidding of the people, then the people will demand or fight for a dictatorship.

This country survived only by a miracle a revolution back in the early thirties when the common masses were assailed by the financial powers. It is doubtful if they again will stand for the intense sufferings that were theirs a decade ago, and neither will they stand idly by while chump companions of Hitler and pro-German leaders ignore their demands in the very seat of our government.

If Roosevelt is able to continue his policies in close cooperation with that real Southern Gentleman and Patriot, Cordell Hull, there'll be an election in this country month after next. If we listen to the representatives and senators who come out of heavily-infested German territories with the brand of Hitler burned deep in their soul and actions, maybe there'll be no election just two short months from now.

Who Did This?

Transcript and Messenger.

A tobacco farmer saw the good prices being reported from the border belt markets, before the eastern belt opened. His wallet was flat. He wanted money, so he told himself he wondered whether the prices would continue to hold up.

He decided to carry a load to a border market. Did he pick his best or his sorriest tobacco to take?

Why? Well, for a trip of that distance, what he got on a load of his poor tobacco might not even pay for the expense of the trip. So he took his good tobacco.

And then, when he made his first trip to a warehouse nearer home, he got rid of some of his poorer quality leaf. He didn't have to carry it so far, and so expensively, did he?

But the same companies bought on all the markets, at the same prices for the same grades. The farmer's total trucking expenses were just as high for his two loads, whichever he took to a border market and whichever to a market nearer home. What he got for the two loads would be about the same, so long as the buyers judged the grades the same, regardless of where each load was sold.

The farmer came out the same. But the averages—not the prices grade by grade, but the averages—on the border markets ran higher as a result than prices the first few days on the eastern markets.

Character is the real foundation of all worthwhile success.—John Hays Hammond.

Charity is quite as rare as wisdom, but when charity does appear, it is known by its patience and endurance.—Mary Baker Eddy.

Have you seen this Chart at Gulf Stations?

IT SHOWS THE TREMENDOUS IMPROVEMENT IN GULF GASOLINES!

THIS CHART, we hope, will give you a better picture than could a thousand words of the recent amazing improvement in Gulf gasolines. It is based on a scientific test of gasoline quality today—a test that is used by many of our competitors, as well as by ourselves. The chart shows the fair comparative measure of step up in both GOOD GULF and GULF NO-NOX... a step up which is no intangible "engineering triumph" but one which may be enjoyed by you... in your car!

Good Gulf is now boosted to its all-time high... will make your motor perform better than ever before. Gulf No-Nox is now (as always) a truly superior fuel... exceeds by far North Carolina specifications for premium gasoline. It is, even more than former-

ly, knockproof under all normal driving conditions. Try a tankful today—at the Good Gulf dealer's in your neighborhood.
